

# FORMAL SECTOR EMPLOYMENT SURVEY STATS BRIEF

Quarter 4: December 2017

## STATISTICS BOTSWANA

## Preface

This Stats Brief presents formal employment figures during the month of December 2017. The information for this brief is collected quarterly from business establishments through a mailed questionnaire. The brief also presents average earning or wages for all establishments in Government, parastatals and the private sector.

The brief shows that overall, formal employment increased by 0.3 percent between December 2017 and September 2017 with Local Government recording the highest increase of 0.9 percent, followed by Private with 0.1 percent, while Central Government remains almost the same. The increase in Local Government was mainly prompted by the increase in employment of the Ipelegeng Programme, recording an increase of 1.2 percent. The Parastatal Organisations recorded a decrease in employment of 0.1 percent.

On the other hand, the Health and Electricity & Water sectors recorded an increase in employment of 1.5 percent and 1.3 percent between the two quarters. Employee earnings increased from P6,088 in September 2017 to P 6,216 in December 2017, which is an increase of 2.1 percent.

We hope stakeholders find this brief helpful in informing their periodic planning and policy formulation. The brief owes a lot to the business establishments who continue to respond to our questionnaire on employment and employee remuneration. However, Statistics Botswana continues to face serious challenges of some business establishments not responding to the questionnaire thereby, soliciting rigorous and costly follow ups. The non-response may also compromise the accuracy of the figures generated and consequently the decisions based on those figures.

Business entities are, therefore, encouraged to report their employment figures quarterly to enable Statistics Botswana to provide information that will guide informed decision making at all levels.

Thank you

**Dr. Burton Mguni**  
**Statistician General**  
**July 2018**

## 1. INTRODUCTION

This Stats Brief presents results of the December 2017 Employment Survey. The results give summary estimates of formal sector employment, monthly average cash earnings, and minimum hourly wage rates as well as estimates for the Ipelegeng Programme.

## 2. EMPLOYMENT

Table 1 compares formal sector employment for December 2017 and September 2017. The table shows that overall employment increased by 0.3 percent (1,145 persons) from 409,184 persons in September 2017 to 410,329 persons in December 2017. Local Government recorded the highest increase in employment of 1.9 percent, followed by Private with 0.1 percent increase in employment. Parastatal recorded a decrease in employment of 0.1 percent.

In December 2017, a total of 11,280 (2.7 percent) employees were non-citizens. Out of this total, Private and Parastatal sectors recorded 10,163 employees. Construction industry was the major employer of non-citizens (22.8 percent), followed by Education industry (17.3 percent) and Manufacturing industry (16.1 percent). See tables 1 and 2.

Table 3 shows estimated number of employees by economic activity/sector for December 2017. A total of 410,329 employees were recorded, of which 201,192 (49.0 percent) were males while 209,148 (51.0 percent) were females.

## 3. WAGES/EARNINGS

This section presents the estimated monthly average cash earning for employees in formal sector. Monthly average earnings for citizens stood at P5,871, P18,420 for non-citizen and P6,216 for all employees as at end of December 2017. There was an increase of 2.1 percent in monthly average earnings for all employees from September 2017 (P6,088) to December 2017 (P6,216). See table 5.

Minimum hourly wage rates in Thebe per hour from April 2009 to November 2017 for Private and Parastatal sectors only, are presented in Table 7. The table shows that the Minimum hourly rate increased by 52 percent between 2009 and 2017 from 380 thebe to 579 thebe respectively. According to table 7, the minimum hourly wage rates have been increasing over the above mentioned years except for 2009 to 2011, where the rates remained the same for three (3) years.

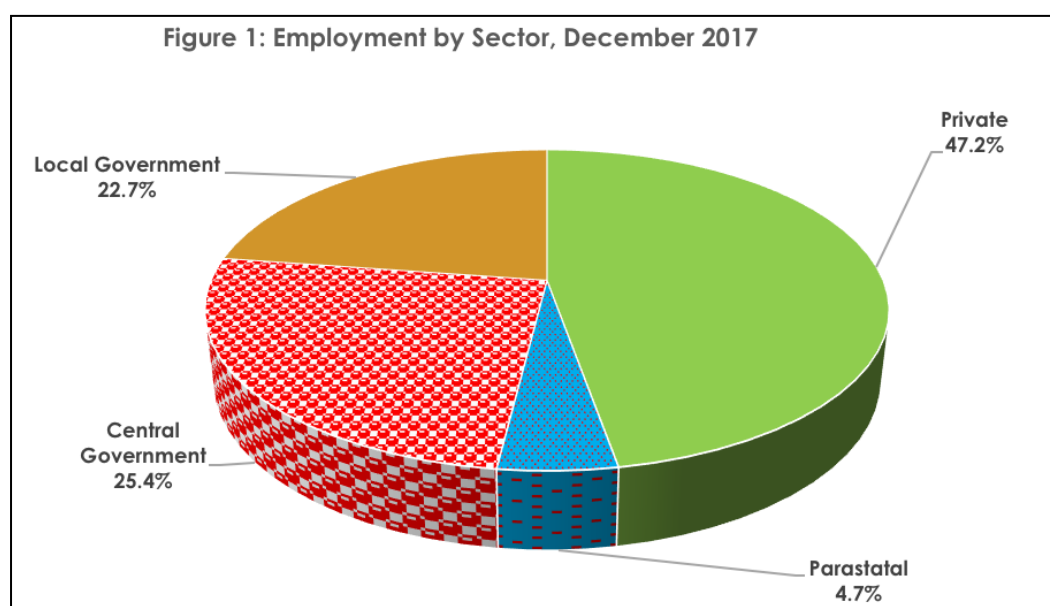

Figure 1 shows December 2017 formal employment by sector. Private sector had the largest share (47.2 percent), followed by Central Government with 25.4 percent. Local Government and Parastatal recorded 22.7 percent and 4.7 percent respectively.

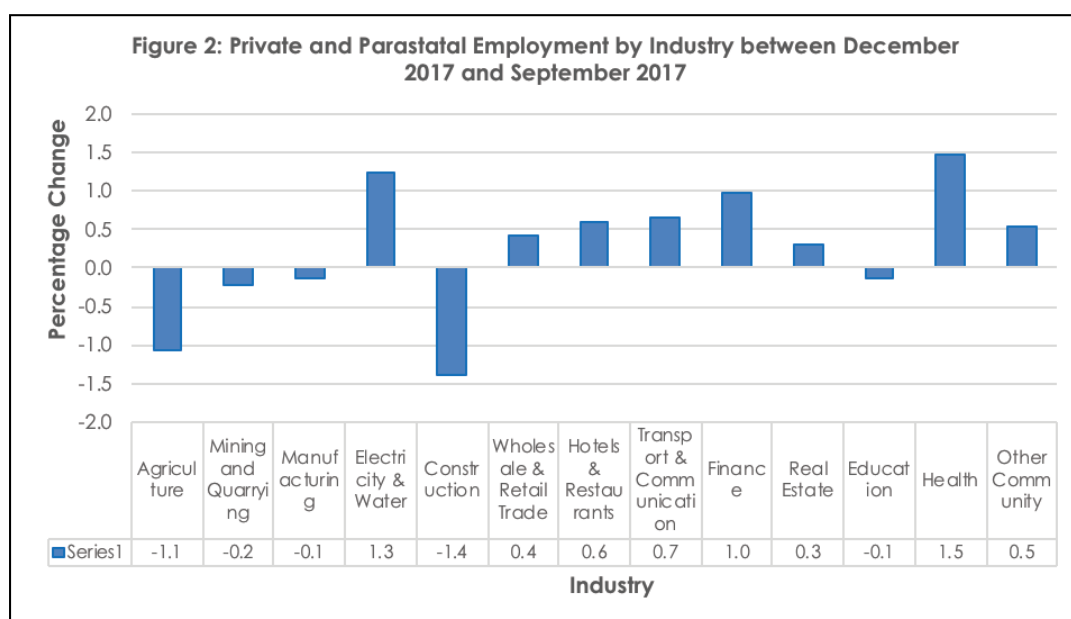

Figure 2 above shows percentage changes for Private and Parastatal Employment by industry between September 2017 and December 2017. Most industries were almost constant in terms of employment increment, except Health and Electricity & Water industry which recorded significant increases of 1.5 and 1.3 percent respectively, followed by Finance with 1.0 percent increase in employment. Construction industry and Agriculture recorded a decrease in employment of 1.4 and 1.1 percent respectively, followed by Mining and Quarrying with 0.2 percent decrease in employment.

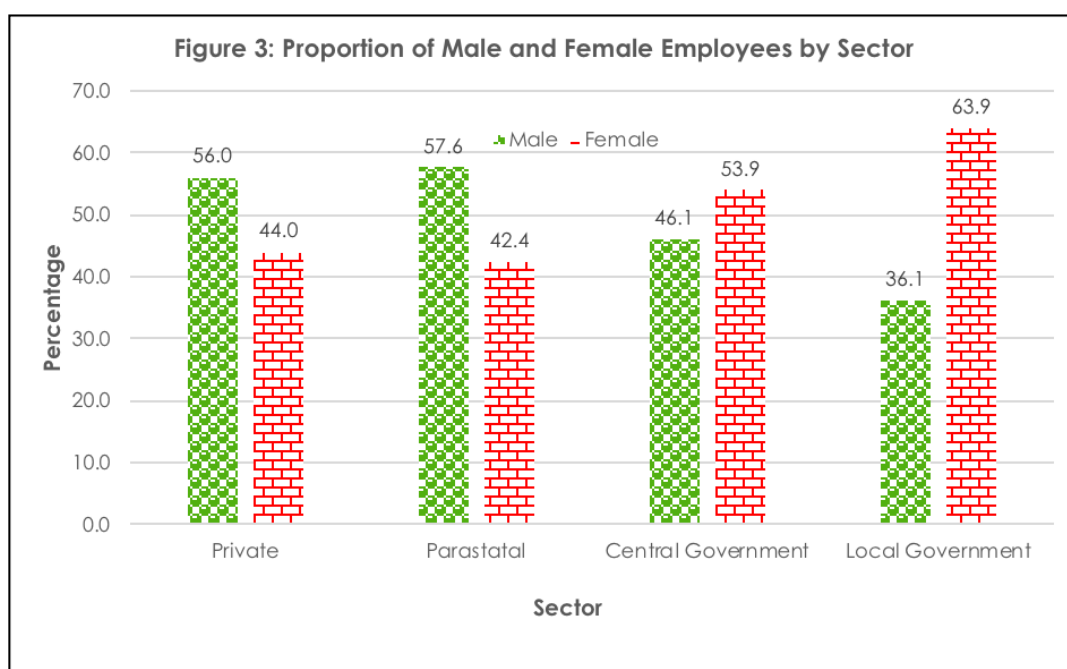

Figure 3 displays proportion of male and female employees by sector. The figure shows that males dominated their female counterparts in Private and Parastatal sectors with 56.0 percent and 57.6 percent respectively. Males constituted 46.1 percent for Central Government and 36.1 percent for Local Government. Female employees were higher in Local Government (63.9 percent), followed by those in Central Government (53.9 percent).
