### GLOSSARY

## COMMENTARY

### Section 1: Headline Inflation

The annual inflation rate was 4.5 percent in April 2014, an increase of 0.1 of a percentage point on the March 2014 rate of 4.4 percent. Annual inflation in April 2014 was lower than the 7.2 percent recorded during the same month in 2013. The downward movement of annual inflation rate between April 2013 and April 2014 was attributed to the stable prices of commodities especially the main components of Transport and Food & Non-Alcoholic Beverages, which decreased by 9.8 and 2.8 percentage points respectively. The inflation rates for regions between March and April, indicated that only rural villages' realized a surge of 0.7 of a percentage point, moving up to 5.3 from 4.6 percent, whilst cities & towns' and urban villages' remained unchanged at 4.4 and 4.3 percent respectively.

The national Consumer Price Index registered an increase of 0.8 percent, advancing from 174.5 in March to 175.9 in April. The rural villages' index moved from 179.6 to 181.2, recording an increase of 0.9 percent. The cities and towns' index realized a rise of 0.8 percent, from 173.2 to 174.7 between the two months, while the urban villages' index moved from 173.4 to 174.5 in the same period, recording an increase of 0.6 percent.

Four group indices recorded changes of at least 1.0 percent between March and April 2014, Miscellaneous Goods & Services (4.5 percent), Recreation & Culture (1.5 percent), Housing, Water, Electricity Gas & Other Fuels (1.2 percent) and Alcoholic Beverages, Tobacco & Narcotics (1.0 percent).

The Miscellaneous Goods & Services index group upped from 131.7 to 137.7, registering an increase of 4.5 percent between March and April. This was attributed to the increase in the section index of Insurance (6.9 percent). The rise in Insurance section index was largely due to an increase in monthly contribution of medical aid by 10 percent that effected on the 1st April 2014.

The Recreation & Culture group index registered an increase of 1.5 percent from 139.6 to 141.6, between March and April. This was owing to a general increase in the constituent section indices, notably; Recreational & Cultural Services (2.8 percent) and Newspapers, Books & Stationery (1.7 percent).

The Housing Water & Electricity group index recorded an increase of 1.2 percent, from 156.5 in March to 158.4 in April. This was due to an increase in the constituent section indices of Electricity Gas and Other Fuels, which rose by 4.7 percent. The rise in the Electricity, Gas & Other Fuels section index was largely due to the hike in the electricity tariffs by 7.5 percent for domestic consumers who consumed less than 200 kWh and more than 200 kWh, which were effected on the 1st April 2014.

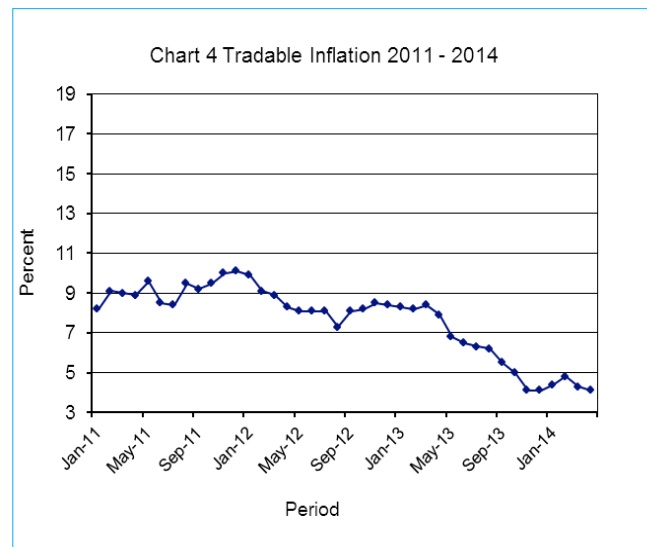

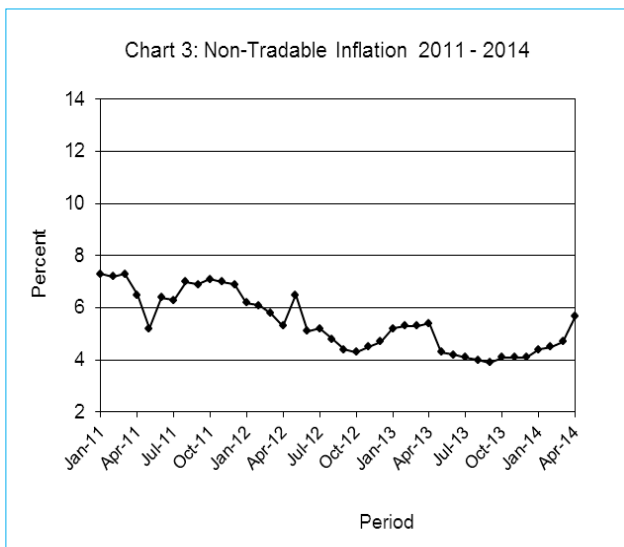

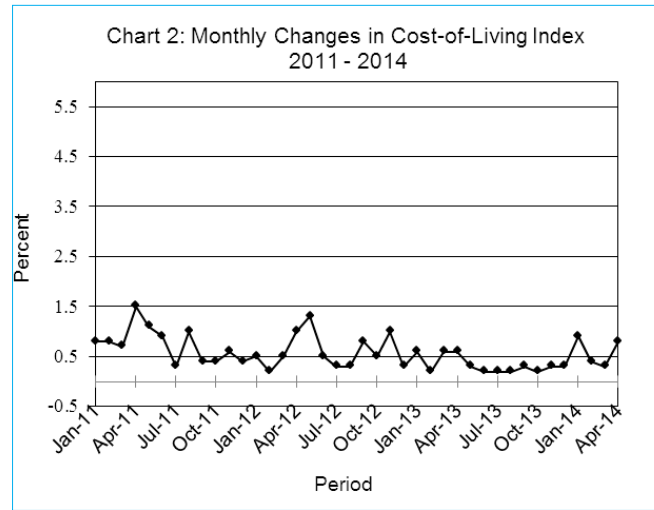

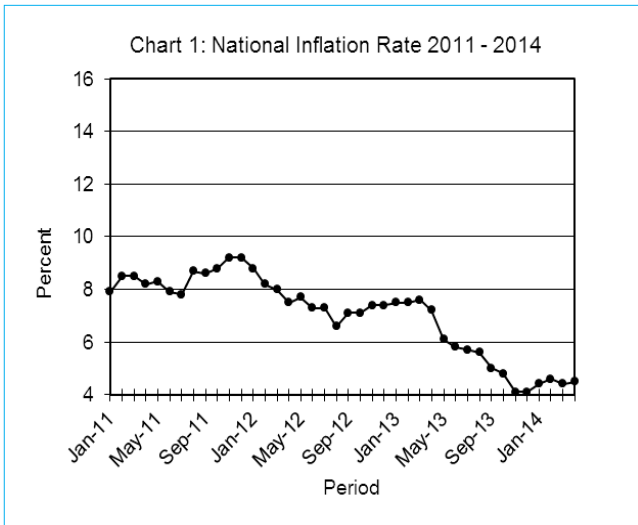

The Alcoholic Beverages, Tobacco & Narcotics group index recorded an increase of 1.0 percent, from 243.3 in March to 245.9 in April. This was due to a 6.3 percent increase on the constituent section index of Tobacco.

All-Tradable inflation rate went down by 0.2 of a percentage point between March and April, from 4.3 to 4.1 percent. The Domestic Tradable inflation rate recorded a decrease of 0.9 of a percentage point, from 6.0 percent in March to 5.1 percent in April. Non-Tradable inflation went up by 1.0 percentage point, registering 5.7 percent in April against 4.7 percent in March, while the Imported Tradable inflation rate registered an increase of 0.1 of a percentage point from 3.3 to 3.4 percent between the two months.

The All-Tradable index moved from 182.5 in March to 183.2 in April, recording an increase of 0.4 percent. The Non-Tradable index registered an increase of 1.8 percent, moving from 155.9 to 158.7. The Domestic Tradable index advanced from 199.7 to 200.6, a rise of 0.4 percent. The Imported Tradable index registered an increase of 0.3 percent, moving from 173.7 to 174.2 between the two months.

## Section 2: Core Inflation

The Trimmed Mean Core Inflation registered an increase of 0.1 of a percentage point, moving from 4.0 percent to 4.1 percent between March and April 2014, while the Core Inflation rate by exclusion remained at 5.2 percent, same rate as in March.

PRICES COLLECTION COVERAGE FOR BOTSWANA CONSUMER PRICE INDEX (CPI)- 2014

## Glossary

**Consumer Price Index (CPI)** is an index which measures price changes in goods and services with reference to a base period.

**Inflation** is a measurement of prices movement of goods and services in a particular country.

**Domestic Tradable** refers to the goods and services which a country (Botswana) can export to other countries.

**Imported Tradable** represents the goods and services which a country (Botswana) imports from other countries (trading partners).

**Non-Tradable** refers to the goods and services which a country cannot either export or import to other countries.

**All –Tradable** refers to the total of **Domestic** and **Imported tradable**.

**Trimmed Mean Core Inflation**- attempts to remove 8 percent (by weight) of the commodity sub-groups with the largest price changes at each of the ends of an ordered series of price changes in any given month.

**Core inflation by Exclusion** is a measure used to remove the volatility inherent in prices that are only adjusted periodically and not always in response to currently prevailing market forces.
