Preface

This report provides findings of the 2004 – 2008 decided criminal cases from all Magistrates Courts in the Country. This is the second report produced by Statistics Botswana (SB), following the 2003 stats brief which was produced in April 2010. The production of this report came about as a result of demand from the Government, the private sector and the public at large demanding information related to crime in the country.

The data is obtained from different Magisterial Courts in Botswana. Statistics Botswana receives the completed criminal cases on monthly basis on decided and pending cases from the twenty Courts in Botswana. The Demography Unit as a section of SB compiles and analyses data on decided cases only. To prepare this report the data undergoes coding, entry, cleaning followed by analysis and report writing.

The Report has an Introductory Background followed by discussion of findings and tables. The crimes have been categorized into nine (9) groups namely; Traffic offences, Motor Vehicles Theft, Penal Code, Trade and liquor, Stock theft, Immigration, Habit Forming Drugs, Precious Stone, Arms and ammunition. A number of offences have been lumped up to form the penal code category and the summary of this category are given in the appendix.

I would like to acknowledge and appreciate the contributions of the Administration of Justice, the High Court in Lobatse for collecting the magisterial cases forms, from their respective courts and I would also like to extent my appreciation to all the Magistrate Courts in Botswana for their consistency and continuous submission of monthly Criminal Cases forms.

Statistics Botswana intends to improve on timeliness of this report and produce it annually. Comments and feedback on quality and presentation of information are most welcome..

Introductory Background

Statistics Botswana (SB) analyses data from Magisterial Courts on crime. The data is extracted from the High Court Records, coded and analysed by Crime Statistics Section, to produce yearly reports on crime statistics. The unit collects data on criminal cases from all Magisterial Courts through out the country. Therefore, this report intends to present data on crime that have been registered with Magisterial Courts for the years 2004 to 2008.

Magisterial Courts are categorized into two regions,

1. Southern region which comprises of Broadhurst Magisterial Court, Village, Extention II, Lobatse, Jwaneng, Mochudi, Kanye, Molepolole , Tsabong, and Gantsi .
2. The Northern region includes Francistown Magisterial Court, Selibe- Phikwe, Mahalapye, Serowe, Palapye, Letlhakane, Masunga, Maun and Kasane.

The report mainly focuses on decided criminal cases reported at the Magisterial Courts regardless of actions taken thereafter. Since there are different types of criminal cases reported at the Magisterial Courts, Crime Statistics Section has classified them into broad categories namely, Traffic offences, Motor Vehicles Theft, Penal Code, Trade and liquor, Stock theft, Immigration, Habit Forming Drugs, Precious Stone, Arms and ammunition.

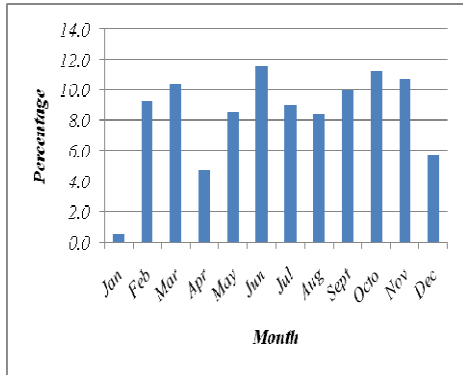

The report mainly focuses on recorded and decided (completed) criminal cases in Botswana for the year 2004 to 2008 from all magistrates Courts in the Country. It is the second report produced by the Central Statistics Office relating to different reported criminal occurrences in the country. Statistics on Crime are of great importance for they provide information for adequate planning, implementation and monitoring of viable policies and programs to curb crime. Statistics on crime also help government to evaluate trends on societal well being. Furthermore, in this emerging document there are some findings which are alarming, such as women committed offences relating to precious stones, habit forming drugs and arms and ammunition.
