Preface

This report gives highlights on education and training in Botswana for the year 2014.

The publication provides statistics users with comprehensive education statistics and information on the number of education institutions, enrolments, performance, teachers and facilities at pre-primary, primary, secondary, and tertiary education levels. The statistics is of good quality, policy-relevant, and reliable to serve the purpose of monitoring the existing education policies including the 1994 Revised National Policy on Education (RNPE). This report also provides statistics for evidence on the country's progress towards meeting national and international obligations. The information provided by this report also serves to monitor education related policies and compacts including the ten year basic education for all with emphasis on inclusive education and improved equity, increasing access in secondary and higher education, National Development Plans (NDP), Vision 2016, Education For All (EFA) and Millennium Development Goals (MDG) to mention among a few. The information will also be used as a basis for assessing equitable allocation of resources in the various districts, regions and other denominations.

For more information and further enquiries, contact the Directorate of Stakeholder Relations at 3671300. All Statistics Botswana outputs/publications are available on the website at www.statsbots.org.bw, Statistics Botswana Library (Head-Office, Gaborone) and at the Ministry of Education and its strategic centres.

We sincerely thank all those who provide information for their significant contribution towards production of this report. It would not have been possible to produce this report without the contribution from all Heads of Institutions through availing the data required.

Dr. B. Mguni
Statistician General
November 2019

Contents

Preface.....5

1.0 Introduction.....15

1.1 National Policy on Education.....15

2.0 Pre-Primary Education16

2.1 Number of Pre-Primary Schools by School Ownership.....16

2.2 Pre Primary Enrolment.....21

2.3 Special Education Needs and Disability in Pre-Primary Schools.....21

2.4 Pre-Primary Teachers.....23

2.5 Nationality and Qualification of Pre-School Teachers.....24

3.0 Primary Education.....28

3.1 Introduction.....28

3.2 Primary Education School Ownership.....28

3.3 Streams and Classrooms.....29

3.4 Special Education Needs and Disability in Primary Schools.....33

3.5 Standard 1 Enrolment.....35

3.6 Apparent Intake Rate.....36

3.7 Age Specific Enrolment Ratio.....37

3.8 Gross and Net Enrolment Ratios.....37

3.9 Transition Rate38

3.10 Primary School Gross Progression.....39

3.11 Pupil-Teacher Ratio.....39

3.12 Primary School Drop Out.....42

3.13 Primary School Re-Entrants.....48

3.14 Primary School Teachers.....52

3.15: Primary School Leaving Examination.....55

4.0 Secondary Education.....58

4.1 Secondary Education School Ownership.....58

4.2 Streams and Classrooms in Secondary Schools.....61

4.3 Secondary School Enrolment.....61

4.4 Special Education Needs And Disability In Secondary Schools.....66

4.5 Gross And Net Enrolment Ratios.....69

4.6 Transition Rate.....71

4.7 Secondary School Drop Outs.....72

4.8 Repeaters.....75

4.9 Secondary School Re-Entrants.....77

4.10 Secondary School Teachers.....79

4.11 Junior Certificate Examination (JCE).....82

5.0 Concepts & Definitions.....85

6.0 References.....87

7.0 Appendices.....88

7.1 Population Projections.....89

BCA	Botswana College of Agriculture

1.0 Introduction

The data used in this report is sourced from annual school census conducted in educational institutions in Botswana. The data is collected from Government and privately owned pre-primary, primary and secondary schools. Data from Human Resource Development Council (HRDC) and Botswana Examination Council (BEC) have been sourced to update the tertiary education and quality indicators respectively.

It should be noted that this publication covers mainly data for the year 2014. However, some data for previous years have been used for comparative analysis. It is worth noting that non-response by institutions is a major challenge and has led to gaps in statistics especially for post primary education level. The gaps have also led to discrepancies in a number of indicators such as enrolment trends, and the number of teachers, just to mention a few. Due to high rate of non-response among the vocational, technical and tertiary institutions, the report has partial to no statistics on the two sub-sectors.

Indicators reported in this report are, among others; number of schools and institutions, enrolment rates and trends over the years, teachers by their qualifications, pupil-teacher ratio, re-entrants, dropouts, repetition, transition, progression, pass rates, proportion of learners with special education needs, streams and classroom, pupil-classroom ratio, to mention just a few. The reported indicators are aggregated by level, region, district, school ownership, citizenship and sex.

1.1 National Policy on Education

The 1994-2020 Revised National Policy on Education (RNPE) is the main policy framework for the provision of education in Botswana (Ministry of Education, 1994). The main goal of the current education policy is to improve access, ensure equity and inclusiveness for all, improve and maintain quality and effective management in the education system. Ministry of Basic Education through RNPE (1994) is committed towards an inclusive education system and provision of special education. This in turn facilitates increase in access to education by all including orphans, vulnerable children, children in difficult circumstances, children with special education needs and disability.

While RNPE is the main education policy in place there are other national bench marks such as Vision 2016 with pillars focused on education. These include;

- a. [Informed and educated nation](#)
- b. [Innovative, productive and prosperous nation](#)

The National Development Plan (NDP) 10 (April 2009 – 2016) equally commits to ensuring implementation of the above mentioned policies and other bench marks. The plan embraces, among others, provision of adequate supply of qualified, productive and competitive human resource, education for all and universal primary education by 2016. Furthermore the plan focuses on increasing access and equity in education, provision of quality and relevant education.

2.0 Pre-Primary Education

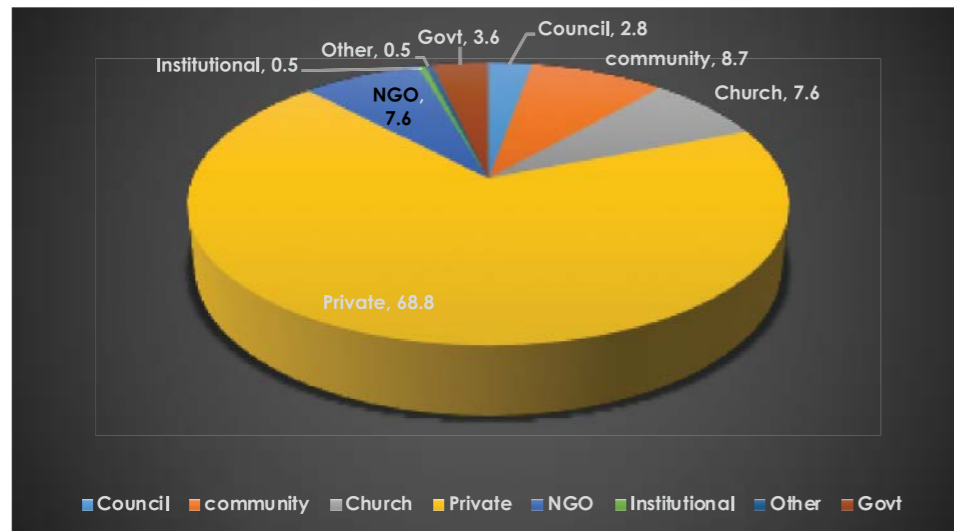

Provision of Early Childhood Care and Education (ECCE) programme to all children is essential as a foundation for primary education. Its benefits to a child among others include helping to boost cognitive and motor development as well as enhancing social skills. A pre-school education helps build a foundation of learning that will follow the child into their school years. The pre-school classroom also gives the child lots of interaction with peers that build its skills to share, as well as negotiate and listen. Revised National Policy on Education (RNPE) emphasizes the need for provision of enabling environment for pre-primary education and increasing access to all children before enrolling at primary. Pre-primary education in Botswana is mainly coordinated by district councils and provided by individuals, communities, private companies, Non-Government Organisations and communities, private companies, and NGOs.

2.1 Number of Pre-Primary Schools by School Ownership

Table 2.1: Number of Pre-Primary Schools Ownership -2014

School Ownership	No. of Schools	Percentage
Council	18	2.8
Community	56	8.7
Church	49	7.6
Private	444	68.8
NGO	49	7.6
Institutional	3	0.5
Government	23	3.6
Other	3	0.5
Total	645	100.0

Figure 2.1: Percentage of Pre-Primary Schools by School Ownership – 2014

The number of pre-primary schools fluctuates between the years as a result of closure and opening of new ones. This contributes negatively on the reported statistics for pre-primary education hence trend data tend to be inconsistent at times.

Table 2.2: Number of Pre-Primary Schools by School Ownership - 2005-2014

Year	Council	%	Government	%	Community	%	Church	%	Private	%	NGO	%	Institution	%	Other	%	Total
2005	14	3.1	-	-	96	21.2	51	11	225	49.7	65	14.3	2	0.4	-	-	453
2006	14	2.9	-	-	95	19.5	60	12	239	49.2	74	15.2	4	0.8	-	-	486
2007	14	3	-	-	82	17.5	61	13	246	52.5	62	13.2	4	0.9	-	-	469
2008	11	2.1	-	-	95	18.4	68	13	274	53.2	63	12.2	4	0.8	-	-	515
2010	13	2.5	-	-	85	16.5	64	13	290	56.4	57	11.1	2	0.4	3	0.6	514
2012	14	2.9	-	-	62	12.6	43	8.8	314	64.	51	10.4	4	0.8	3	0.6	491
2013	12	2.1	-	-	68	11.9	52	9.1	391	68.6	45	7.9	1	0.2	1	0.2	570
2014	18	2.8	23	4	56	8.7	49	7.6	444	68.8	49	7.6	3	0.5	3	0.5	645

Table 2.2 shows trend of pre-primary schools by school ownership from 2005 to 2014. It should be noted that data for 2009 and 2010 is not available.

The number of pre-primary schools increased by 42.4 percent between 2005 and 2014 from 453 to 645 in 2014. While there has been a general increase in number of pre-primary schools over the years, there was a decrease of 3.5 between 2006 and 2007 and 4.5 percent between 2010 and 2012. The decrease in the number of pre-primary schools could be due to the closure of unregistered pre-schools for quality control of basic education and safety of children. However, pre-schools owned by private individual continue to increase. The above observation is further presented in figure 2.2 below.

Figure 2.2: Total Number of Pre-Primary Schools-2005-2014

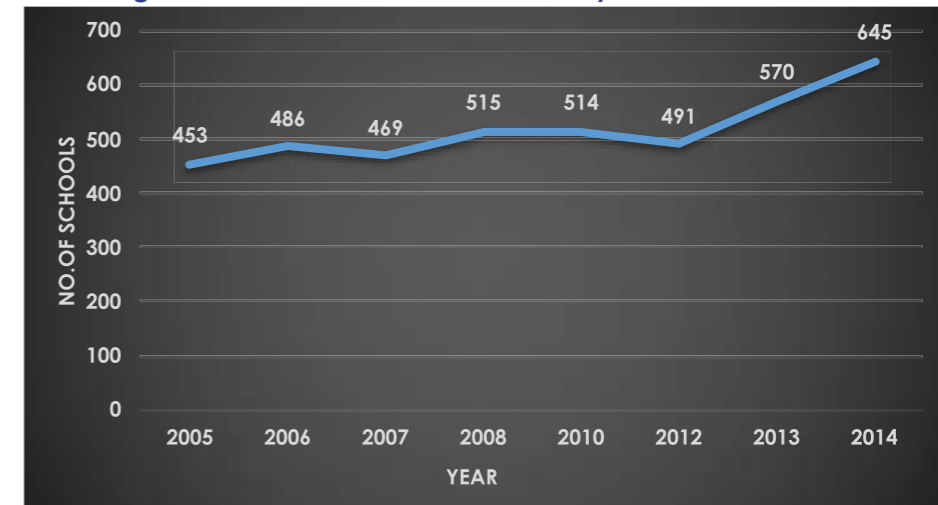

Table 2.3: Number of Pre-Primary Schools by District and Terms of Operation – 2014

Region	Half Day	Full Day	Total
South East	16	115	131
North East	12	72	84
South	15	74	89
Kweneng	3	75	78
Kgatleng	4	30	34
North West	7	36	43
Chobe	3	5	8
Ghanzi	1	13	14
Kgalagadi	4	16	20
Central	15	129	144
Total	80	565	645

Table 2.3 shows that 565 pre-primary schools (87.6 %) operated full day while 80 schools operate only half day. Central and South East had the highest number of school with 144 and 131 schools respectively. On the other hand Chobe, Ghanzi and Kgalagadi had the lowest total number of schools. South East had the highest (16 schools) number of schools which operated half day only, while South East and Central regions had the higher number; 129 and 115 schools respectively operating full-day.

Total	48	105	160	130	43	34	21	14	40	50	645

Table 2.4 shows that majority of pre-schools fees range between P1001 and 2000. The table further shows that pre-school is relatively expensive in the urban districts of Gaborone and Francistown. For example, in Gaborone, 71.3 percent of the pre-schools charge from 2500 to P4000 as compared to the rural districts where the highest percentage is seen on payments between P500 and P2000.

Table 2.5: Number of Pre-Primary Schools and Pupils by School Ownership – 2014

Ownership	No. of Schools	Male	Female	Total	% Male	% Female	Total Percentage
Council	18	408	441	849	48.1	51.9	2.5
Community	56	1,131	1,239	2,370	47.7	52.3	7.1

Total	645	16,615	16,810	33,425	49.7	50.3	100

There is no gender disparity at pre-school. Table 2.5 shows that 49.7 percent of total enrolment in pre-primary education in 2014 was male while 50.3 percent were female. The Gender Parity Index (GPI) for participation in pre-primary education is 1.01 indicating almost equal access to pre-primary education by both boys and girls, but 1.01 GPI shows participation in favour of girls.

Figure 2.3: Percentage of Pre-Primary Enrolment by School Ownership-2014

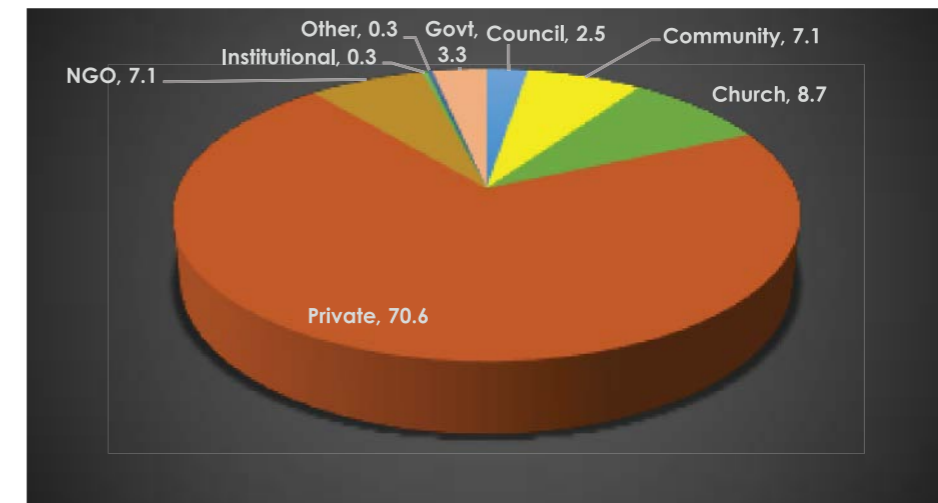

Figure 2.3 shows the proportion of pre-primary enrolment by school ownership. Private schools had 70.6 percent of total enrolment, church owned schools have 8.7 percent, 7.1 percent of enrolment is for both NGO and community schools, 2.5 percent of enrolment is for schools owned by councils, while institutional and other schools had 0.3 each.

The private sector provides majority of pre-school services. Table 2.6 below shows that private sector enrolled 71.6 percent of all pre-school children, followed by those who enrolled in schools owned by churches and NGOs.

Table 2.6: Pre-Primary Enrolment by School Ownership, Age and Sex – 2014

School Ownership	Sex	< 1	1	2	3	4	5	6	>6	Total

	Female	-	-	2	10	25	10	3	-	50
Government	Male	-	-	1	1	60	288	174	-	524
	Female	-	-	-	3	58	313	210	1	585
Other	Male	-	-	-	6	17	27	4	-	54
	Female	-	-	1	13	17	22	2	-	55
Total Males		21	118	1,224	3,590	4,831	5,455	1,303	73	16,615
Total Females		25	85	1,206	3,797	4,907	5,440	1,229	121	16,810
Total		46	203	2,430	7,387	9,738	10,895	2,532	194	33,425

Table 2.6 shows that the highest proportion (83.8 percent) of pre-primary attendants were aged between three and five years with the highest enrolment found among children aged 5 years with an enrolment of 10,895 pupils followed by those age 4 years with 9,738 pupils. This distribution was found to apply for all the districts. While the official age for primary school enrolment is six years, a significant 194 or 0.5 percent of preschool attendants were aged above six years.

2.2 Pre-primary Enrolment

Table 2.7: Pre-Primary Enrolment by Region, Sex and Age -2014

REGION	SEX	AGE								Total
		<1	1	2	3	4	5	6	>6

	Female	4	20	151	911	1,221	1,349	233	73	3,962
Total Males		21	118	1,224	3,590	4,831	5,455	1,303	73	16,615
Total Females		25	85	1,206	3,797	4,907	5,440	1,229	121	16,810
Grand Total		46	203	2,430	7,387	9,738	10,895	2,532	194	33,425

Table 2.7 shows that majority of pre-primary school attendants were found in the South East with 9,268 followed by Central region with 7,745. An interesting feature is that majority of the pupils who were beyond 6 years were recorded in the Central region (84 pupil) followed by South East (72 pupil).

2.3 Special Education Needs and Disability in Pre-Primary Schools

Provision of special education is specifically designed to meet the educational and developmental needs of children with disabilities, or those who are experiencing developmental delays. The early detection of children's special needs enables parents to contact the appropriate agency to have the child screened and/or evaluated to assess prevalence of any underlying problem or delay that might need to be addressed. Such screenings should cover a range of skill areas—vision and hearing, gross and fine motor skills, speech and language use, social and emotional behaviour, and more.

Table 2.8: Pre-Primary Enrolment with Special Education Needs by Region – 2014

Region	Visual	Physical	Hearing	Speech	Mental Retardation	Multiple Disability	Intellectual	Other	Total
South East	1	5	-	25	-	3	1	10	45
North East	1	2	-	10	1	4	2	1	21
South	4	2	2	13	2	4	-	3	30
Kweneng	-	-	-	14	-	3	2	1	20
Kgatleng	3	1	-	7	-	1	2	-	14
North West	1	3	-	3	-	1	-	-	8
Chobe	-	-	-	-	-	-	-	-	0
Ghanzi	-	-	-	1	-	1	-	-	2
Kgalagadi	1	-	-	1	-	-	-	-	2
Central	4	6	2	24	-	7	4	2	49
Total	15	19	4	98	3	24	11	17	191

Table 2.8 shows that there were 191 children with special education needs enrolled in pre-primary school across the country in 2014. Out of these, 49 were in Central region, followed by 45 in South East region. The number of pupils with speech impairment was highest at 98 followed by those with multiple disabilities, physical and other impairment with 24, 19 and 17 pupils respectively.

Figure 2.4: Pre-Primary Enrolment with Impairments as a Percentage of Total Enrolment with Special Education Needs – 2014

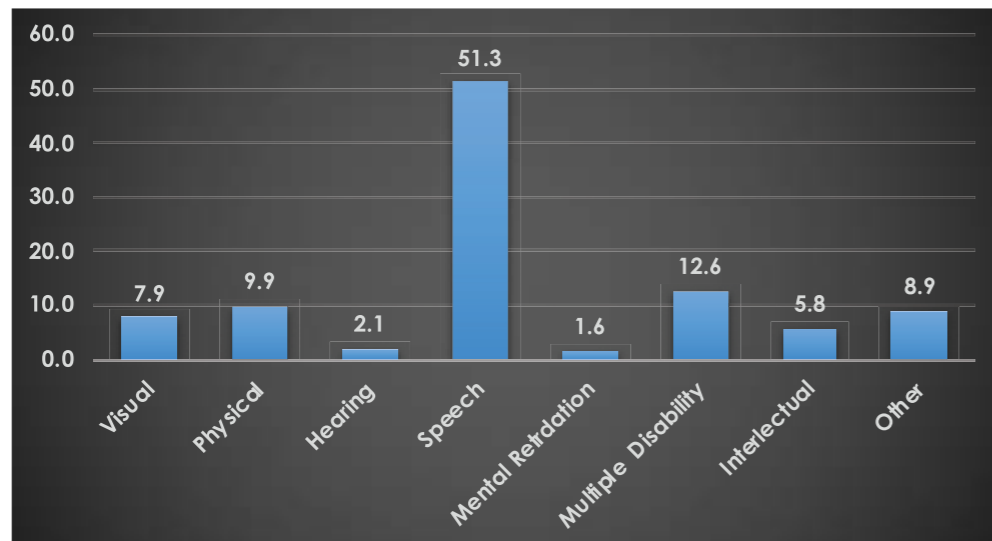

Figure 2.4 further shows that 51.3 percent of pre-primary pupils with special education needs had speech impairment followed by 12.6 percent who had multiple disability while students with physical disability and other impairments not specified constituted 9.9 and 8.9 percent respectively. Children with mental retardation constituted the lowest percentage of pre-primary children with disability.

Table 2.9: Age Specific Enrolment Ratio (ASER) for Pre-Primary -2014

Single Age	2014 Population	Pre-Primary Enrolment	ASER (%)
≤1	102,228	249	0.2
2	54,088	2,430	4.5
3	49,694	7,387	14.9
4	47,595	9,738	20.5
5	46,206	10,895	23.6
6	45,129	2,532	0.6
7	44,965	194	0.4

*2014 Population Estimates are proxies derived from the 2011 Population & Housing Census Data

Table 2.9 shows that Age Specific Enrolment Ratio (ASER) was highest at for the 5 year olds at 23.6 percent, followed by the 4 year old at 20.5 percent. ASER was less than 5 percent for pupils aged one year or younger and those aged 7 years. This shows that majority of pre-scholars are aged between 4 and 5 years suggesting that parents prefer to enrol children a year or two before they are due for primary school enrolment.

Table 2.10: Pre-Primary Enrolment Ratios by Age and Year – 2012-2014

Year	Population 3-5 years	Total Enrolment	Enrolment 3-5 Years	3-5 Years GER (%)	3-5 Years NER (%)
2012	119,239	23,650	19,847	19.8	16.6
2013	142,858	29,150	24,688	20.4	17.2
2014	143,495	33,425	28,020	23.3	19.5

2012 Population is drawn from CSO (2001). Population Projections for Botswana: 2001-2031 while the 2013-2014 Population Estimates are proxies derived using the 2011 Population & Housing Census Data

Enrolment at pre-school continues to increase, perhaps suggesting that parents are increasingly acknowledging the value of pre-school for eventual enrolment at primary school. Table 2.10 shows that the national Gross Enrolment Rate (GER) for population 3-5 years in pre-primary schools was 19.8 percent in 2012, 20.4 percent in 2013 and 23.3 in 2014. There was an increase of 0.6 percentage point in GER between 2012 and 2013 and an increase of 2.9 percentage point in GER between 2013 and 2014. On the other hand, national Net Enrolment Rate (NER) for population 3-5 years in pre-primary school was 16.6 percent in 2012, 17.2 percent in 2013 and 19.5 in 2014. There was 2.3 percentage point increase in NER (3-5) between 2013 and 2014.

2.4 Pre-Primary Teachers

Despite the increasing value attached to pre-school education and its recognition by the revised National Education Policy, a significant proportion of teachers at pre-school level remain untrained, which is likely to compromise the quality of education at that level.

Research has linked early learning and development to the educational qualifications of teachers. The most effective preschool teachers are those with at least a four-year college degree and specialized training in early childhood and have more responsive interactions with children, provide richer language and cognitive experiences, and are less authoritarian. High-quality preschool education depends on effective, high-quality teachers (W. Steven Barnett NIEER Policy Brief (Issue 2, revised December 2004).

Table 2.11: Trend on Teachers by School Ownership

Ownership	2013 Pre-Primary Teachers						2014 Pre-Primary Teachers					
	Trained			Untrained			Trained			Untrained		
	Male	Female	Total	Male	Female	Total	Male	Female	Total	Male	Female	Total

Total	26	1,349	1,375	18	1,104	1,122	29	1,561	1,590	28	1,316	1,344

Table 2.11 shows that pre-school teaching has been dominated by females. It further shows that there were 57 male and 2,877 female pre-primary teachers in 2014 compared to 44 male and 2,453 female in 2013. Of all teachers in 2014, 1,590 were trained constituting 54.2 percent while 45.8 percent (1,344 teachers) were untrained.

2.5 Nationality and qualification of Pre-school teachers

Table 2.12 shows that preschool teaching is dominated by females who constituted 98 percent of the teaching staff. An interesting feature is that majority of preschool teachers are Batswana. Out of a total 2,497 teachers, 2,079 or 83.2 percent were Batswana while the remainder were foreigners. Just like Batswana, most foreign teachers were females.

Table 2.12: Number of Pre-Primary Teachers by Qualification, Sex, Nationality and District – 2014

	Total	1,106	384	74	20	6	1,590	1,344	2,934

Table 2.13 shows that in 2014 there were 2,934 pre-primary school teachers; with 57 males and 2,877 females. A total of 2,552 teachers were citizens while 382 were non-citizens. Further, citizens constituted the bulk of the unqualified teachers. More than half or 51.1 percent of citizen teachers were unqualified compared to only 10.5 percent for foreign teachers. Most teachers were qualified at certificate level with a sizeable number holding a diploma.

Figure 2.5: Percentage of Pre-Primary Teachers by Qualification – 2014

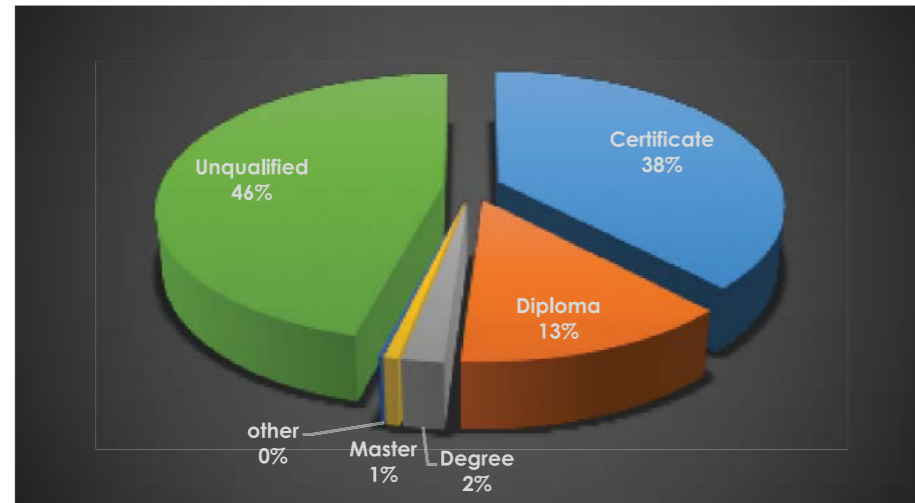

Figure 2.5 indicates that about 46 percent of pre-primary teachers are untrained, 38 percent are certificate holders, and only 13 percent had diploma. The degree holders constitute 3.2 percent while master's degree constitute 1.0 percent.

Table 2.14: Number of Schools to number of Classrooms by Ownership – 2014

NGO	49	2,360	48.2
Institutional	3	110	36.7
Government	23	1,109	48.2
Other	3	109	36.3

Table 2.15 shows that church owned pre-schools have the highest students classroom ratio of 59 students per classroom. Furthermore, private owned pre-schools have the second highest student classroom ratio of 53 students per classroom while other unspecified owned pre-schools have the lowest ratio of 36 students per classroom.

3.0 Primary Education

3.1 Introduction

The government of Botswana has for a very long time recognised education as a priority area for development. Besides education attracting the highest allocation of development, primary education is offered to all with minimal household contribution; basically through contribution towards Parents Teachers' Association (PTA) levy. This is in a way to increase access to primary education.

3.2 Primary Education School Ownership

Table 3.1: School Ownership by Region -2014

Region	Public	%	Private	%	Total	%
South East	51	6.8	19	28.8	70	8.5
North East	63	8.3	6	9.1	69	8.4
South	123	16.3	6	9.1	129	15.7
Kweneng	91	12.1	11	16.7	102	12.4
Kgatleng	37	4.9	2	3	39	4.8
North West	67	8.9	5	7.6	72	8.8
Chobe	10	1.3	1	1.5	11	1.3
Ghanzi	22	2.9	1	1.5	23	2.8
Kgalagadi	42	5.6	-	-	42	5.1
Central	249	33	15	22.7	264	32.2
Total	755	100	66	100	821	100

Table 3.1 shows that there were 755 registered primary schools country wide in 2014 of which 755 (92.0 percent) were government owned schools and 66 (8.0 percent) were privately owned. This is an indication that government is the main provider of primary education. It also shows that government owned primary schools increased by 2 schools (2.7%), while privately owned primary schools declined by 2 schools (2.9%) hence registering no change in total number of schools.

Figure 3.1: Proportion of Primary Schools by School Ownership per region-2014

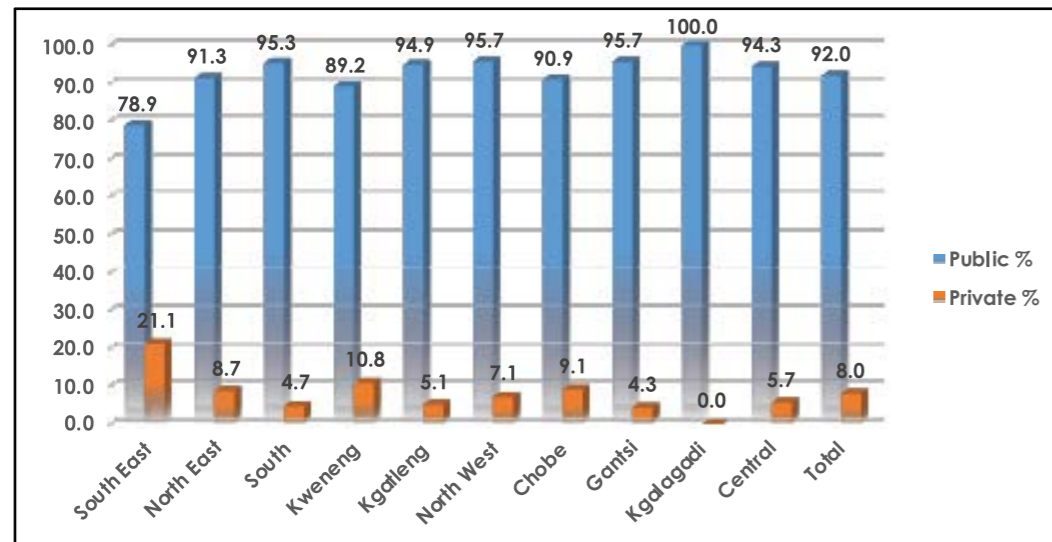

Figure 3.1 shows that public schools constituted above 90.0 percent across all the regions except for South East and Kweneng where public schools constituted 72.9 and 89.2 percent respectively. South East region had the highest number of private schools constituting 27.1 percent of all private primary schools in the country. Kgalagadi region is the only region with no private schools.

3.3 Streams and Classrooms

The government of Botswana has over decades been striving to resource schools. Some remarkable progress has been made in policy formulation, reforms strategies and goals settings toward the improvement of resources in schools. Noticeable progress has also been made in the implementation of such policies.

Ministry of Local Government and Rural Development is responsible for provision of resources in primary schools such as classrooms and other physical infrastructure, school furniture. Teaching and learning materials and stationery are the responsibility of Ministry of Education and Skills Development.

Table 3.2: Number of Students, Streams and Classrooms by district for all Schools – 2014

Region	Enrolment	Total Streams	Total Classrooms	Average Stream Size	Population/ Classroom Ratio
South East	39,667	1,308	1,496	30.3	26.5
North East	25,826	921	1,089	28	23.7
Ngwaketse	42,644	1,755	1,724	24.3	24.7
Kweneng	48,870	1,600	1,519	30.5	32.2
Kgatleng	14,567	515	590	28.3	24.7
North West	30,700	999	1,027	30.7	29.9
Chobe	3,574	129	147	27.7	24.3
Ghanzi	7,829	273	262	28.7	29.9
Kgalagadi	9,243	414	439	22.3	21.1
Central	117,780	3,915	4,013	30.1	29.3
TOTAL	340,700	11,829	12,306	28.8	27.7

Table 3.2 shows that central region constituted 34.3% of the total enrolment (with 11,780 students) country wide followed by Kweneng 14.3% with 48,870 students while Chobe on the other hand, recorded the lowest number of students as compared to other regions constituting only 1.0% of the total enrolment. This also applies in classrooms where central region have 4,013 classrooms and Chobe 147 classes hence, making it the region with the lowest class numbers in 2014. Compared to all regions Kweneng enrolled high proportion of students per class (32 student) while Kgalagadi region was found to be having lower students class ratio (21 students per class), therefore this shows that on average student class ratio is 27.

Table 3.3: Enrolment per Region by School Ownership and Sex (Including SPED)-2014

Enrolment excludes Pre-Primary

Table 3.3 shows that the total enrolment in all primary schools stood at 340,700 in 2014. Government schools enrolled 91.7 percent of the pupils while only 7.0 percent were enrolled in private schools. There was an increase of 0.2 percent on enrolment between 2013 and 2014 from 340,065 to 340,700. Regions which enrolled high proportions of pupils were Central region accounting for 34.6 percent followed by Kweneng region with 14.3 percent and South region with 12.5 percent.

Table 3.4: Primary School Enrolment by Boarding Status, Standard and Sex -2014

**The Data for 2009-2011 is derived from the Stats Briefs while 2007, 2008, 2012 and 2013 is derived from the annual school census reports. Note as well that reception students are excluded.

Primary school enrolment has been increasing over the past eight years. The enrolment increased from 328,330 in 2007 to 340,700 in 2014

Figure 3.2: Primary School Enrolment by Sex – 2007-2014

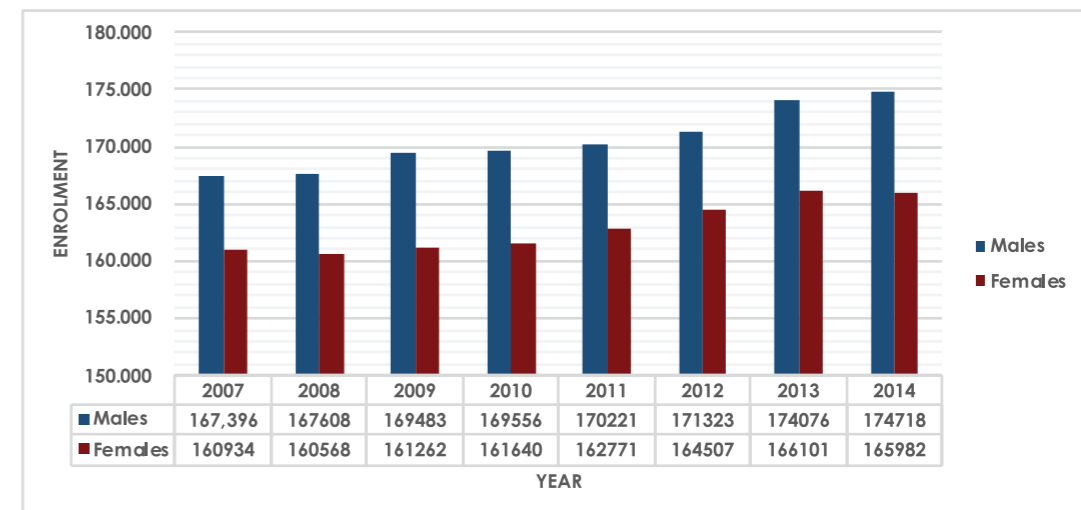

Figure 3.2 further illustrates primary school enrolment by gender from 2007 to 2014. Male enrolment was realized to be higher than female enrolment across the referenced years.

Table 3.7 shows that total enrolment was 340,700 in 2014 of which 174, 715 were boys and 165, 985 girls. Central region had the highest number of pupil's enrolled in primary schools with 117, 780 pupils followed by Kweneng and South regions with 48,870, and 42,644 pupils respectively. Chobe had the least number of primary school pupils with 3,574. Male enrolment was also higher than female enrolment across the regions.

Figure 3.3: Enrolment by Region and Sex -2014

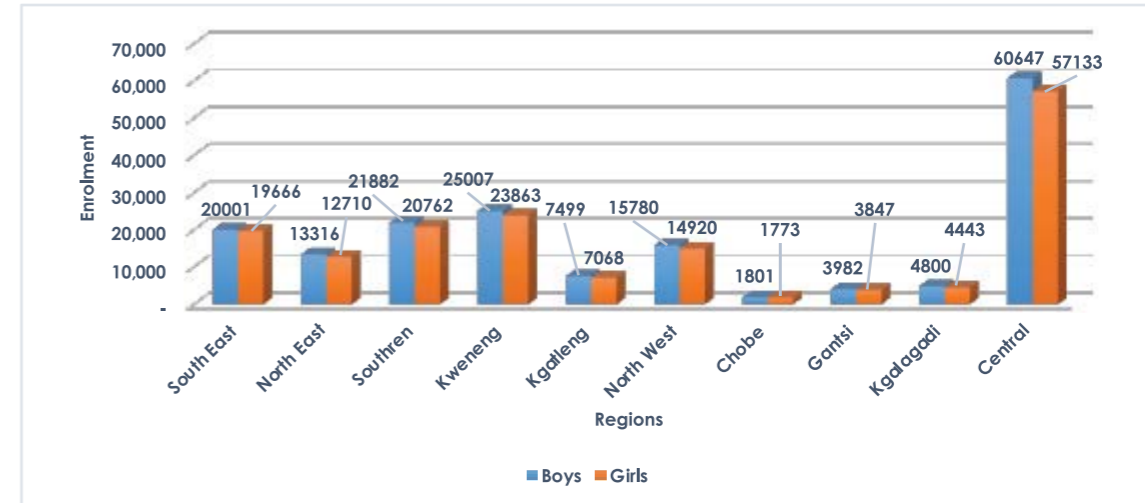

Figure 3.3 further illustrates enrolment by gender in primary schools. This shows that Central region had the highest male enrolment of 60, 647 and female enrolment of 57,133 in 2014. Central region constituted 34.7 percent of total enrolment, followed by Kweneng region at 14.3 percent and South region at 12.5 percent. Chobe region had the lowest enrolment (1,801 male and 1,773 female) constituting 1.0 5 percent of total primary school enrolment in 2014.

3.4 Special Education Needs and Disability in Primary Schools

To implement RNPE (1994) recommendations on special education, the Government continues to build special education units in existing schools, integrate and mainstream children with special education needs and disability in to the mainstream school system. Furthermore, the Government through grants supports the NGOs which provide special education.

In 2012 there were 33 Government owned primary schools with special education units for children with mental and physical disability, 2 primary schools with a unit for the visually impaired and 2 schools with a unit for the hearing impaired.

Figure 3.4: Enrolment in SPED Units as Percentage of Total Enrolment- 2008 -2014

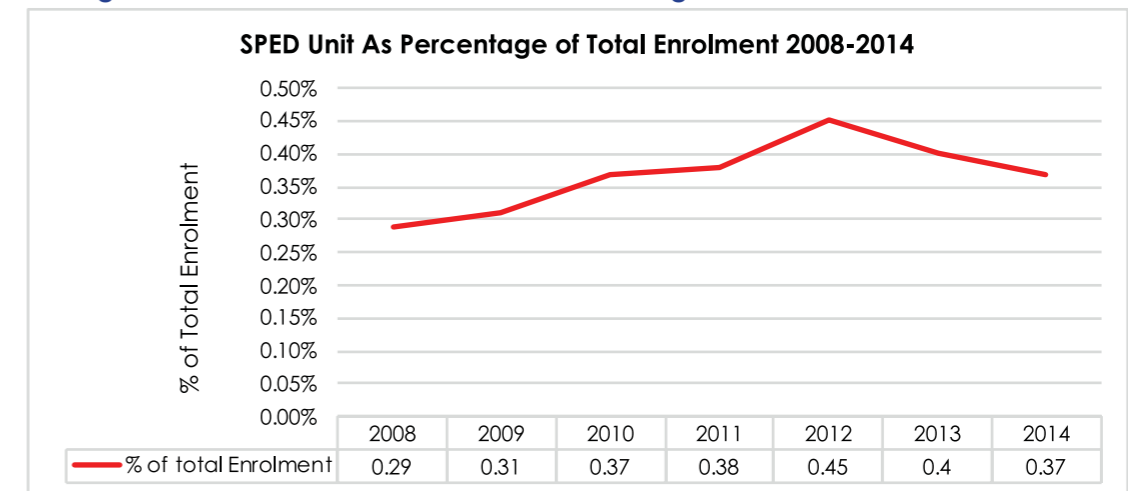

Figure 3.4 shows that enrolment of children in Special Education Units constituted a minimal percentage since 2008 that is less than 1.0 percent of total enrolment. Although this being the case, the percentage of SPED unit enrolment has been increasing since 2008; from 0.29 percent to 0.45 percent in 2012 and thereafter showed a decline from 0.4 to 0.37 percent in 2013 and 2014 respectively. The lower percentage of children in SPED unit could be viewed as an indication that there is still a lot that has to be done regarding provision of education to children with special education needs.

Total	2,033	487	726	901	4,942	533	686	502	10,810

Table 3.8 shows that there were 10, 810 children with disability and special education needs in primary schools in 2014. This total includes children in Special Education Units and those with special education needs and disability in the main stream. Most of the special education needs children were those with intellectual disability 4,942 pupils followed by those with visual impairment and speech with 2,033 and 901 pupils respectively.

It should be noted that in previous reports, pupils wearing spectacles were not considered as children with special education needs which is still the case in this report. The 2014 data also include children with intellectual disability which is inclusive of severe slow learners and mentally challenged children while previously the data was collected only on the mentally retarded children. The above in part explains the increase in special education enrolment from 3,413 in 2008 to 7,305 in 2012, 8,570 in 2013 and 10,810 in 2014.

Figure 3.5: Primary School Enrolment with Special Education Needs by Types of Impairment – 2014

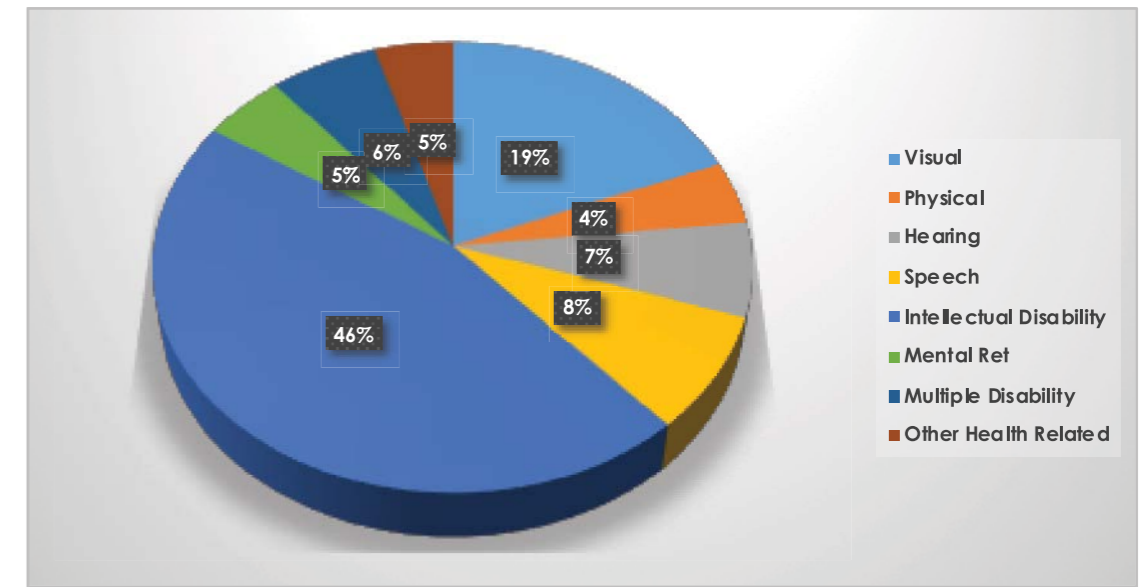

Figure 3.5 indicates that a higher percentage of primary school students with special education needs in 2014 were those with intellectual disability; constituting 46 percent, followed by those who are visually impaired at 19 percent while students with physical disabilities constitute the lowest percentage of 4 percent.

3.5 Standard 1 Enrolment

Figure 3.6: Standard 1 Enrolment - 2010-2014

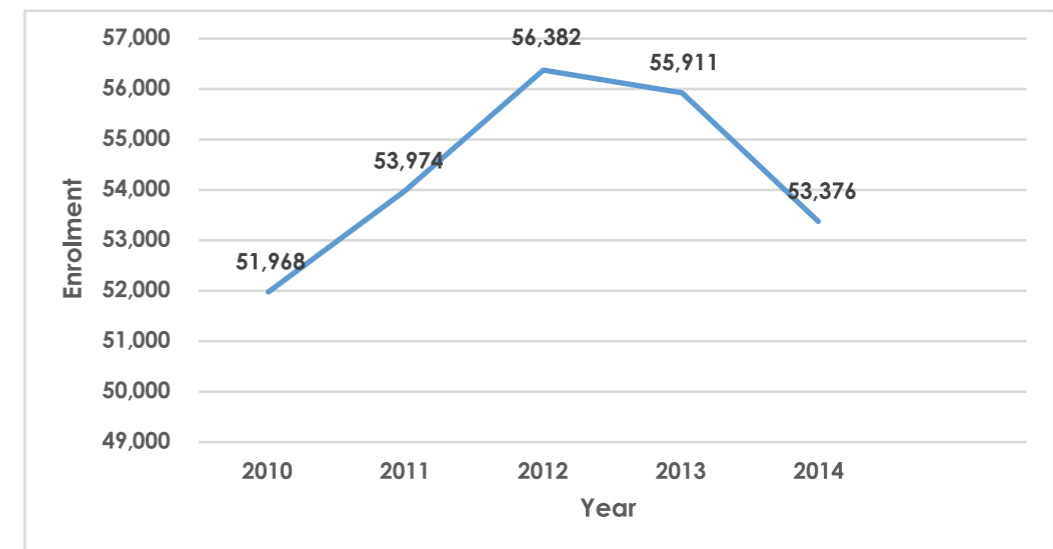

Table 3.9: Enrolment at Standard 1 by Single Age and Sex – 2013-2014

20	-	-	-	-	-	-
21	-	-	-	-	-	-
21+	-	-	-	-	-	-
Total	29,322	26,589	55,911	27,921	25,455	53,376

Table 3.9 shows that majority of standard one pupils in 2014 were aged 6 -7 years with enrolment of 23, 779 pupils and 18, 659 pupils aged 6 and 7 years respectively. On the other hand 6, 032 pupils were aged less than 6 years while only 215 were aged 11-16 years.

3.6 Apparent Intake Rate

Apparent Intake Rate (AIR) is the rate at which children are enrolled in standard 1 for the first time irrespective of their ages, and it is expressed as a percentage of the population at the official primary school entrance age.

AIR indicates the general level of access to primary education. The rate also determines the capacity of the education system to provide access to Standard 1 for the official school entrance age population. The 2014 AIR for 6 and 7 year olds was 104.6 percent and 100.4 percent respectively. In theory, the Net Intake Rate (NIR) is preferable to the AIR since it gives an indication of 6 and 7 year olds new entrants in standard one as a percentage of the 6 and 7 year olds population.

Table 3.10: New Enrolment at Standard 1 and Apparent Intake Rate (2005-2014)

Year	2005	2006	2007	2008	2009/2011	2012	2013	2014
STD 1 New Entrants	49199	49095	47922	46316	-	48,569	50284	47210

Projected Pop 7 years old	42419	43735	45007	46421	-	43,935	44,761	44968
AIR 6 Years old	112.3	108.8	103	101.7	-	110.3	112	104.6
AIR 7 Years old	116	112.3	106.5	99.8	-	110.5	112.3	100.4

3.7 Age Specific Enrolment Ratio

Age-specific enrolment ratio is the ratio of pupils of a particular age to the corresponding single age population. This indicator is used to monitor the degree of participation of pupils in the educational system for specific ages.

Table 3.11: Primary Education Age Specific Enrolment Ratio (ASER), (2013-2014)

Age	2013		Age Specific Enrolment Ratio (ASER)	2014		Age Specific Enrolment Ratio(ASER)
	Population Estimates	Enrolment		Population Estimates	Enrolment	
5	48,491	3,680	7.6	46,226	6,032	13
6	44,879	28,321	63.1	45,140	27,490	60.9
7	44,761	45,266	101.1	44,968	43,251	96.2
8	43,340	46,726	107.8	44,205	47,358	107.1
9	41,858	42,678	102	43,576	46,670	107.1
10	44,385	41,907	94.4	43,026	42,511	98.8
11	46,286	40,472	87.4	42,528	41,691	98
12	41,386	39,721	96	42,067	38,971	92.6
13	41,840	30,479	72.8	41,678	27,836	66.8
14	41,264	13,356	32.4	41,400	12,287	29.7
15	44,513	4,307	9.7	41,305	3,663	8.9
16	44,774	1,268	2.8	41,406	1,129	2.7
17	44,063	415	0.9	41,651	386	0.9
18	42,287	129	0.3	42,052	117	0.3
19	43,107	47	0.1	42,427	25	0.1
20	42,537	12	0.03	42,524	22	0.1
21	42,145	11	0.03	42,110	6	-
22	-	-	-	41,394	2	-

Population by Age is derived from preliminary projections from 2011 Population and Housing Census.

Table 3.11 shows that the ASER for pupils aged 6 years was 60.9 percent. The ASER was very high, being around 100.0 percent for the age group 8 to 9 years, while it was very low: less than 10.0 percent for ages 15 years and above. This shows that only 60.9 percent of children aged 6 years had enrolled for primary school. This indicates a substantial number of children enroll at age 7 and 8.

Theoretically, ASER value of 100.0 percent for any age indicates that all children belonging to that particular age were in primary schools. On the other hand ASER of more than one hundred could be attributed to inconsistencies in reporting age both at schools and during census or it can also be attributed to the use of projected population when enrolments are the actual numbers.

3.8 Gross and Net Enrolment Ratios

Gross and Net Enrolment Ratios are used to measure the extent of coverage of an educational program. It gives a comparison of the children in school with the total size of the school-aged population. It can also be used for assessing how far a country has succeeded in bringing to school all those who are eligible to attend

Table 3.12: Primary School GER and NER (Both Sex) – (2003 – 2014)

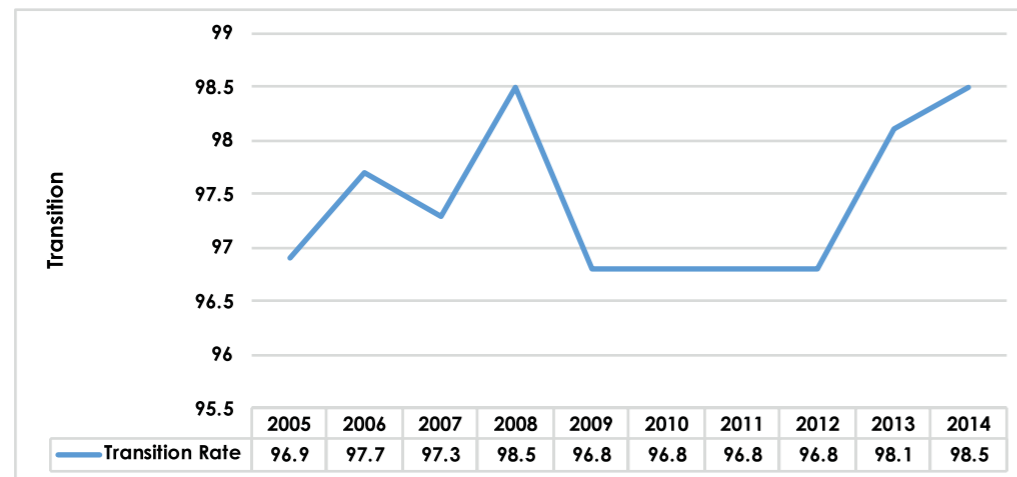

Year	GER (6-12 Year) %	NER (6-12 Years) %	GER (7-13 Years) %	NER (7-13 Years) %
2003	114.6	90	114.5	98.7
2004	113.8	89.5	114.1	98.5
2005	113.1	89.6	114.1	97.8
2006	112.2	89.2	113.6	96.8
2007	109.4	86.9	111.5	94.9
2008	107.7	85.4	109.8	92.9
2009	108.4	85.8	109.8	91.8
2010	109.5	87.1	108.8	90.8
2011	112.7	90.6	98.6	88.4
2012	111	93.1	98.7	86
2013	110.8	92.9	111.9	94.5
2014	111.1	94.2	98.8	87.5

Note: Figures for 2003 -2008, 2012, 2013 and 2014 were generated using the annual/comprehensive data while figures for 2009 - 2011, were calculated using first term data

Gross Enrolment Ratio of 111.1 percent for population 6 to 12 years indicates that 111.1% of those enrolled in primary schools are aged below 6 years and or above 12 years. On the other hand the NER of 94.2 percent for population 6 to 12 years indicates that only 94.2percent of the population 6 to 12 years was enrolled in primary schools in 2014(Table 3.12).

3.9 Transition Rate

Figure 3.7: Transition Rate from Standard 7 to Form 1 – 2000-2013

Source of Data: Statistics Botswana & Department of Basic Education
****Due to the unavailability of data, the rates for 2010 and 2011, primary to lower secondary have been estimated by 2009 rate.**

Figure 3.7 shows that since 2005, transition rates from primary school (Standard 7) to lower secondary level (Form 1) had been above 96.0 percent. This was an indication that there was a small proportion (about 3.0 percent) of children who only went up to Standard 7. Thus although the transition rate was very high, the desired 100.0 percent transition from primary to lower secondary has never been achieved over the years.

3.10 Primary School Gross Progression

The **Table 3.13** shows the original cohort of 52,754 pupils who started standard 1 in 2007, of which only 42, 948 reached standard 7 in 2014 translating to 84.6 percent progression from standard 1 to standard 7. Male progression rate for the same cohort was 81.8 percent while the rate for female

Table 3.13: Primary School Gross Progression Rate from Standard 1 to Standard 7 (2005 – 2014)

3.11 Pupil-Teacher Ratio

The Pupil Teacher Ratio is one of key indicators used as proxy for assessing the quality of education. It is believed that a low number of pupils per teacher translates into pupils having better chance of contact with the teachers and hence a better teaching/learning process. However, it should be noted that there are many other factors that affect the pupil's learning process; qualified trained teachers, adequate teaching resources and small class sizes are generally more effective.

Table 3.14: Pupil Teacher Ratio and Teachers by Training Status – 2005-2014

	2008	2009	2010	2011	2012	2013	2014
Trained Teachers							
Male	3,075	3,132	3,083	3,125	3,610	3,806	3,777
Female	9,914	9,832	9,615	9,675	10,752	11,011	11,182
Total	12,989	12,964	12,698	12,800	14,362	14,817	14,959
Untrained Teachers							
Male	10	6	7	1	11	63	105
Female	70	44	44	27	54	162	214
Total	80	50	51	28	65	225	319
All Teachers							
Male	3,085	3,138	3,090	3,126	3,621	3,869	3,882

Total	13,069	13,014	12,749	12,828	14,427	15,042	15,278
% Female Teachers	76.4	75.9	75.8	75.6	74.9	74.3	74.6
% Untrained Teachers	0.6	0.4	0.4	0.2	0.5	1.5	2.1
Pupil-Teacher Ratio							
Trained Teachers	26	25	26	26	23.4	23	23
Total Teachers	25	25	25	25	23.3	22.6	22

Table 3.14 shows that the percentage of untrained primary school teachers reduced from 0.6 percent in 2008 to 0.2 percent in 2011, thereafter increased to 0.5, 1.5 and 2.1 percents in 2012, 2013 and 2014 respectively. The pupil teacher ratio for the trained teachers decreased from 26 pupils per trained teacher in 2008 to 23 pupils per trained teacher in 2014.

Total	826	1,178	1,298	1,386	1,300	1,328	1,194	8,509	17,019

In 2014 there were 17, 019 repeaters of which 10, 973 were boys and 6, 046 were girls. Central had the highest number of repeaters (5, 983) followed by Kweneng region with 3, 804 and South East region with 2,423. On the other hand SPED pupils had the highest number (8, 509) of repeaters followed by standard 4 and standard 6 with 1, 386 and 1, 328 respectively. Standard 1 had the lowest number of pupils repeating (826).

3.12 Primary School Drop Out

Statistics on dropouts shows the extent at which the pupils abandon school at different standards before they could complete the full course of primary education.

Table 3.16: Primary School Drop Out Rate by Sex- 2008-2013

Years	School Enrolment			Drop Outs			Drop Out Rates		
	Boys	Girls	Total	Boy	Girl	Total	Boy	Girl	Total
2007	166,987	160,631	327,618						
2008	167,058	160,175	327,233	2,309	1,318	3,627	1.4	0.8	1.1
2009	169,483	161,262	330,745	2,207	1,218	3,425	1.3	0.8	1
2010	169,556	161,640	331,196	2,071	1,124	3,195	1.2	0.7	1
2011	170,221	162,751	332,972	1,942	1,084	3,026	1.1	0.7	0.9
2012	171,323	164,507	335,830	2,109	1,130	3,239	1.2	0.7	1
2013	174,015	166,050	340,065	1,251	710	1,961	0.7	0.4	0.6
2014	174,715	165,985	340,700	1,484	734	2,218	0.8	0.4	0.7

Table 3.16 shows that drop out rate reduced from 1.1 percent in 2008 to 0.7 in 2017. The rate for boys reduced by 0.6 from 1.4 percent in 2008 to 0.8 percent in 2014 while the rate for girls reduced from 0.8 percent to 0.4 percent during the same period. Furthermore, the analysis shows that boys dropped at a higher rate than girls across the years.

Figure 3.8: Primary School Drop Out Rate by Sex – 2008-2014

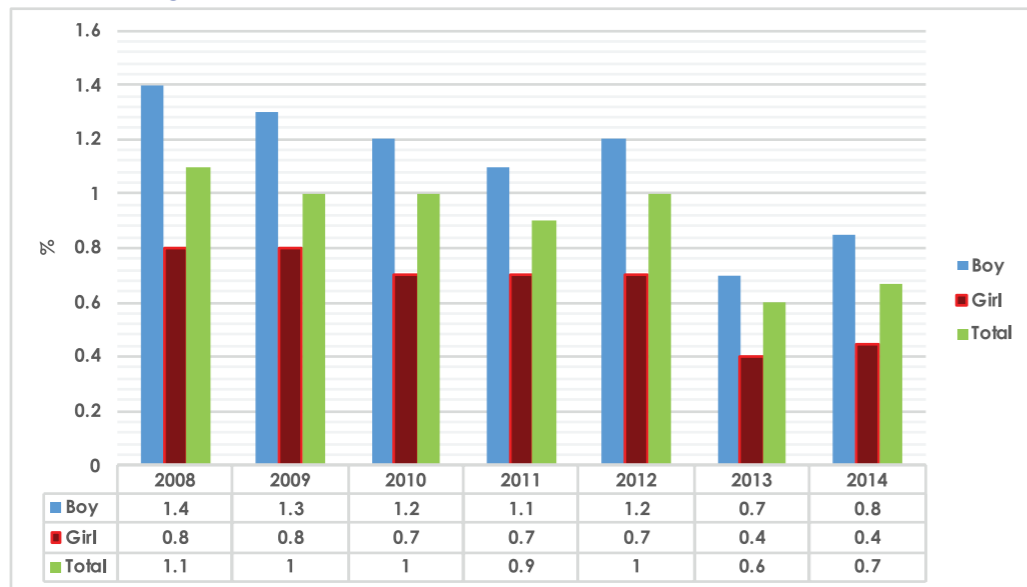

Figure 3.8 further illustrate drop out rates by sex from 2008 to 2014. The girls drop out rate is observed to be lower than the total drop out rate across the years while the reverse is true for the boys. Figure 3.8 further illustrate drop out rates by sex from 2008 to 2014. The girls drop out rate is observed to be lower than the total drop out rate across the years while the reverse is observed to be true for the boys.

Table 3.20 shows that in 2014 there were 2, 218 dropouts. When compared to the statistics for the previous year this shows that there has been a significant increase from 1,916 in 2013 to 2, 218 in 2014. Standard 1 dropouts remained the highest when compared to other standards. The common reason for school dropout at primary school level across all the standards was Trauncy.

Table 3.21: Standard 1 Drop Out as a Percentage of Previous Standard 1 Enrolment (2007 – 2014)

Year	STD1 Enrolment	STD1 Drop Out	Drop Out as % of STD 1 Enrolment for the Previous Year
2007	52,420	952	1.8
2008	50,754	814	1.6
2009	51,830	650	1.3
2010	51,968	696	1.3
2011	53,974	653	1.3
2012	56,382	747	1.4
2013	55,911	416	0.74
2014	53376	536	1

The standard 1 drop outs as percentage of standard 1 enrolment for the previous year has declined from 1.8 percent in 2007 to 1.0 percent in 2014, this is displayed by Table 3.21.

Figure 3.9: Standard 1 Drop Outs as Percentage of Standard 1 Enrolment in the Previous Year –2007 - 2014

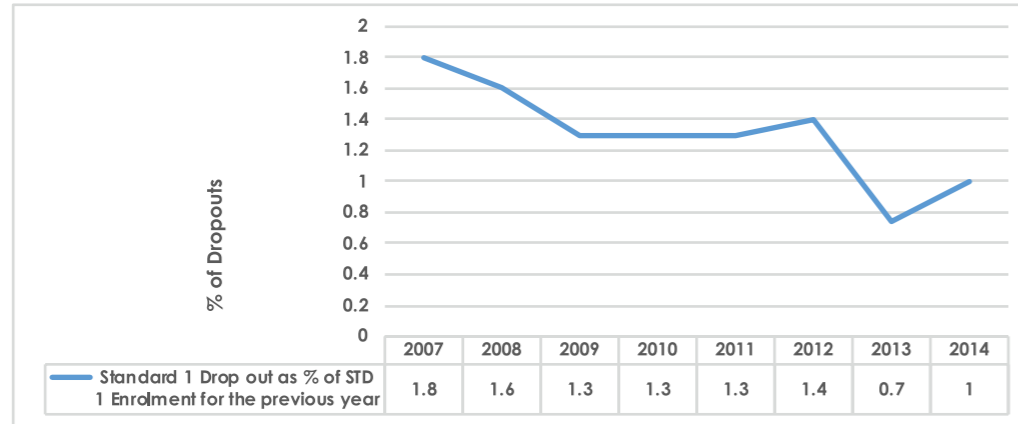

Figure 3.9 further illustrate the standard one drop out rate from 2007 to 2014. Between 2013 and 2014 the standard one drop out rate increased by 0.3 percentage points.

3.13 Primary School Re-Entrants

Table 3.22 shows that 1, 380 primary school children who had previously dropped out of school rejoined 1 in 2014. Boys re-entrants were 955 compared to 425 girls. The highest re-entrants were standard 1s for both boys and girls.

3.14 Primary School Teachers

Teachers are among the most important resources in the education system. Their teaching qualifications, teaching and learning resources provided have a significant influence on the overall quality of performance of learners. Currently the ideal teaching qualification for primary school teachers is a minimum of Diploma in Primary Education.

Table 3.25: Summary of Primary School Teachers by Employment Status per Region – 2014

***Excluding Relief Teachers.

Government schools include Government aided schools.

Table 3.26 shows that in 2014 there were 15,278 primary school teachers, excluding relief teachers. A higher number of teachers (10,075 or 65.9 percent) held Diploma in primary education, followed by (1,895 or 12.4 percent) those with other primary teaching qualification and (1,345 or 8.8 percent) for those with bachelor of Education in primary. Only 118 teachers had primary higher teaching qualification, while 31 had primary lower teaching qualification and 319 were unqualified.

Figure 3.10: Percentage of Unqualified Primary School Teachers – 2005-2014

The percentage of primary school teachers without any teaching qualification has been declining over the years. **Figure 3.10** shows that 7.4 percent of primary school teachers were untrained in 2005 and this declined to 2.1 percent in 2014.

3.15: Primary School Leaving Examination

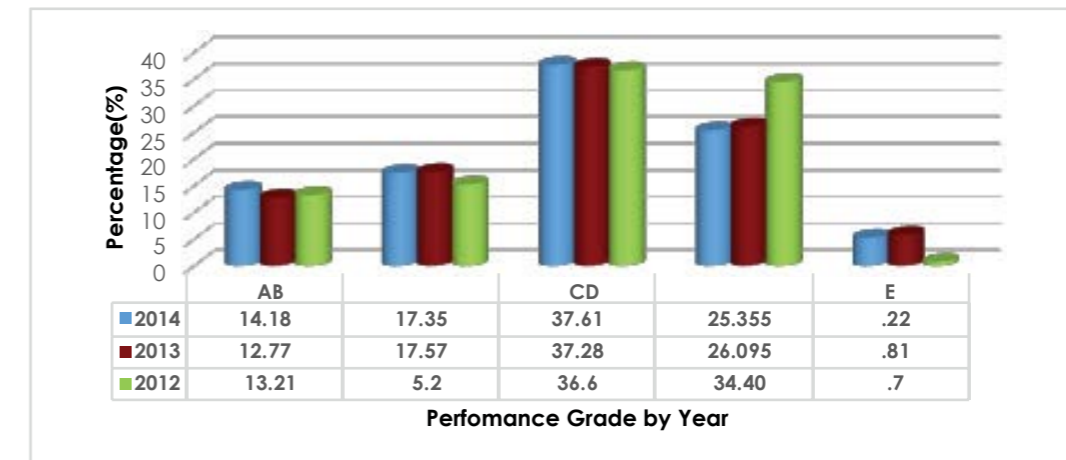

Figure 3.11: Number of PSLE Candidates – 2009 to 2014

**Data source: BEC 2014: PSLE Summary Results 2014

The candidature for PSLE has been increasing over the years from 42, 217 in 2009 to 43,788 in 2013 and started falling to 42, 797 in 2014. A minimal decline occurred between 42,217 in 2009 to 41,524 in 2010.

Figure 3.12: PSLE Overall Performance: 2012 - 2014

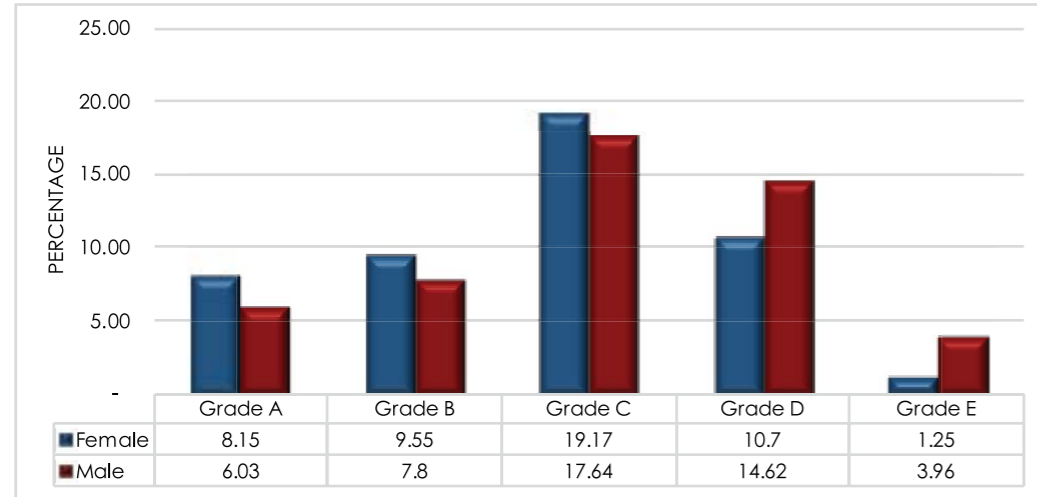

**Data source: BEC 2014: PSLE Summary Results 2014

Performance in the 2014 PSLE increased by 1.41% from 12.77% in 2013 to 14.18% for grade A, but decreased slightly by 0.2% from 17.57% in 2013 to 17.35% in 2014 for those who obtained grade B. Candidates who obtained grade C increased slightly by 0.33% to 37.61% in 2014 from 37.28% in 2013. Overall, the proportion of children who obtained grade C or better declined slightly from 67.9 percent in 2013 to 69.3 in 2014.

The proportion of candidates at grade D has decreased by 0.74% from 26.09% (2013) to 25.35% (2014) while at grade E also there was an decrease to 5.22%(2014) from 5.81%(2013).

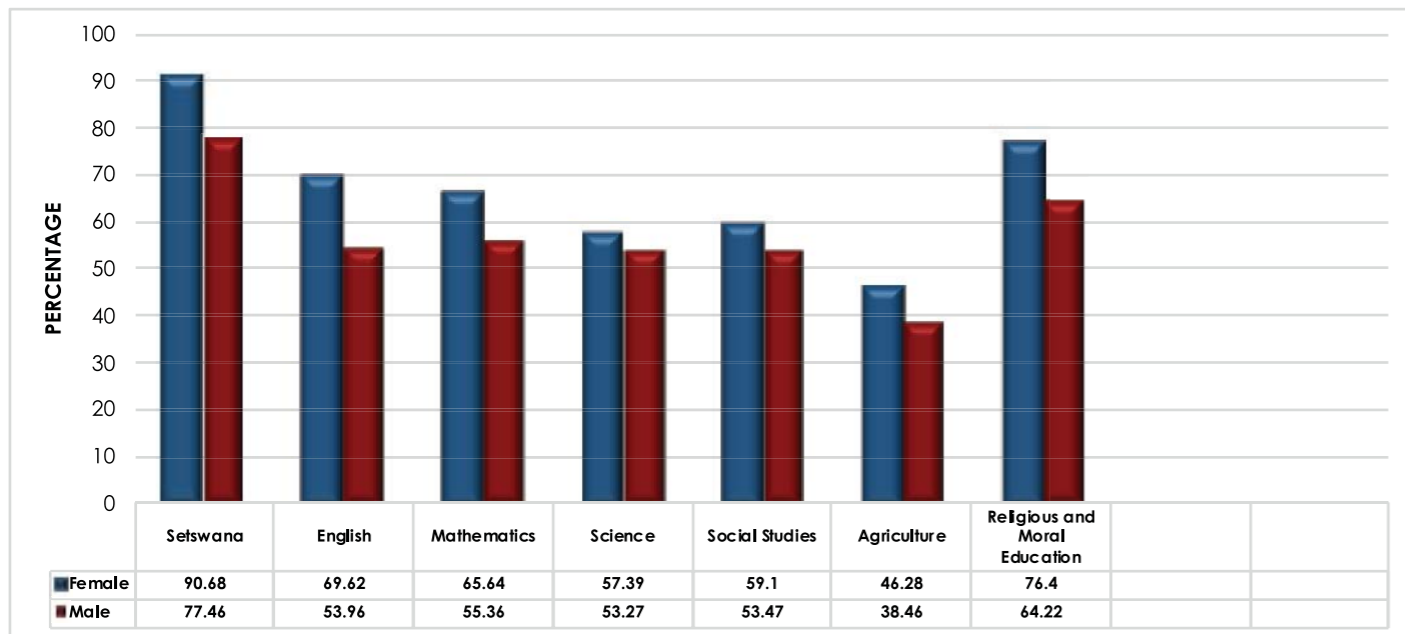

Figure 3.13: Overall PSLE Performance by Gender – 2014

Data source: BEC 2014: PSLE Summary Results 2014

The percentage of girls awarded overall grades A, B, C was higher than that of boys in 2014. **Figure 3.13** shows that 8.15 percent of females were awarded overall grade A compared to 6.03 percent of males; 9.55 percent of female candidates were awarded grade B while 7.8 percent of males got grade B; 19.19 percent of females got grade C while the percentage for boys who got grade C stood at 17.64 percent. On the other hand, the percentages of boys awarded grade D and E were higher than that of girls. Generally, this is an indication that girls performed better than boys in PSLE in 2014. The same pattern was recorded in 2013 PSLE results.

Figure 3.14: PSLE Pass Level Grade A to C by Subjects and Sex- 2014

Data source: BEC 2014: PSLE Summary Results 2014

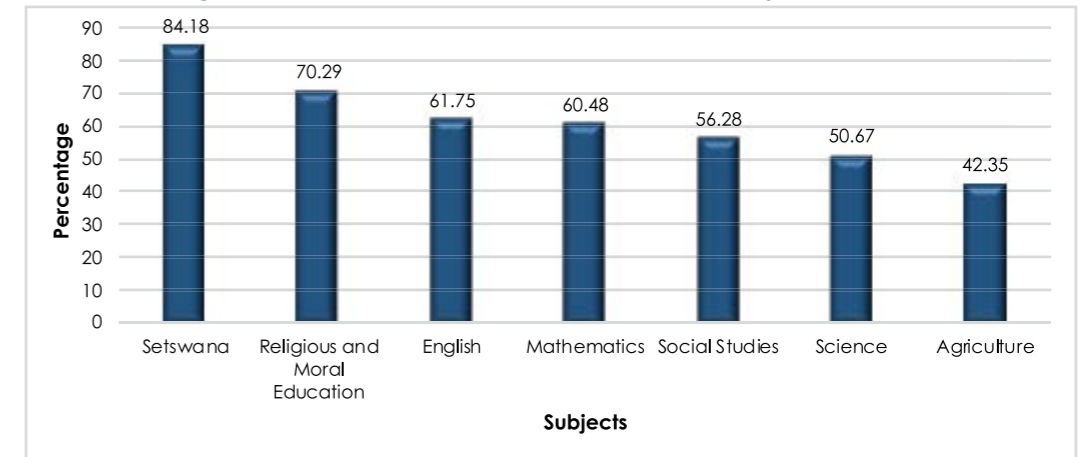

The 2014 PSLE results shows that girls had been performing better than the boys across all subjects at A to C. The pattern is consistent across both the 2012 and 2013 results.

Table 3.28: PSLE Candidature In 2012, to 2014 By Subjects

Subject	2012	2013	2014
Setswana	42,863	43,086	42,160
English	43,583	43,775	42,797
Mathematics	43,583	43,775	42,797
Science	43,583	43,775	42,797
Social Studies	43,583	43,775	42,797
Agriculture	43,583	43,775	42,797
Religious and Moral Education	43,583	43,775	42,97
Total Candidature	43,583	43,775	42,797

Data Source: Botswana Examinations Council (2016)

Figure 3.15: PSLE Pass Level Grade A-C by Subjects -2014

Data source: BEC 2014: PSLE Summary Results 2014

In 2014, all subjects except Agriculture had more than 50 percent of PSLE candidates awarded grade A to C. Setswana had the highest percentage (84.18 percent) which is an increase of 0.46 percent as compared to 2013 results. Religious and Moral Education recorded the second highest percentage of 70.29. Agriculture recorded the lowest percentage (42.35) of candidates awarded grade A to C.

Figure 3.16: Comparison of Subject Grades A to C from 2011 -2014

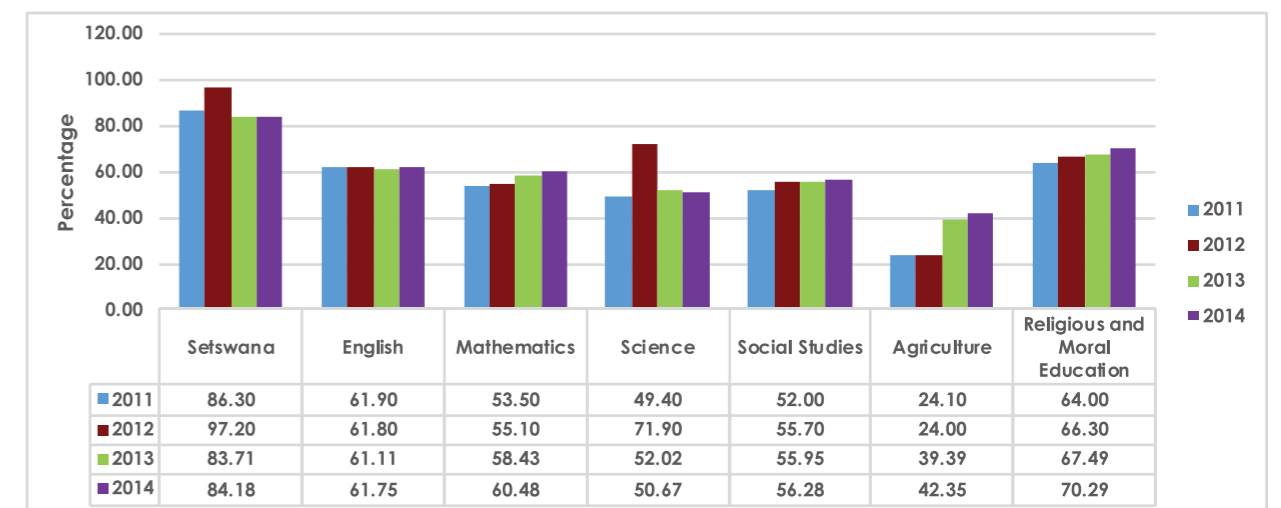

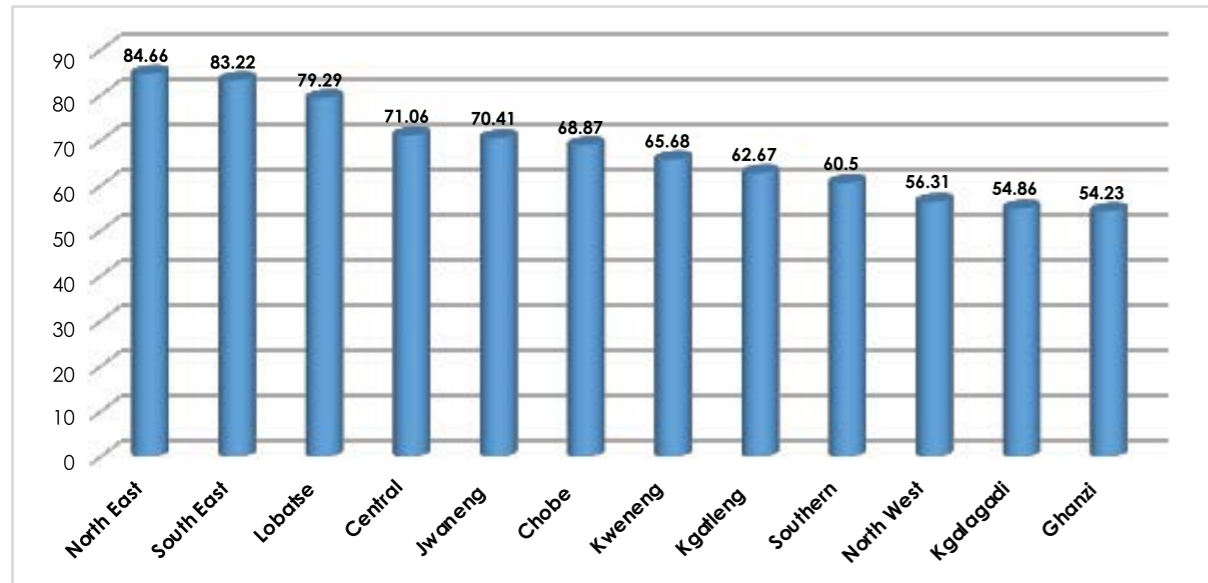

Figure 3.16 shows that from 2011-2014 PSLE Setswana performance has been slightly declining even though it stayed more than 80 percent. Compared to other subjects, Setswana subject had been recording high percentages in terms of the overall performance, followed by Religious Education which shown a promising increase from 64 percent in 2011, 66.3 percent (2012), 67.5 percent (2013) and 70 percent (2014). There has been constant change in English performance from 61.9 percent (2011), 61.8 percent (2012), 61.1 percent (2013) and 61.8 percent (2014). Agriculture is the only subject with the lowest performance even though the overall performance had been slightly increasing every year from 2011 to 2014.

Figure 3.17: Proportion of candidates awarded Grades A to C by Educational Districts

Data source: BEC 2014: PSLE Summary Results 2014

North East District with 84.6% and South East District with 83.2% performed significantly higher than other districts. The least performing district is Ghanzi at 54.2%.

4.0 SECONDARY EDUCATION

Secondary Education in Botswana is comprised of 5 years of which the first three years (junior secondary education; form 1 to 3) form part of the ten year basic education and the last two years are for senior secondary education (form 4 to 5). All children of school going age in Botswana have the right to the first three years of secondary as the integral part of the ten years basic education.

4.1 SECONDARY EDUCATION SCHOOL OWNERSHIP

Secondary school ownership in Botswana is mainly in three forms; Government, Government aided and privately owned schools. Government secondary schools are solely managed by MoBE, while the private schools are entities owned by individual or companies and Government aided schools are mission schools run by religious institutions (Roman Catholic Church and UCCSA to mention a few) in partnership with MoBE.

Table 4.1: Number of Secondary Schools by School Ownership – 2003-2014

Years	Secondary School Ownership						Total
	Government	% Share	Government Aided	% Share	Private	% Share	
2003	230	82.7	4	1.4	44	15.8	278
2004	230	82.4	4	1.4	45	16.1	279
2005	230	82.7	4	1.4	44	15.8	278
2006	231	84.3	4	1.5	39	14.2	274
2007	231	87.2	4	1.5	30	11.3	265
2008	232	84.1	4	1.5	40	14.5	276
2009	232	84.1	4	1.5	40	14.5	276
2010	232	84.1	4	1.5	40	14.5	276
2011	234	84.2	4	1.4	40	14.4	278
2012	235	83	4	1.4	44	15.6	283
2013	235	82.5	4	1.4	46	16.1	285
2014	235	80.8	4	1.4	52	17.9	291

Table 4.1 shows that there was an increase of 4.5 percent on the number of secondary schools, from 278 in 2003 to 291 in 2014. Government secondary schools constituted 80.8 percent of all secondary schools in the country, while government aided and private schools constituted 1.4 and 17.9 percent respectively. Private schools increased by 11.5 percent from 46 in 2013 to 52 in 2014 while the number of government and government aided school remained the same.

Table 4.2: Number of Secondary Schools by School Ownership and Region – 2014

Region	School Ownership				Total	%
	Government Schools	%	Private Schools	%		
South East	27	11.3	18	34.6	45	15.5
North East	21	8.8	7	13.5	28	9.6

Kgalagadi	7	2.9	-	0	7	2.4
Central	91	38.1	7	13.5	98	33.7
TOTAL	239	100	52	100	291	100

**Government schools include Government and Government aided schools

Table 4.2 shows that Central region had the highest percentage of Government secondary schools at 38.1 percent followed by South region with 14.2 percent. Chobe region had the lowest proportion of government secondary schools. On the other hand, South East region had the highest percentage of private schools (34.6%) followed by Central region, North East Region and South Region with 13.5 percent each. Chobe, Ghanzi and Kgalagadi regions did not have private schools.

The higher concentration of Government secondary schools in Central region is mainly due to its vast geographical spread and high population in the region

Table 4.3: Number of Schools, Streams, Classrooms and Enrolment by Region and School Ownership -2014

Table 4.3 shows that there was shortage of 622 classrooms in relation to streams in Government secondary schools in 2014. Central region had the highest number (150) of shortages of classrooms in relation to the streams in the region. The second region affected by high number of streams and shortage of classrooms was South East region followed by South region. Shortage of classrooms in Government aided schools was only in North West region. All regions with private schools had reported excess classrooms in relation to streams.

The average stream/ class size in Government schools is more than 40 in most regions, Kweneng region registered average stream size of 60 students. Government aided schools ranged from 40 to 41 students per stream. On the other hand the average stream size in private schools was less than 30 students per stream across all the regions except Kweneng.

4.2 Streams and Classrooms in Secondary Schools

Table 4.4: Number Streams, Classrooms and Enrolment by District -2014

NATIONAL	School	Classrooms	Streams (classes)	Students	Average Stream Size	Student/ Classroom Ratio	Classrooms - (minus) Streams

There was shortage of 427 classrooms country wide in relation to the number of streams/ classes. High number of streams and shortage of classrooms prevails across all the districts except for few districts which have private schools

4.3 Secondary School Enrolment

There was an increase of 10.49 percent in secondary school enrolments between 2006 and 2014, from 162,767 students to 181,826 students (Table 4.5). Furthermore Table 4.5 shows that female enrolment in secondary schools was higher than male enrolment.

Female students constituted 51.8 percent of the total secondary school enrolment in 2014, compared to 48.2 percent male students. Junior secondary school enrolment constituted 70.0 percent of total secondary school enrolment in 2014. Only 4.27 percent of the total students enrolled in secondary schools were in private secondary schools.

Table 4.5: Secondary School Enrolment by Form and Sex – 2006-2014

	Total	43,199	42,738	40,553	27,444	27,304	461	127	181,826

Due to unavailability of actual data for 2010 and 2011, the education enrolment projections from CSO (2005); Education Enrolment Projection 2004-2016 has been used as estimates for 2010 and 2011 enrolment.

The high rate of non-response from secondary schools in 2010 and 2011 led to unavailability of actual data by sex and hence the statistical gap for the said years.

Table 4.6: Secondary Education Enrolment by School Ownership, Sex and Form 2014

School ownership		Form 1	Form 2	Form 3	Form 4	Form 5	Form 6	SPED	Total	%

	Female	610	616	703	819	995	211	-	3,954	2.2
	Total	1,222	1,241	1,428	1,602	1,797	461	-	7,751	4.3
All Schools	Male	21,298	21,275	20,045	12,450	12,272	250	65	87,655	48.2
	Female	21,901	21,463	20,508	14,994	15,032	211	62	94,171	51.8
	Total	43,199	42,738	40,553	27,444	27,304	461	127	181,826	100

The annual school census indicates that in 2014, secondary school enrolment was at 181,826, with female enrolment of 51.8 percent and 48.2 percent for males. Government schools enrolled 92.2 percent of all students while only 3.5 percent were enrolled in Government aided (mission schools) and private schools enrolled 4.3 percent (Table 4.6). This is an indication that Government was the main provider of secondary education.

Table 4.7: Secondary Education Enrolment by Boarders and Non Boarders – 2014.

	Sex	Form 1	Form 2	Form 3	Form 4	Form 5	Form 6	SPED	Total
Boarders	Male	3,736	3,542	3,332	4,552	4,662	35	31	19,890

Table 4.8 shows that Secondary school enrolment is highest in Central region with 62,628 students followed by South East and Ngwaketse and regions with 28,215 and 22,939 respectively. On the other hand South East had the highest number of students (3,193) in Government aided schools. South East had the highest number of students; 4,441 in private schools. Chobe region was the smallest region in terms of number of schools and total enrolment.

Figure 4.1: Enrolment by School Ownership – 2014

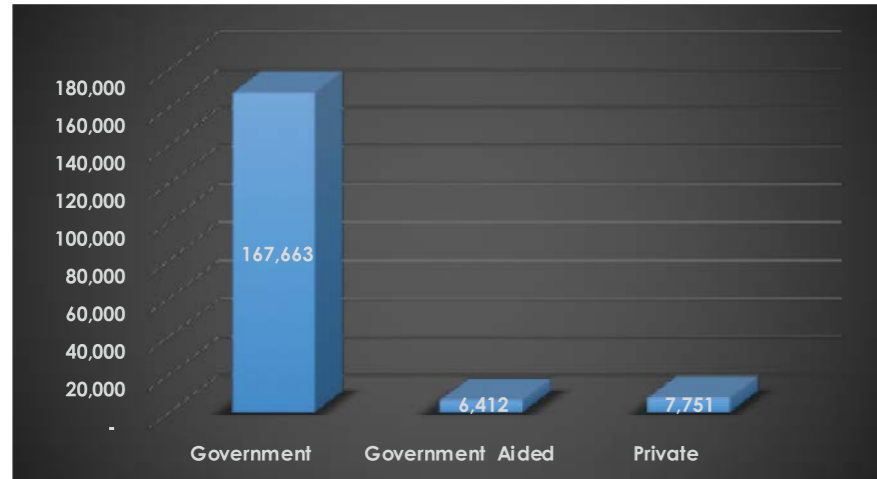

Figure 4.1 illustrate enrolment by school ownership and Government owned schools accounts for 92.2 % of total schools. Figure 4.2 illustrates enrolment by school ownership and by Region.

Figure 4.2: Secondary Education Enrolment by Region and School Ownership- 2014

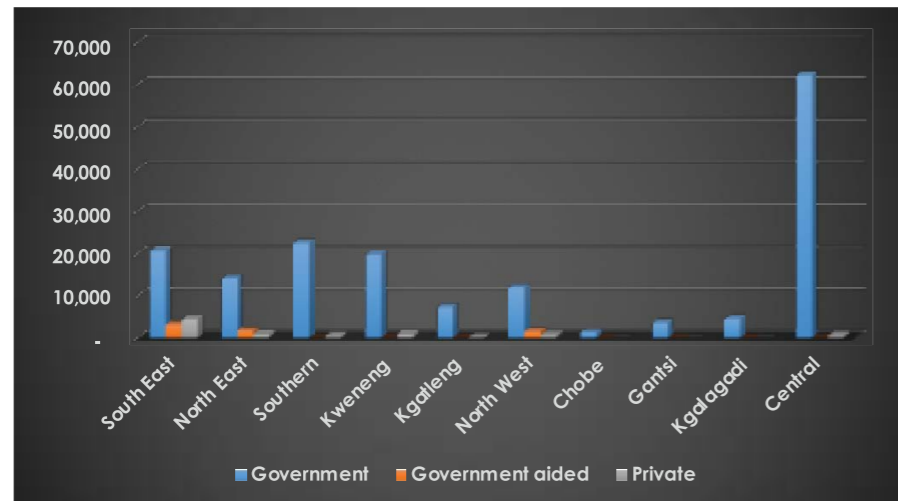

Figure 4.3: Secondary Education Enrolment by Region and Sex 2014

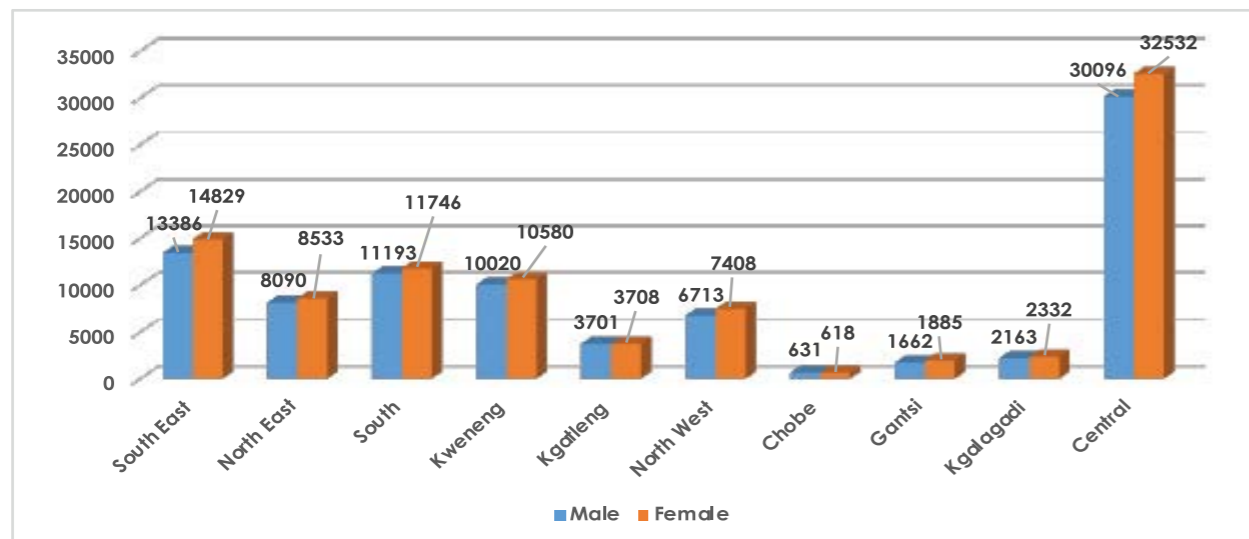

Figure 4.3 shows that female enrolment in secondary schools was slightly higher than that of their male counterparts across all the regions. Gender difference in enrolment was slightly more in Central, followed by South East and Ngwaketse. Female and male enrolment in Chobe region was almost equal. Table 4.9 below further illustrates this

Table 4.10 shows some secondary school students reached Form 1 before they turned 12 years, the age at which they are still expected to be at primary school. On the other hand, some students were above 19 years for the lower grade of junior secondary school, the age at which they are expected to have completed their senior secondary education.

4.4 Special Education Needs AND Disability in Secondary Schools

The Ministry of Education and Skills development (MoESD) through the Revised National Policy on education (RNPE) of 1994, is committed towards an inclusive education system and provision of special education. This in turn facilitates increase in access to education by all including orphans, vulnerable children, children in difficult circumstances, children with special education needs and disability.

Some mechanisms in place to improve access for children with special education needs to secondary education are; building of special education units in existing schools, provision of equipment and infrastructure in main stream schools to support children with disability, as well as integrating and mainstream children with special education needs and disability in to the mainstream. Currently there is one Government junior secondary school (JSS) and one senior secondary (SSS) with visual impairment special education unit, two JSS and one SSS with hearing impairment special education unit.

Total	2,172	2,295	2,365	629	620	5	181	8,267

Table 4.11 shows that the total enrolment of students with special education needs was 8,267 with 4,417 males and 3850 females. The enrolment of students with special education needs in secondary schools have declined from 7,501 to 6,085 in 2012 and 2013 respectively, it increased again from 6,085 in 2013 to 8,267 in 2014. Secondary school students with Visual impairment constituted the highest number of 2,898 students with 1,439 males and 730 females followed by those with intellectual disability with 2,744; 1,788 males and 956 females. The Gender Parity Index (GPI) for enrolment of children with disability was 0.99, indicating almost equal access for both male and female students with disability.

It should be noted that in previous statistics, pupils wearing spectacles and those epileptic were not considered as children with special education needs which is now the case in this report. The current data also include children with intellectual disability which is inclusive of severe slow learners and mentally challenged children while previously the data was collected only on the mentally retarded children. The above statement could then be taken as the explanation for increase in special education enrolment from 2,498 in 2008 to 8267 in 2014.

Figure 4.4: Secondary School Enrolment with Special Education Needs by Types of Impairment – 2014

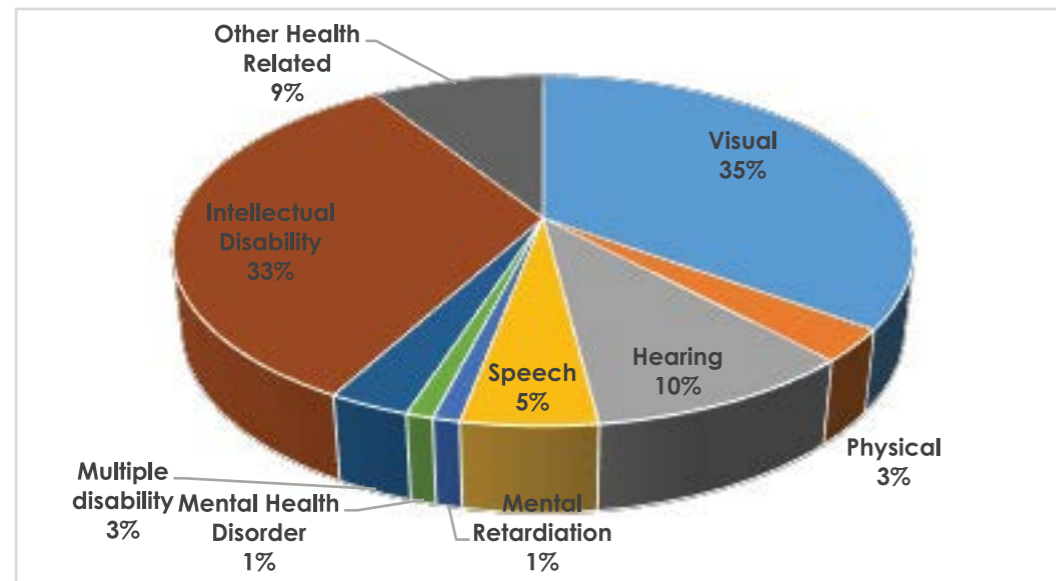

Figure 4.4 shows that majority of enrolment with disability were those with visual disability at 35 percent, followed by intellectual disability, constituting 33 percent. Enrolment with mental health disorders and mental retardation constituted the smallest percentage 1 percent each.

4.5 Gross And Net Enrolment Ratios

Table 4.12: Secondary School Female Gross and Net Enrolment Ratios (13-17), 2002 - 2014

Year	Female Population Aged 13-17	Female Enrolment Aged 13-17	Total Female Enrolment	13-17 Years Female GER	13-17 Years Female NER

Note: (-) indicates unavailability of the indicator due to the unavailability of data.

Generally female access in secondary education has been improving since 2002. GER for female population aged 13-17 increased by 8.14 percent over 12 years, from 2002 to 2014. On the other hand, NER for the same population age continued to increase from 63.1 percent in 2002 to 70.67 percent in 2008 and then declined to 69.8 percent in 2012. It increased from 69.8 percent in 2012 to 72.2 percent in 2014. Due to unavailability of data for 2009 to 2011 there is a gap in reporting of NER for these years.

Table 4.13: Secondary School Male Gross and Net Enrolment Ratio (13-17) - 2002 – 2012

Year	Male Population Aged 13-17	Male Enrolment Aged 13-17	Total Male Enrolment	13-17 Years Male GER	13-17 Years Male NER

2014	101,792	68,756	87,655	86.1	67.5

Note: (-) indicates unavailability of the indicator due to the unavailability of data. 2009 Enrolment is not by age

Gross Enrolment Ratio for male population aged 13-17 increased by 12.46 percent over more than a decade from 2002 to 2014. On the other hand, NER for the same population age continued to increase from 54.6 percent in 2002 to 67.5 percent in 2014. Due to unavailability of data for 2009 to 2011 there is a gap in reporting of NER for these years.

Table 4.14: Secondary School Gross and Net Enrolment Ratios – Both Sexes Aged (13-17) – 2002 – 2014

Year	Population Aged 13-17	Enrolment Aged 13-17	Total Enrolment	13-17 Years GER	13-17 Years NER

4.6 Transition Rate

Figure 4.5: Transition Rates in Secondary Education - 2000 to 2014

Source of Data: Statistics Botswana & Department of Basic Education

Transition rate from lower secondary (Form 3) to upper secondary (Form 4) ranges from 55.3 percent in 2005 to 70.6 percent in 2014. According to National Development Plan (NDP 9) MFDP,(2009: 95) the targeted transition rate from junior to senior secondary education was 70.0 percent. However, since 2005 to 2013, MoBE has never reached the set target, instead it was only reached in 2014 where 70.6 percent was recorded.

4.7 Secondary School Drop Outs

It should be noted that dropout figures reported in the current school calendar year pertains to those pupils who dropped out of the system during the previous school calendar year. Therefore dropout rates are calculated in relation to the enrolment in the previous year.

Table 4.17: Drop Out by Sex and Form – 2014

Sex	Form 1	Form 2	Form 3	Form 4	Form 5	Form 6	SPED	Total
Male	285	295	225	82	80	2	1	970
Female	300	379	460	305	316	-	1	1,761
Total	585	674	685	387	396	2	2	2,731
%	21.4	24.7	25.1	14.2	14.5	0.1	0.1	100.0

Table 4.17 shows that a higher percentage (25.1 percent) of secondary school students who dropped out of school in 2014 were doing Form 3, followed by those who were doing Form 2 and 1 at 24.7 percent and 21.4 percent respectively. The students who dropped out at Form 6 and in SPED units constitute lower of 0.1 percent each.

While the major reasons for dropping out for males were truancy, illness, and other reasons not stated, females dropped out mainly due to pregnancy. However, there was a substantial number of females who also dropped out due to truancy. Other reasons for dropping out include abuse by parent, abuse by teacher, corporal punishment etc. Dropouts due to school fees were mainly realized in private schools. Dropouts due to marriage, bullying, substance abuse, poor performance, child labour, religion constituted very small percentages (less than 1 percent each).

Figure 4.6: Number of Secondary School Drop Outs by Level per Year – 2014

**No data is available for 2010 and 2011 mainly due to non responses by schools

Figure 4.6 indicates that the majority of the secondary drop outs were at junior secondary school level.

4.8 Repeaters

Repeaters are the students who are enrolled in the same grade or level as the previous year. These students would normally have not successfully passed the grade in the previous year and therefore have to re-do the grade in the current year.

Table 4.20: Secondary School Repeaters by Form and Sex – 2014

Sex	Form 1	Form 2	Form 3	Form 4	Form 5	Form 6	SPED	Total
Male	39	36	149	30	145	1	-	400
Female	25	45	169	99	231	-	-	569
Total	64	81	318	129	376	1	-	969
%	6.6	8.4	32.8	13.3	38.8	0.1	0.0	100.0

In 2014, female students who repeated a grade were more than their male counterparts in most of the grades. The highest number of repeaters in 2014 were doing Form 5, followed by Form 3 and Form 4.

Table 4.21 shows that repetition at secondary school mainly happened at private secondary schools. Therefore, it is not surprising to find majority of repeaters doing Form 5, followed by those doing Form 3. These are normally the students who would have not performed well on their JCE and BGCSE the previous years.

TOTAL	15,079	738	15,817	95.3	4.7

***Relief Teacher excluded

Table 4.26 shows that in secondary schools, there were 15,817 teachers (excluding relief teachers) and these were mainly nationals; 15,079 being Batswana and 738 being non-Batswana. Furthermore the table shows that Batswana constituted 95.3 percent of the total secondary school teachers while the non- Batswana teachers constitute 4.7 percent.

Figure 4.7: Secondary School Teachers by Citizenship- 2014

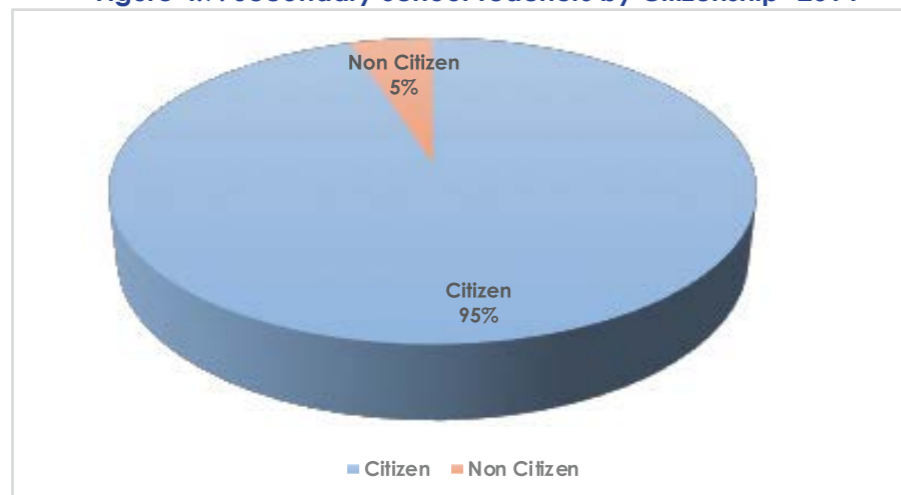

Figure 4.7 further illustrate the proportion of secondary school teachers by citizenship; citizens constituted 95.3 percent while non citizens constituted the remaining 4.7 percent. The percentage of non citizen teachers has been declining over the years. The decline over ten years was from 19.1 percent in 2002 to 4.7 percent in 2014. This could be taken as a significant achievement towards localization of teaching over the years.

Table 4.27: Secondary Education Teachers by Region and Qualification- 2014

***Relief Teachers Excluded

Figure 4.8: Percentage of Secondary School Teachers by Qualification-2014

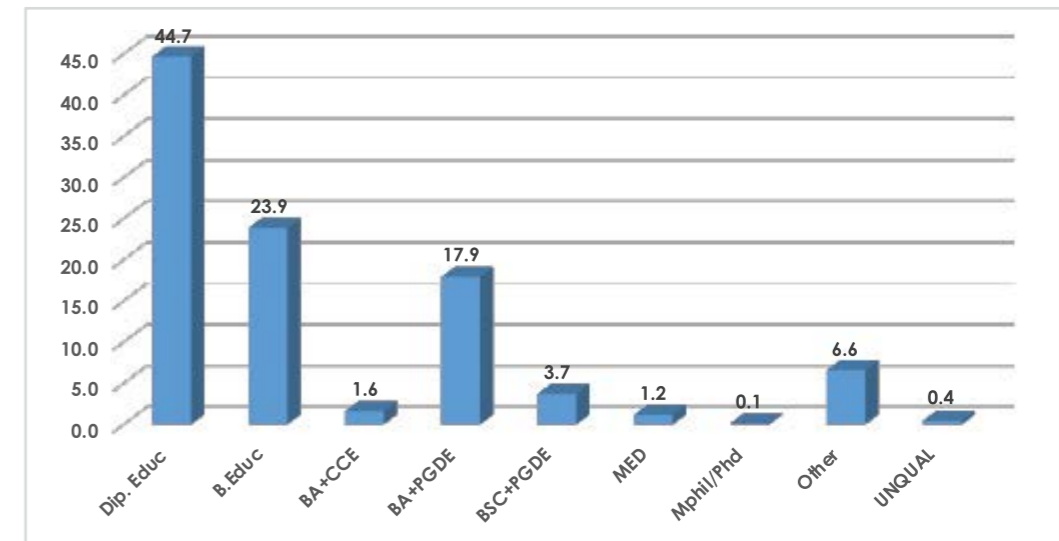

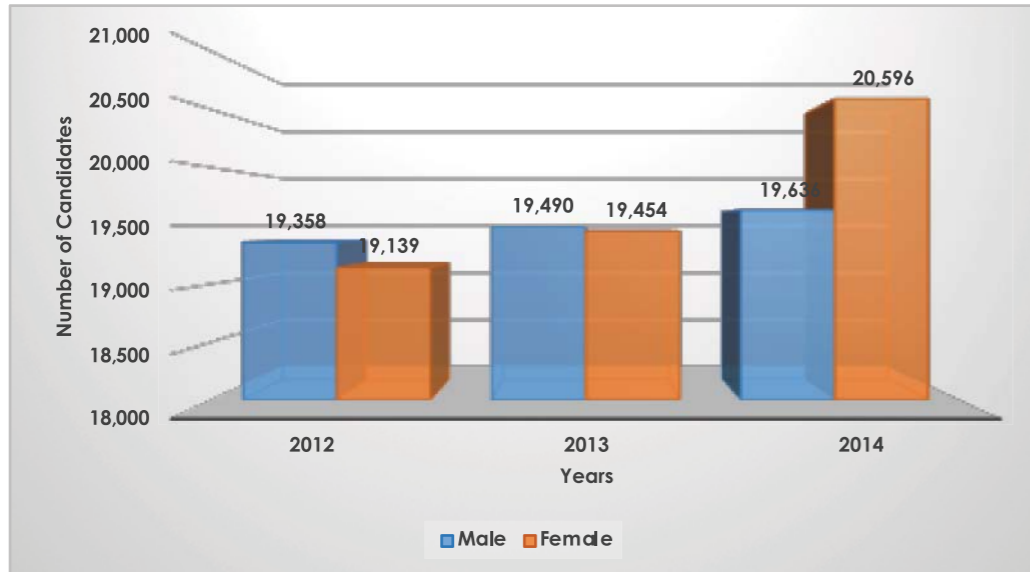

Figure 4.8 shows that in 2014 a higher proportion (44.7 percent) of secondary school teachers held Diploma in Secondary Education, followed by 23.9 percent of teachers trained in Bachelor of Education degree (B.Ed.) while only 1.2 percent had Master of Education (M.Ed.) and 0.1 percent had Mphil/Phd. A very small proportion of teachers were still unqualified. The small number of unqualified secondary school teachers can be taken as a sign of improved teacher qualification and quality in secondary education. The unqualified teachers were mainly reported in private schools.

4.11 Junior Certificate Examination (JCE)

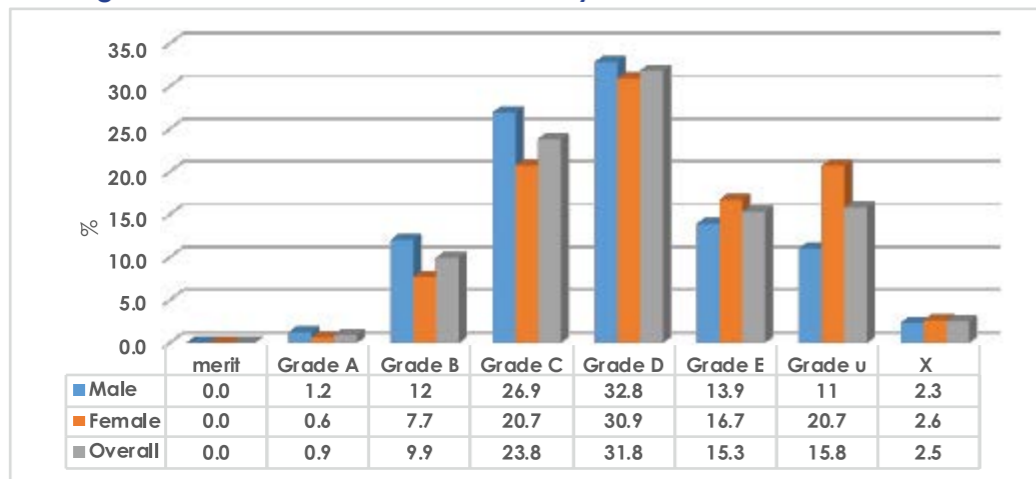

Figure 4.9: Number of JCE Candidates by Sex – 2012-2014

Data source: BEC 2012: JCE Summary Results 2014

The total number of candidates who satisfied the requirements of the 2014 Junior Certificate Examination JCE is 40,559 which is an increase of 4.2 percent from 2013 candidature. There were 19,633 male candidates and 20,596 female candidates.

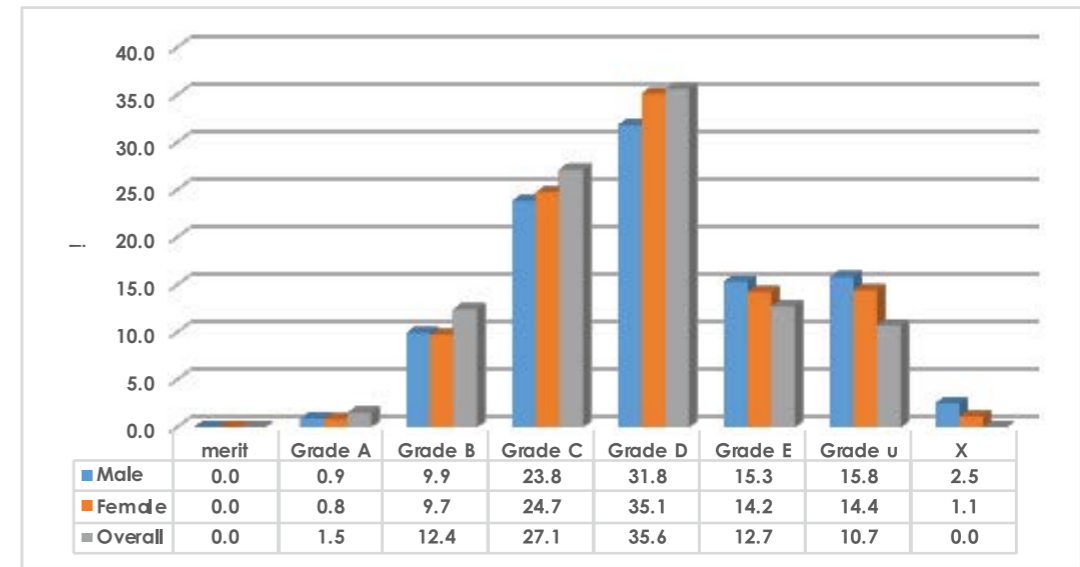

Figure 4.10: Overall JCE Performance by Gender and Grade – 2014

Data source: BEC 2014: JCE Results Summary

Gender differential in overall pass grade is more evident at grades B and C, where females are out-performing their male counterparts. It is also evident at lower grade E and U when males out-number females.

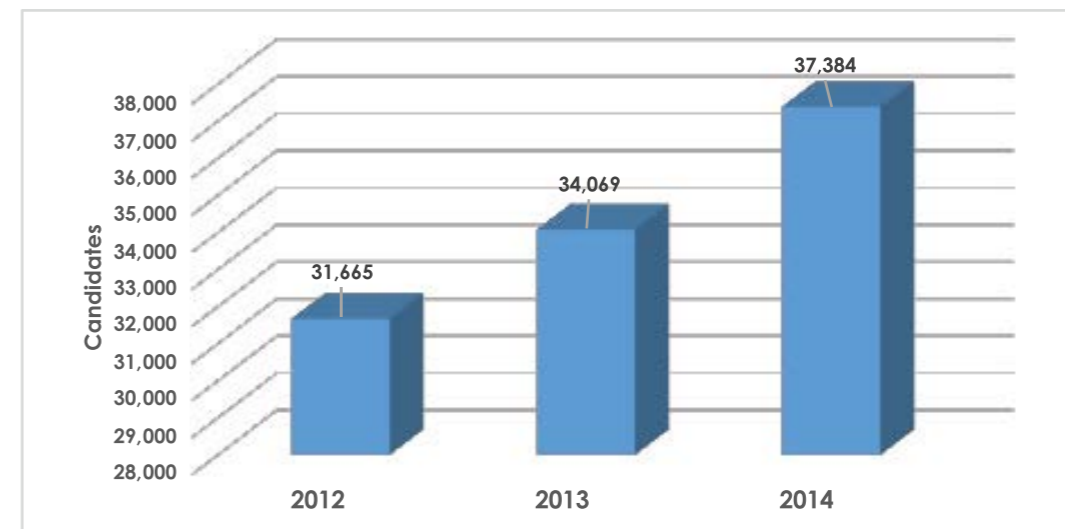

Figure 4.11: JCE Overall Performance by Year and Grade: 2012-2014

Data source: BEC 2014: BGCSE Summary Results 2014

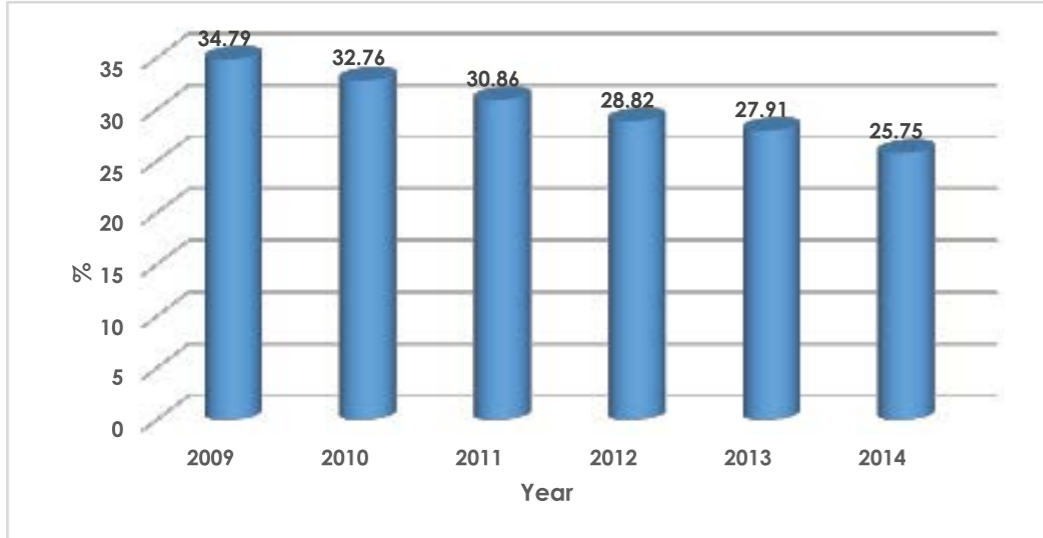

It is much evident from the graphical display that the candidates in 2012 performed better than the 2014 candidates. The proportion of candidates awarded grades A to C were much higher in 2012, followed by 2013 and lastly 2014. However, in Grade A and B, year 2013 and 2014 are slightly comparable. The 2014 year has higher proportion of candidates awarded grades E, U and X.

Figure 4.12: Botswana General Certificate of Secondary Education (BGCSE) Candidature – 2012-2014

Data source: BEC 2014: BGCSE Summary Results

Figure 4.13: Percentage of BGCSE Candidates Awarded 5Cs or Better (2009-2014)

Data source: BEC 2014: BGCSE Summary Results

Proportion of grades awarded C or better have been consistently dropping for the past 6 years

5.0 Concepts and Definitions

Access

Total Enrolment: Total number of learners in the system.

Age Specific Enrolment Ratio (ASER): Enrolment of the population of a specific age / Population of that specific age)*100. Age Specific Enrolment Ratio is percentage of the population of a specific age enrolled. It shows the extent of the population of a specific age cohort in educational activity.

Gross Enrolment Ratio (GER): Number of pupils enrolled in a given level of education, regardless of age, expressed as a percentage of the population in the theoretical age group for the same level of education; Total enrolment in primary / Population of that specific age group 6-12yrs) *100.

Net Enrolment Ratio (NER): Number of pupils in the theoretical age group for a given level of education enrolled in that level expressed as a percentage of the total population in that age group.; Enrolment of specific age group 6-12 years/ Population of that specific age group 6-12yrs) *100

Net Intake Rate (NIR): Number of new entrants in the first grade of primary education who are of the theoretical primary school entrance age, expressed as a percentage of the population of the same age.

Gross Intake Rate (GIR): Total number of new entrants in the first grade of primary education regardless of age, expressed as a percentage of the population of the theoretical entrance age to primary education.

Quality

Student Teacher Ratio: Average number of pupil per teacher at the level of education specified in a given school year, based on headcounts for both pupils and teachers; Total enrolment / Total number of teachers.

Student Classroom Ratio: Average number of pupil per classroom at the level of education specified in a given school year, based on headcounts for both pupils and classrooms; Total enrolment / Total number of classrooms.

Percentage of Trained Teachers: Number of teachers who have received the minimum organised teacher training (pre-service or in service) required for teaching at the relevant level of education in the given country, expressed as a percentage of the total number of teachers at the given level of education.

Pass Rate: Percentage of candidates with Grade C or better as an overall percentage.

Efficiency

Transition Rate from Primary to secondary: Number of new entrants to the first grade of secondary education in a given year, expressed as a percentage of the number of pupils enrolled in the final grade of primary education in the previous year.

Dropout Rate: Is the proportion of pupils who leave the system without completing a given grade in a given year

Percentage of Repeaters: Number of pupils who are enrolled in the same grade (or level) as the previous year, expressed as a percentage of the total enrolment in the given grade or level of education.

Survival Rates: Survival rates are calculated on the basis of the reconstructed cohort method, which uses data on enrolment and repeaters for two consecutive years. It is to be interpreted as the percentage of children who start primary education who will reach a given grade.

Equity

Gender Parity Index (GPI): Ratio of the female to male values of a given indicator. A GPI 1 indicates parity between sexes

Gross Completion Rate(G.C.R): Total number of students completing(graduating form) the final year of primary or secondary education ,regardless of age,expressed as a percentage of tghe official or secondary graduation rate.

e.g. $GCR(\text{Primary}) = \frac{\text{No.of students in the last primary grade-repeating students}}{\text{Population of the official age group for the last primary grade}} * 100$

8.0: SUMMARY OF KEY INDICATORS

Table 8.1.1: ECCD Indicators-2014

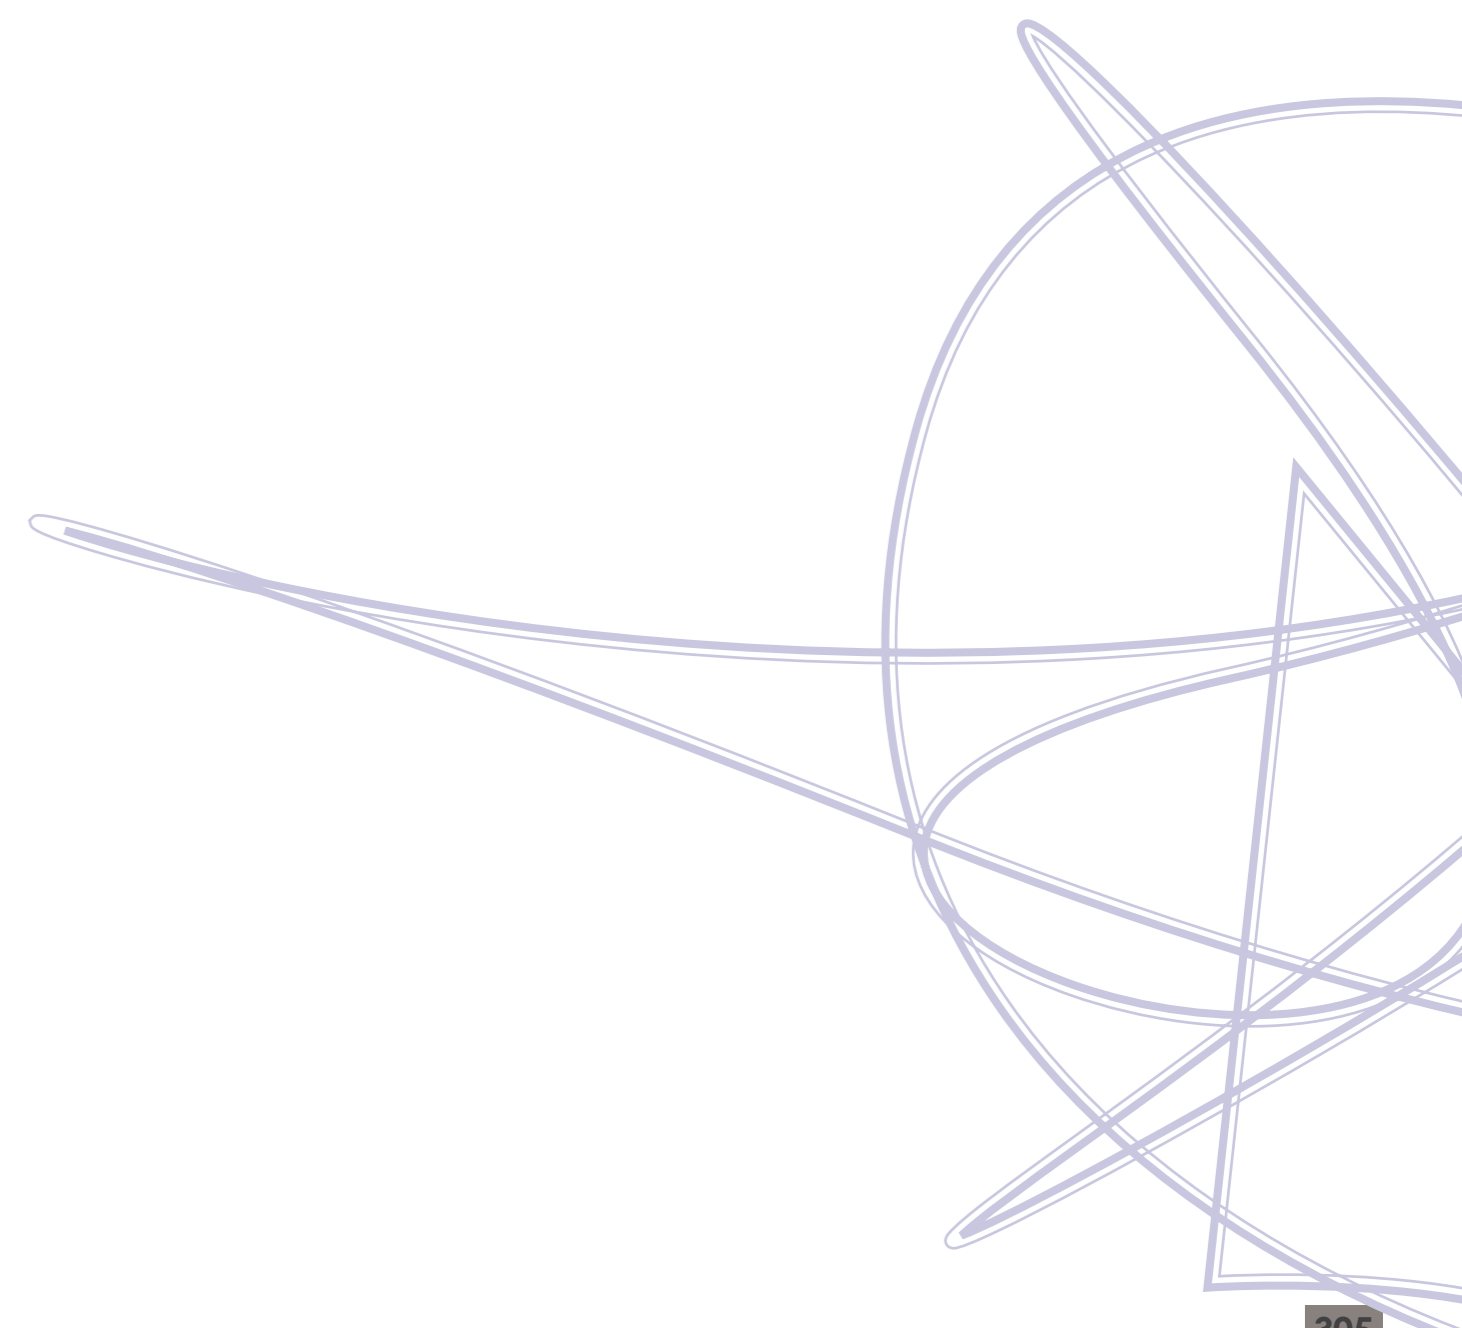

Indicators	Disaggregation	2012	2013	2014
	Total	19.8	20.4	23.3
Gross Enrolment Ratio (GER0 3-5 yrs.) %	Male	19.8	-	-
	Female	19.8	-	-
	Total	16.64	17.3	19.5
Net Enrolment Ratio (NER – 3-5 yrs.) %	Male	16.58	-	-
	Female	16.71	-	-
	≤1 year	0.3	0.2	0.2
	2 years	3.1	4.5	4.5
	3 years	17.9	13.5	14.9
	4 years	21.4	18.9	20.5
	5 years	6.4	19.4	23.6
	6 years	-	4.4	0.6
Ratio of trained teachers to total teaching force (%)		54.6	55.1	54.2
Gender Parity Index (GPI)		1	0.96	1

Table 8.1.2: Primary Level Indicators – 2009-2014

Indicator	2009	2010	2011	2012	2013	2014
Apparent Intake Rate (AIR) %						
(6 years)	-	-	-	110.3	112	104.6
(7 years)	-	-	-	110.5	112.3	100.4
Net Intake Rate (NIR) %						
(6 years)	55	63	50
(7 years)	36	101	36
Gross Enrolment Ratio (GER) %						
(6-12) years	108	110	99	88.6	110.8	111.1
(7-13) years	109.8	108.8	89.7	93.1	111.9	98.8
Net Enrolment Ratio (NER) (%)						
(6-12) years	85.8	89.4	89.7	93.1	92.9	94.2
(7-13) years	91.8	90.8	88.5	103.9	94.5	87.5
Gross Completion Rate (GCR) %	...	98.5	97.9	97.8	-	-
Gross Graduation (Pass) Rate (GRR) %	68.2	69.2	64	65	-	-
Dropout Rate (DR) (%)	0.9	1	0.8	1	0.6	0.7
Pupil-Class Ratio (PCR)	...	26-35	26-35	26-35	-	-
Gender Parity Index (GPI) for GER	1	1	1	1	1	1
Pupil-Teacher Ratio (PTR)	25	26	26	24	23	23
Ratio of trained teachers to total teaching force	99.6	99.6	99.8	99.7	98.5	97.9
Teacher Attrition Rate (TAR) %	12.9	-	-

Table 8.1.3: Secondary Indicators-2009-2014

Indicators	Disaggregation	2009	2010	2011	2012	2013	2014
Junior Secondary School Education							
Gross Enrolment Ratio (GER) %		95.4	98	101.7
Net Enrolment Ratio (NER) %		53.1	55.3	60.7
Age Specific Enrolment Ratios (ASER) %	13 years	22	25.1	29.7
	14 years	58	61.2	69.2
	15 years	80	79.8	83.4
Gross Completion Rate (GCR) %		98.3	97	97.5	94.1	92.5	97.4
Gross Graduation (Pass) Rate (GRR)%		75	74.6	74.7	41.1
Senior Secondary School Education							
Gross Enrolment Ratio (GER) %		64.4	64.3	65.9
Net Enrolment Ratio (NER) %		29.8	29.5	30.5
Age Specific Enrolment Ratios (ASER) %	16 years	15.6	15.2	16
	17 years	43.9	43.7	44.8
Transition Rate (TR)%		56.5	54	62	63.8	67.7	70.6
Student-Class Ratio (SCR)		...	35-40	35-40	29	42	47
Ratio of trained teachers to total teaching force %		99.8	99.6	99.6
Gender Parity Index (GPI) for GER		1.08	1.07	1.07	1.07
