PREFACE

This is an annual publication of Statistics Botswana. The information contained in this publication is compiled from the completed Immigration Arrival/Departure forms.

Travellers entering and leaving the country are required to complete arrival and departure forms at all gazetted points of entry/departure. Botswana citizens are exempted from completing immigration forms. The figures on arrivals and departures contained in this publication therefore cover only non-citizens, both visitors and temporary residents of Botswana.

It is important for the Immigration and Citizenship Department to ensure that the arrival/departure forms are completed properly and by all, as this will help to improve the quality of data.

Users who require more information can contact the Tourism and Trade-in-Services Section of Statistics Botswana at the address on the copyright page.

1.0 Introduction

The tourism statistics report is an annual publication that depicts the statistics of non-citizens entering and leaving the country. The common terms used for these are the arrivals and departures. The comprehensive statistics compiled in this report includes arrivals by country of residence, nationality, purpose of entry, the mode of travel used, point of entry and exit, as well as age groupings and sex. The information collected is derived from the Department of Immigration forms, which are only filled by non-citizens at the points of entry and exit. In this report Botswana citizens are exempted from filling such forms.

2.0 Arrangement of Tables

The tables in this report are categorized into two portions. The first group of tables relates to the arrivals. The second category of tables provides information on departures.

3.0 Total Arrivals

A total of 3, 207, 762 arrivals were recorded in 2010. This is an increase of 37.3 percent (871, 474) from 2, 336, 288 arrivals recorded in the previous year, 2009. Chart 1 below shows the trend of the arrivals from 2000 to 2010, the latter being the highest.

Chart1: Total Arrivals from 2000 – 2010

3.1 Arrivals by Nationality

The majority of arrivals were from Zimbabwe as displayed by Table 1, with a share of 45.9 percent (1,473, 096) of the total arrivals in 2010. These are followed by those from South Africa, accounting for 29.9 percent (959 302) of the total arrivals recorded in 2010.

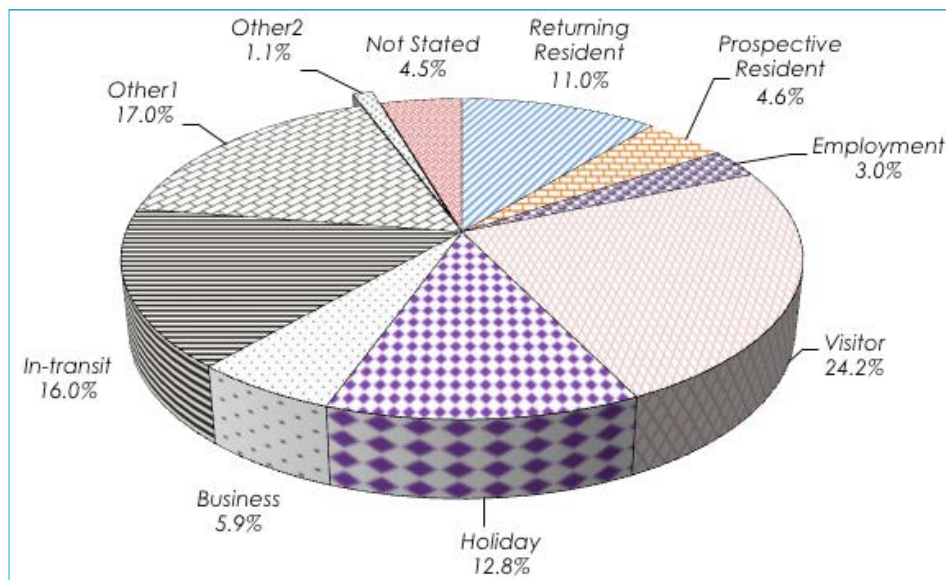

The African continent as a whole accounted for 89.3 percent (2, 865, 388) of total arrivals. Europe contributed 5.4percent (173, 213) followed by Asia with 1.9 percent (60, 676), then America with 1.7percent (55, 588) of the total arrivals. The lowest number of arrivals recorded was from the Oceania region, which recorded 19, 103 (0.6 percent).

3.2 Arrivals by Purpose of Entry

Table 3 shows that most of the arrivals into Botswana stated visiting as the main purpose of entering the country. About 24.2 percent (775, 065) was recorded as visitors, 16.0 percent (512, 286) were on transit, while holiday-makers accounted for 12.8 percent (409, 185) of the arrivals. Other significant contributions were made by returning residents and those who came into the country for business purposes, with 11.0 percent (353, 397) and 5.9 percent (187, 947) respectively.

The distribution by Purpose of Entry is illustrated by Chart 2 below. "Other1" consists mainly of arrivals for purposes of shopping, religious and medical reasons. These three are not specific in the form but fall under category "other- specify". "Other2" comprises those arriving for purposes of "Seeking Employment", "Students" and "Diplomats".

Chart 2: Percentage Arrivals by Purpose of Entry-2010

Other1 = those arriving for shopping, religious and medical reasons

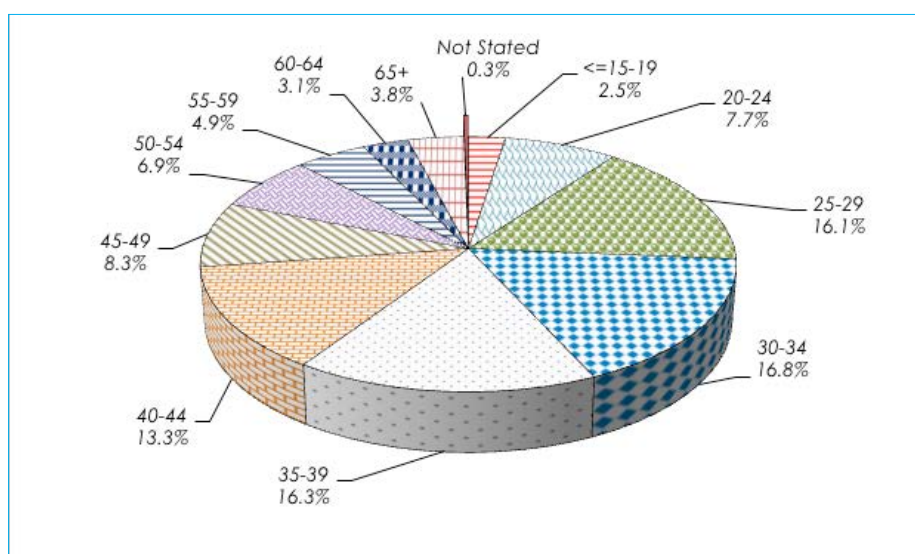

Other2: comprises students, diplomats and those seeking employment

3.3 Distribution of Arrivals by Sex and Age Group

Ever since capturing of data on arrivals and departures in Botswana, the trend has always been that more males visit the country as compared to females. This is still the case in 2010 as 59.8 percent (1, 916, 700) of the total arrivals (3, 207, 762) were males (Table 2). However, for the first time the number of females entering the country has reached a million in 2010. A total of 1,291, 062 females entered the country in 2010, giving an increase of 42.8 percent (387, 065) as compared to 903, 997 females entering the country in 2009.

Table 5 gives arrivals by age-group. It shows that the age group with the highest number of arrivals is 30-34 with 540, 131 arrivals (16.8 percent), followed by the 35-39 and 25-29 groups with 522, 940 (16.3 percent) and 515, 368 (16.1 percent) respectively. The least number of arrivals are those of younger age groups, which are; 0-4, 5-9 and 10-14. This is depicted by Chart 3.

Chart 3: Arrivals by Age Group – Percentage Distributions- 2010

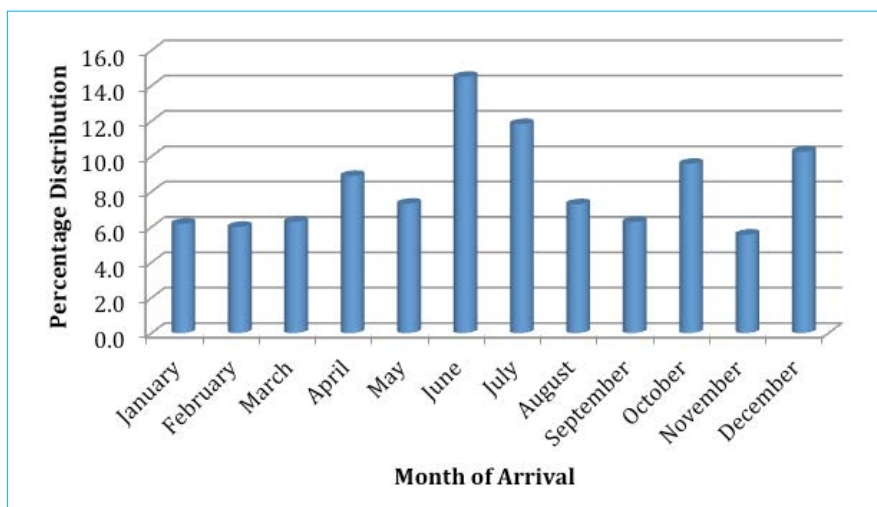

3.4 Arrivals by Border Post

Table 10 presents statistics on arrivals by border post. Ramokgwebana border post is the busiest among all the border posts. A total of 1, 238, 209 persons used that entry point in 2010, contributing 38.6 percent of total arrivals during the year. This shows an increase of 52.0 percent (423, 369) from the 2009 figure of 814, 840 arrivals through the same border post. The second busiest border post was Tlokweng gate with 336, 554 arrivals recorded, and contribute 10.5 percent of total arrivals in the year under review. The other busy border posts were Martins Drift, Kazungula Ferry, Ramatlabama road and Mamuno having respectively, recorded 229 877 (7.2 percent); 212 710 (6.6 percent); 194 606(6.1 percent) and 159522(5.0 percent) arrivals (Table 10).

3.5 Month of Arrival

Three months recorded more than 300, 000 arrivals each in 2010. These months are; June at 465, 023, representing 14.5 percent of total arrivals, followed by July and December at 379, 354(11.8 percent) and 329, 079 arrivals (10.3 percent) respectively (Table 11).

Chart 4: Percentage Total Arrivals by Month of Arrival– 2010

3.6 Mode of Travel

Road transport is the main mode of travel used by the majority of people that arrive in Botswana (Table 12). A significant proportion of 93.4 percent (2, 996, 177) crossed into Botswana by road. This was followed by air transport, which accounted for 5.4 percent (173, 090).

4.0 Total Departures

A total of 2,493,465 departures were recorded in 2010 (See Table 14). This depicts an increase of (6.5 percent) from the 2009 figure of 2, 340, 331 departures. Table 14 also shows a significant gender disparity on the proportion of male to female departures. The males account for 1,482, 036 (59.4 percent) of total departures, while the females account for a lesser figure of 1, 011, 429 (40.6 percent).

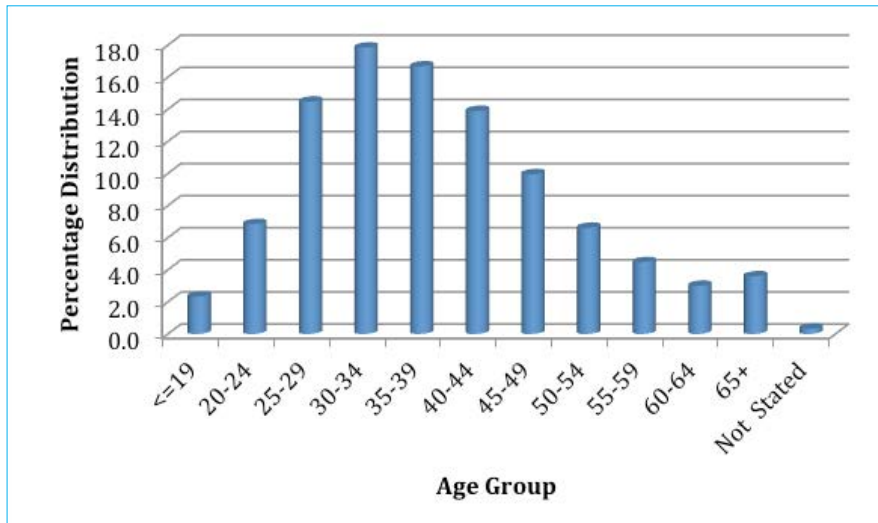

4.1 Departures by Country of Residence

Most people departing Botswana were residents of the SADC region, Zimbabwe alone accounted for 37.2 percent (927, 947) of total departures during the year, followed by South Africa with 27.5 percent (684, 835), Botswana with 11.6 percent (289, 981) and Zambia with 8.0 percent (200, 558). Outside Africa only three countries accounted for departures representing at least one percent each, these being the United States of America with 1.4 percent (36, 067), the United Kingdom with 1.1 percent (27, 190) and Germany with 1.0 percent (25, 214) of all departures (Table 15).

4.2 Departures by Age and Sex

Table 16 shows that the highest number of departures were recorded in the 30-34 age bracket, representing a total of 444, 671 (17.8 percent) followed by age group 35-39 with 16.7 percent (415, 601) and 25-29 with 14.5 percent (360, 841).

Chart 5: Percentage of Total Departures by Age Groups

4.3 Departures by Month, Mode of Travel and Border

Table 18 presents total departures by border post and month of departure. The highest number of departures was recorded during the month of April, with 10.3 percent (257, 207) of total departures, followed by July with 255, 381 (10.2 percent) and October with 233, 692 (9.4 percent). January recorded the lowest departures of 166, 967, representing 6.7 percent of all departures. Most departures went through Ramokgwebana road border post during 2010, representing 33.0 percent (821, 795) of total departures. Tlokweng Gate was the next busiest border post having recorded 10.8 percent (268, 320). Kazungula Ferry accounted for 8.0 percent (200, 610) of the total departures while Martin's Drift accounted for 7.6 percent (190, 675).

Road was the most common mode of travel for departures as presented in Table 19, having accounted for 93.9 percent (2, 342, 403) of 2010 total departures.
