TOURISM STATISTICS REPORT 2016

REVISION 2

PREFACE

This report is a revised version of the report that was released on the 26th of September 2018. The revision is on Table 1, Appendices 1-11 (arrivals) and Appendices 16-19 (departures). The revised figures are for the United States, Barbados and United States Minor Outlying States. The revision was necessitated by the need to correct erroneous recording of some travellers from the USA, having been recorded as being from Barbados and US Minor Outlying States.

This tourism annual report provides the latest statistics on both visitors and non-visitors during 2016 and follows the 2015 report released in December 2016.

The information contained in this publication is compiled from completed immigration embarkation forms. Travelers entering and leaving the country are required to complete arrival/departure forms at all gazetted points of entry/departure. This covers all land borders as well as airports.

The report shows that during 2016, total arrivals declined by 4.0 percent while tourists recorded an increase of 3.0 percent. Tourists accounted for 71.3 percent of total arrivals. Most tourists were in the age-group 30-34 years, accounting for 15.6 percent of total tourist arrivals during the year. This age-group also accounted for most of total arrivals at 15.4 percent.

Zimbabwe nationals accounted for 36.4 percent of inbound travellers followed by South Africa with 31.6 percent. Ramokgwebana Border post recorded the highest volume of arrivals at 19.8 percent, followed by Tlokweng Border Post with 12.0 percent of total inbound travellers. December registered the highest volume of arrivals at 10.8 percent, while February recorded the least at 6.4 percent.

Departures decreased by 12.8 percent from 2, 491, 386 recorded during 2015.

Users who require more information can contact the Directorate of Stakeholder Relations on 3671300. All Statistics Botswana outputs/publications are available on the website at www.statsbots.org.bw and at the Statistics Botswana Information Resource Centre (Head-Office, Gaborone).

I sincerely thank all stakeholders involved in the formulation of this report, particularly the Department of Immigration and Citizenship for the administrative data used to compile this Tourism Statistics Annual Report. I also thank all other stakeholders for their continued support as we strive to better serve users of our services.

CHAPTER 1: INTRODUCTION

This chapter introduces the report by giving insight on the background, arrangement of the report and limitations of the data.

1.1 Background

The Tourism statistics report is an annual publication that depicts the statistics of non-citizens including temporary residents entering and leaving the country. The common terms used for these are Arrivals and Departures.

The statistics carried in this report include Arrivals and Departures of visitors and non-visitors by country and region of nationality, residence, purpose of entry, mode of travel used, point of entry and exit as well as gender and age distribution. The information contained in this report is derived from the Department of Immigration and Citizenship Arrival/Departure forms, which are completed by non-citizens at points of entry and exit.

The Department of Immigration and Citizenship has automated the busiest border posts which handle high volumes of traffic and is therefore able to provide Statistics Botswana with data electronically. These borders account for over 90 percent of all inbound and outbound travellers.

Forms from the non-automated borders are captured by Statistics Botswana and the information is then merged with those from the automated borders before analysis. Botswana citizens are exempt from completing the immigration Entry/Departure forms. The figures on Arrivals and Departures contained in this publication therefore only cover non-citizens, both visitors and temporary residents of Botswana. However, with the increasing demand for statistics on outbound travellers, including information on citizens, it will be necessary to collect and compile data on citizens in the future.

1.2 Arrangement of the Report

This report categorises the travellers into two parts. The first part presents characteristics of visitors in Chapter 2. Visitors include tourists (overnight) and same-day visitors. Information related to visitors is carried in Chapter 2. The second part, which is presented in Chapter 3 focuses on all travellers entering and departing the country, regardless of whether they are visitors or non-visitors. Chapter 4 gives Sources and Methods and definitions of terms used in the report, while Chapter 5 contains appendices, consisting of main tables on which smaller tables and graphs, included in the body of the report are based.

1.3 Limitations of the Report

The focus of data collected is currently on non-citizens (temporary residents and foreign nationals) only. This report does not provide inbound and outbound data on citizens. As a consequence of having both automated and non-automated border posts in operation, it is not possible to calculate the length of stay of visitors even though data on the amount of time (days) granted is captured in the Immigration Entry/Departure forms. As people can enter the country through an automated border post but depart through a non-automated border post, this makes it difficult to calculate the actual length of stay in the country as data from automated and non-automated borders cannot be reconciled.

CHAPTER 2: TOURISTS

This chapter gives information on inbound visitors who came into the country in 2016. These visitors are classified into same-day visitors and tourists. Same-day visitors are mostly excursionists who take a trip that does not include an overnight stay at their destination, while tourists (overnight) represents visitors who spend at least a night at the country being visited. The chapter details statistics compiled according to country and region of residence, purpose of visit, mode of travel, month of visit, point of entry as well as the demographic characteristics of the visitor.

In compilation of this report, half of transit travellers are regarded as visitors. This is taking into consideration the fact that some of these transit travellers end up having expenditure in the country as they are transiting. This expenditure may be incurred through having to spend a night in the country and/or any other expenditure. As a result, tourist statistics discussed here includes half of transit travellers. The country of residence is used as reference when compiling tourist statistics, as opposed to nationality.

2.1 Tourists by Country and Region of Residence

Appendices 1 and 2 are dedicated to tourists only. **Appendix 1** gives both overnight tourists as well as same day tourists by country of residence as well as percentage distributions of total tourists at country level. **Appendix 2** presents tourists by Country of Residence as well as Purpose of Visit.

During 2016, Botswana received a total of 1,712,234 visitors, with 91.9 percent (1,574,213) accounted for by tourists (overnight visitors) and 8.1 percent (138,021) attributed to same-day visitors. The total number of tourists shows a 3.1 percent (52,032) increase compared to 1,660,202 during the previous year. As can be seen from **Appendix 1**, most visitors came from Zimbabwe and South Africa, with the two countries contributing 35.0 percent (598,738) and 34.6 percent (591,907) respectively, of total visitors during the year. The majority of tourists, 87.4 percent (1,496,175), reside in the SADC Region.

2.2 Top Ten Overseas Countries

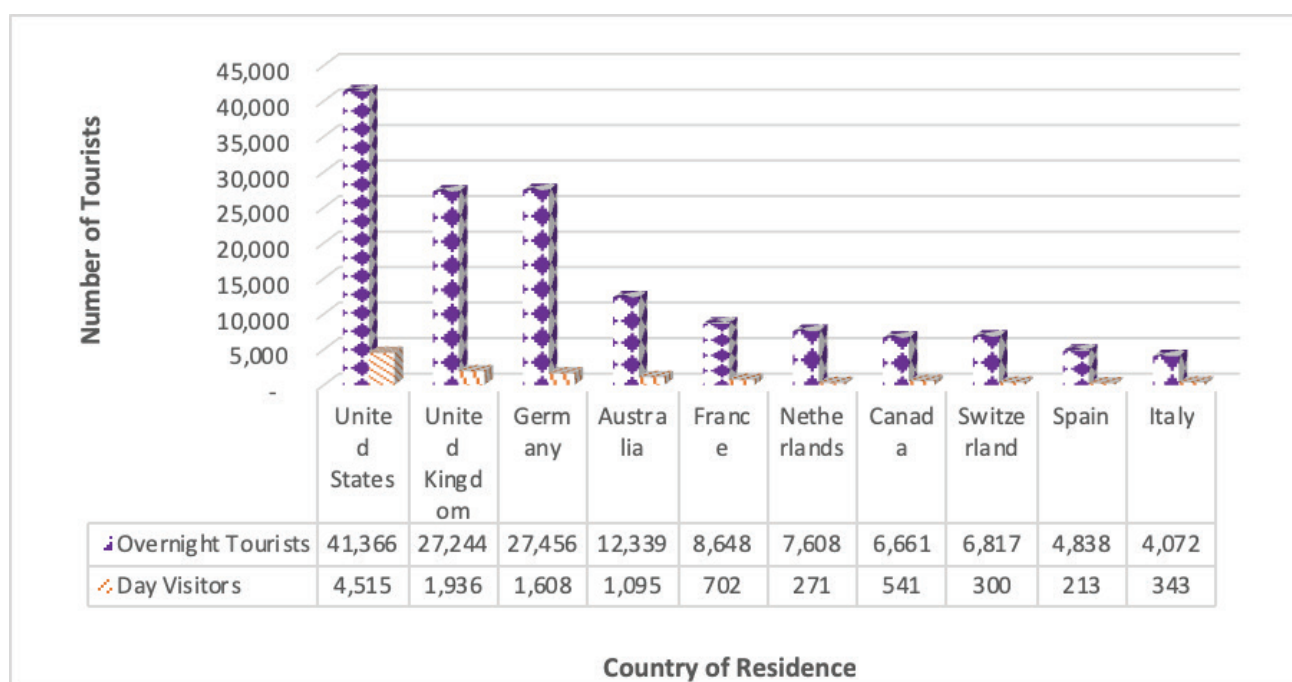

Figure 1, which is based on **Table 1** and **Appendix 1**, shows that tourists from the top ten overseas countries make up 9.3 percent (158,573) of total tourists (1,712,234) during 2016.

Of the 158,573 tourists that came from the top ten overseas countries, more than a quarter, 28.9 percent (45,881) were from the United States of America followed by those from the United Kingdom and Germany at 18.4 percent (29,180) and 18.3 percent (29,064) respectively.

Table 1: Top Ten Overseas Countries by Type and Country of Residence, 2016.

Country of Residence	Type of Tourist		Total	
	Tourists Overnight	Day Visitors	Total	Percentage
United States	41 366	4 515	45 881	28.9
United Kingdom	27,244	1,936	29,180	18.4

Grand Total	1 574 213	138 021	1 712 234	

Figure 1: Distribution of Tourists from Top Ten Overseas Countries, 2016.

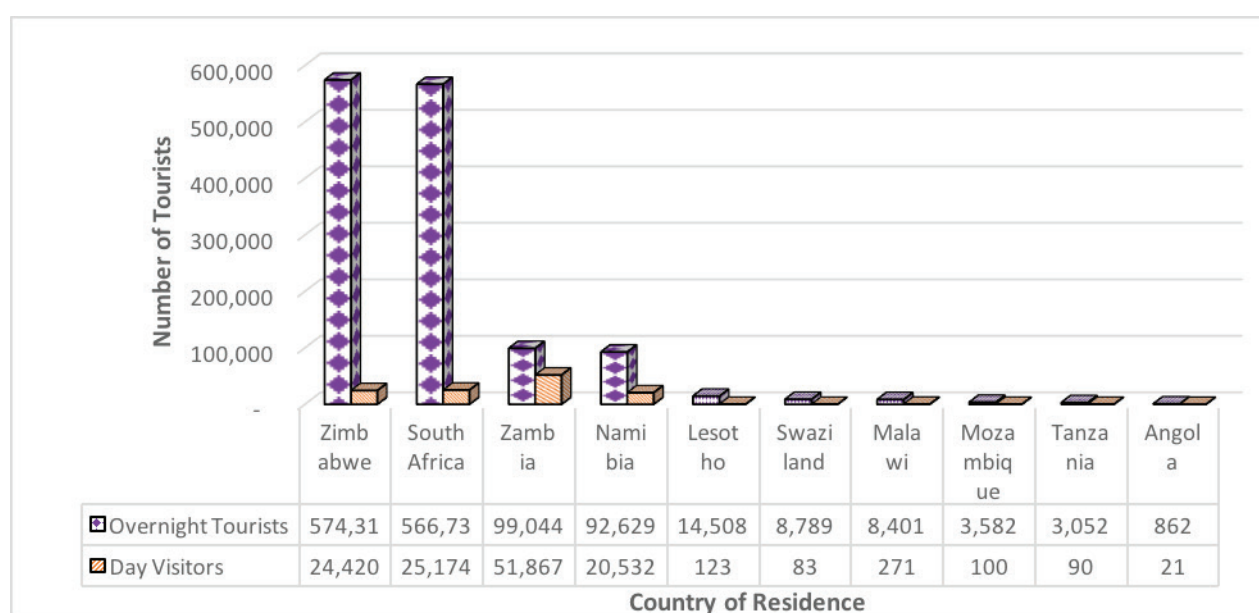

2.3 Top Ten SADC Countries

Figure 2 and **Table 2** show the top ten countries in provision of tourists from the SADC Sub-continent. Tourists residing in the top ten countries of the SADC region make up 87.3 percent (1,494,599) of the total tourists during 2016. Zimbabwe and South Africa top this list at 40.1 percent (598,420) and 39.6 percent (591,907) respectively. Other countries can be observed on **Table 2** and **Figure 2**.

Overnight Tourists constituted at least 90 percent of total tourists at country level for the top ten SADC countries, in the exception of Zambia and Namibia during the period under review. Day trippers from Zambia accounted for 62.3 percent of all day trippers from the ten leading SADC countries and 34.4 percent of total tourists from that country.

Table 2: Top Ten SADC Countries by Type of Tourist and Country of Residence, 2016.

Country of Residence	Type of Tourist		Total	
	Tourists Overnight	Day Visitors	Total	Percentage
Zimbabwe	574,318	24,420	598,738	40.1
South Africa	566,733	25,174	591,907	39.6
Zambia	99,044	51,867	150,911	10.1
Namibia	92,629	20,532	113,161	7.6
Lesotho	14,508	123	14,631	1
Swaziland	8,789	83	8,872	0.6

Grand Total	1,574,213	138,021	1,712,234	

Figure 2: Distribution of Tourists from leading SADC Countries, 2016.

2.4 Tourists by Purpose of Entry

Table 3 presents the number of tourists by purpose of entry as well as associated percentage distributions. Compared to the previous year, 2016 has recorded an increase of 3.1 percent (52, 032) in the total number of tourists, from 1,660,200 during 2015 to 1,712,234 currently. The significant increases in purpose of entry were observed for those 'In-Transit' and those 'Visiting Friends and Relatives' at 17.8 percent (54, 090) and 11.2 percent (49, 787), respectively from 302, 346 and 442, 590 during 2015.

There has been a drop of 33.5 percent (31, 734), from 94,741 in 2015 to 63, 007 currently in the number of tourists who came for purposes of "Religious, Conferencing, Sports, Medical & Shopping activities" which are grouped together under one category called 'Other' Purposes. These tourists represented the 3.7 percent (63, 007) of all tourist who came to Botswana during the year under review.

Tourists who were on Business related trips also recorded a decline of 6.7 percent (37, 870) from 561,967 in 2015 to 524,097 during the current year.

In 2016 most of the Tourists came for Business purposes at 30.6 percent (524, 097) followed by those who were Visiting Friends & Relatives (**VFR**) at 28.8 percent (492, 377).

Table 3: Distribution of Tourists by Type and Purpose of Entry, 2016.

Type of Visitor by Purpose of Visit	Tourists (Overnight)		Day Visitor		Total	
	Number	Percentage	Number	Percentage	Number	Percentage
Business	461,484	29.3	62,613	45.4	524,097	30.6
VFR	475,598	30.2	16,779	12.2	492,377	28.8
In Transit	333,533	21.2	22,903	16.6	356,436	20.8
Holiday	258,716	16.4	17,601	12.8	276,317	16.1
Other	44,882	2.9	18,125	13.1	63,007	3.7
Total	1,574,213	100	138,021	100	1,712,234	100

2.5 Tourists by Mode of Arrival

In 2016, three modes of travel; Road, Rail and Air were used. Road accounted for the highest percentage of tourist who came into the country at 93.0 percent (1,592,636), followed by those who flew-in at 7.0 percent (119,546). Rail Travel was recorded only in February for 52 tourist arrivals.

Table 4 shows Air Travel by major Airports, with Airstrips categorised as 'Other'. Percentages for type of tourist by airport are calculated as a percentage of the total for individual type of tourist by air, while percentages for type of tourist by Air and Road are calculated as a percentage of total individual type of tourist.

Of all the tourist that came by air during 2016, 56.5 percent (67,492) entered the country through Sir Seretse Khama International Airport. These were followed by those who landed in Maun Airport at 28.8 percent (34,379). Tourist arrivals through Kasane airport accounted for 11.8 percent (14,064) of total Air arrivals.

A further analysis of Air travellers by purpose of entry shows that travellers who were visiting friends and family (**VFR**) and those who came on Business came in through SSK Airport; 87.4 percent for VFR and 92.0 percent for Business (**Table 4**). The tourists who came for Holiday purpose entered the country through Maun and Kasane airports mainly, with Maun accounting for 60.6 percent while Kasane received 22.4 percent of tourist arrivals who came for Holiday. This is because tourist attractions like the Moremi Game Reserve, the Okavango Delta and the Chobe National park are located in Ngamiland and Chobe districts where these two airports are located.

The In-transit arrivals came in mostly through Kasane Airport, with this airport constituting 73.2 percent of all Air Tourists who were In-Transit.

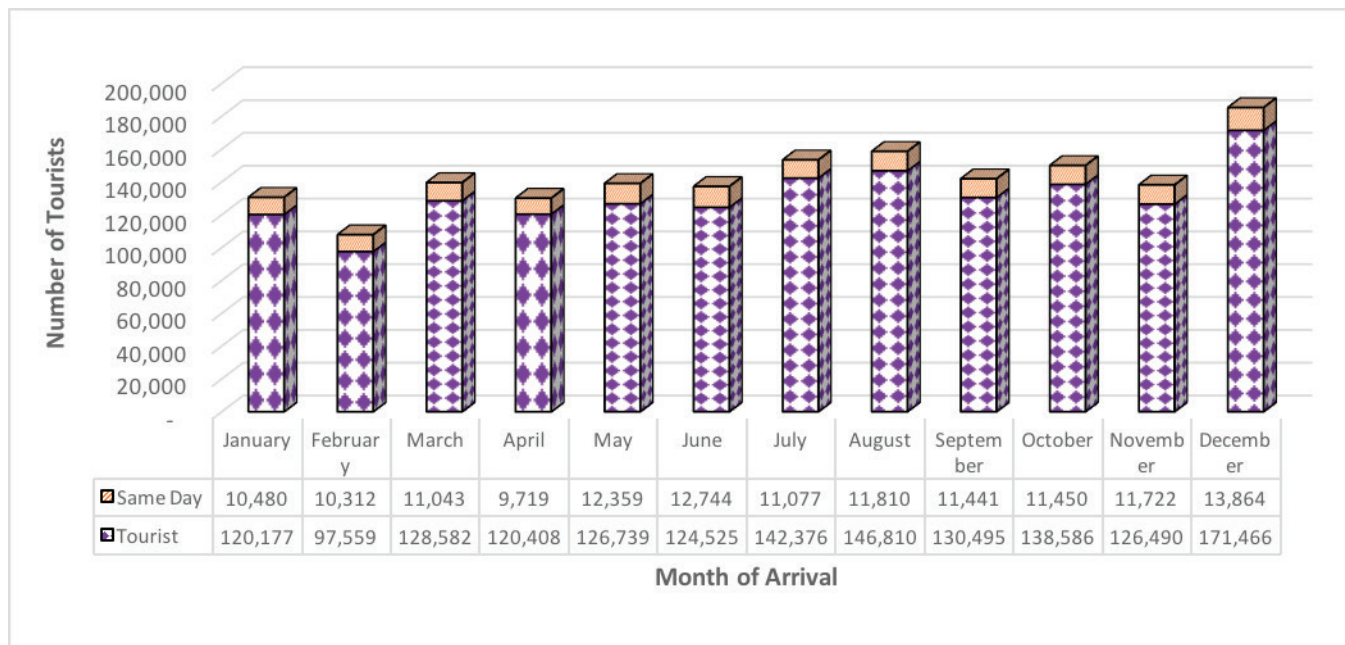

Table 4: Distribution of Tourists by Mode of Travel and Point of Entry and Purpose of Entry - 2016.

Mode of Travel	Visiting Friends or Family		Holiday		Business		In Transit		Other		Total	
	Number	%	Number	%	Number	%	Number	%	Number	%	Number	%

Total	492,377	100	276,317	100	524,097	100	356,436	100	63,007	100	1,712,234	100

2.6 Tourists by Month of Arrival

Figure 3 displays tourist arrivals by Month of Arrival. This figure presents stacked bar chart showing both day trippers and overnight tourists, but discussions are based on total monthly tourist arrivals. December being the festive month, always records the highest number of tourists. In 2016, 10.8 percent (185,330) of tourists arrived in December, followed by August and July at 9.3 percent (158,620) and 9.0 percent (153,453) respectively. The least percentage of tourists were recorded in February at 6.3 percent (107,871).

Figure 3: Number of tourists by Month of Arrival, 2016

2.7 Tourists by Age Distribution

Table 5 gives the distribution of tourist arrivals by age-group, for Day Visitors, overnight Tourists and total tourists during 2016. The graphical presentation of the same information is displayed in Figure 4.

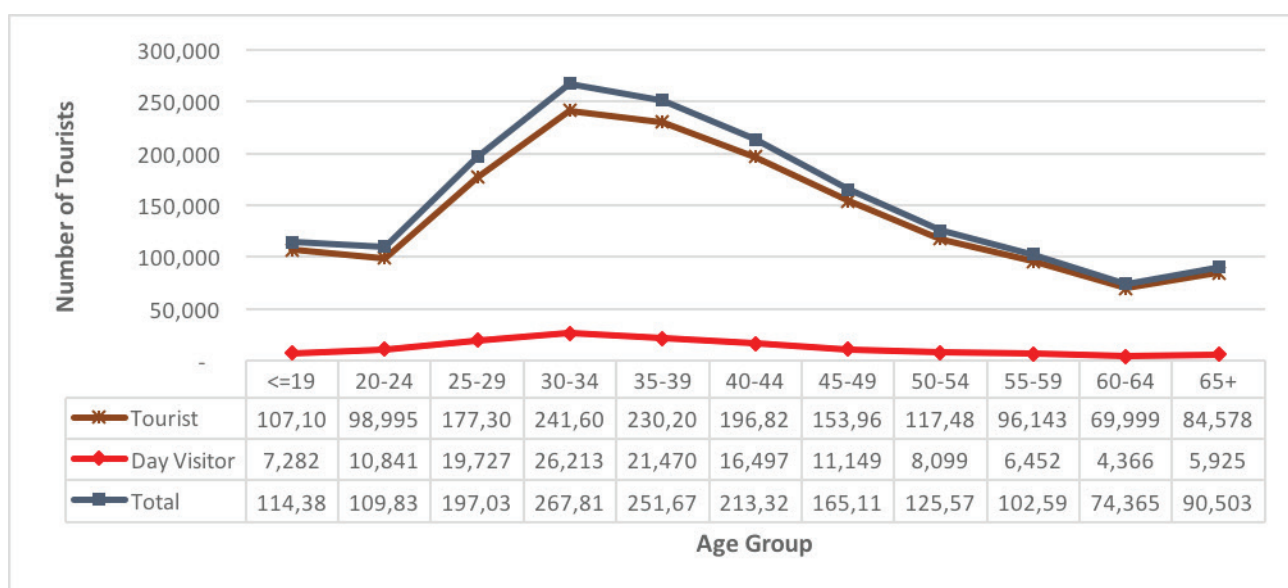

During 2016, tourists aged 25-49 accounted for almost two thirds, 63.9 percent (1,094,969) of all tourist arrivals. Tourists aged below 25 years make up 13.1 percent (224,223) and mainly came to visit friends and relatives. Those aged 55 years and above make 22.9 percent (393,042) and their main purpose of visit was for Holiday. Age-group proportions for Overnight Tourists and Day Visitors follow the same pattern.

The highest number of tourist is observed at age-group 30-34 years, with 267,813 followed by 35-39 years at 251,679 tourists, respectively representing 15.6 percent and 14.7 percent of total tourists recorded during the year.

Table 5: Number of Tourists by Age Group, 2016.

Age Group	Tourists (Overnight)		Day Visitor		Total	
	Number	Percent	Number	Percent	Number	Percent
<=19	107,105	6.8	7,282	5.3	114,387	6.7

45-49	153,969	9.8	11,149	8.1	165,118	9.6
50-54	117,480	7.5	8,099	5.9	125,579	7.3
55-59	96,143	6.1	6,452	4.7	102,595	6
60-64	69,999	4.4	4,366	3.2	74,365	4.3
65+	84,578	5.4	5,925	4.3	90,503	5.3
Total	1,574,213	100	138,021	100	1,712,234	100

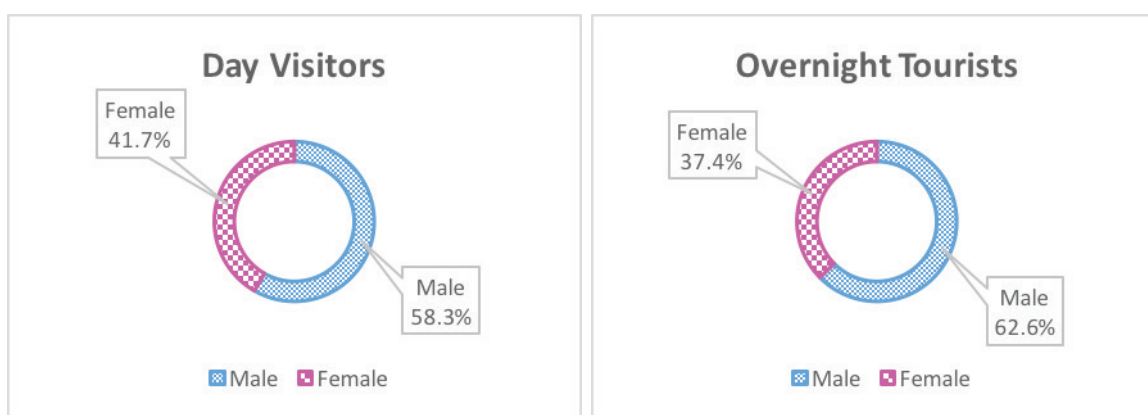

Figure 4: Percentage Distribution of Tourists by Age Group, 2016.

2.8 Tourists by Sex Distribution

Gender distribution for 2016 follow the same pattern as that for 2015, with males dominating for both categories of tourists (Overnight and Day Visitors). For Tourists (Overnight), males represent 62.6 percent (985, 903) while with regard to Day Visitors, males accounted for 58.3 percent (80,479) of the total as displayed in **Figure 5**.

Figure 5: Percentage Distribution of Tourists by Sex, 2016

2.9 Tourists by Sex and Purpose of Entry

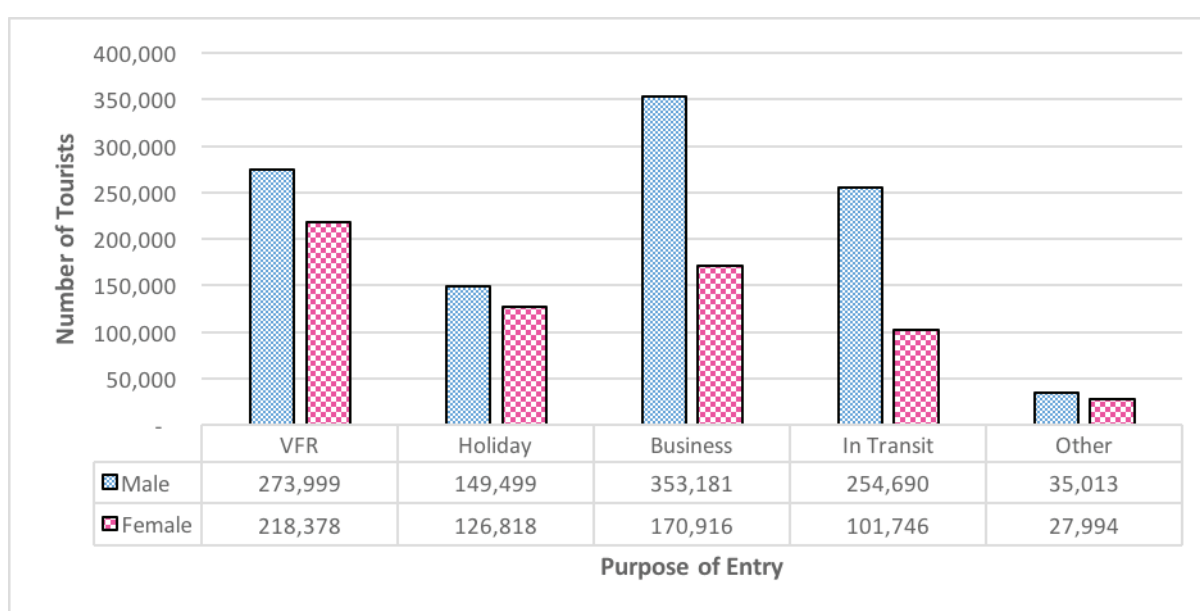

Table 6 profiles tourists by gender and purpose of entry into the country. This table shows that in total, 62.3 percent (1,066,382) of 2016 tourists were males.

Most of the males, 33.1 percent (353,181) came for Business purposes followed by those who were visiting friends and relatives (VFR) and those who were In-Transit at 25.7 percent (273,999) and 23.9 percent (254,690) respectively. On the other hand, females mainly came to visit friends and relatives at 33.8 percent (218,378) followed by those who come for Business and for Holiday at 26.5 percent (170,916) and 19.6 percent (126,818) respectively.

Table 6: Number of Tourists by Sex and Purpose of Entry, 2016w

Purpose of Entry	Male		Female		Total	
	Number	Percent	Number	Percent	Number	Percent
Total	1,066,382	62.3	645,852	37.7	1,712,234	100
VFR	273,999	25.7	218,378	33.8	492,377	28.8
Holiday/ Tourist	149,499	14	126,818	19.6	276,317	16.1
Business	353,181	33.1	170,916	26.5	524,097	30.6
In Transit	254,690	23.9	101,746	15.8	356,436	20.8
Other	35,013	3.3	27,994	4.3	63,007	3.7

Figure 6: Distribution of Tourists by Sex and Purpose of Entry - 2016

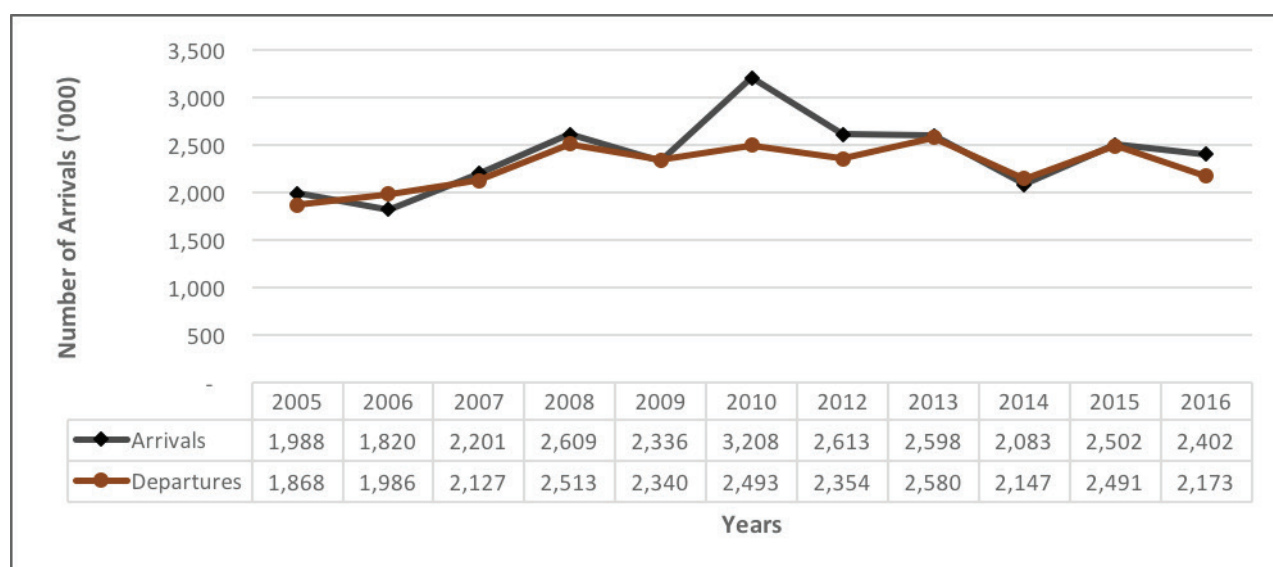

CHAPTER 3: ALL TRAVELERS

This Section looks at total arrivals and departures during the year under review. **Appendix 3** and **Appendix 16** show that a total of 2,401,786 Arrivals and a total of 2,172,921 Departures were recorded in and out of Botswana, respectively during 2016. Though 2016 has seen an increase in the number of tourists, there has been a decrease in the overall number of arrivals at 4.0 percent (99,830) compared to a total of 2,501,616 arrivals in 2015. Departures also recorded a decrease of 12.8 percent (318,465) from a total of 2,491,386 departures during the previous year.

Figure 7 shows the trend of arrivals and departures from 2005 to 2016. The highest number of arrivals was recorded in 2010 at 3,207,762. The year that recorded the lowest number of arrivals was 2006 with 1,820,057. The highest number of departures was recorded in 2013 at 2,579,640 and the lowest was recorded in 2005 at 1,867,665.

Figure 7: Total Number of Arrivals and Departures from 2005 to 2016¹

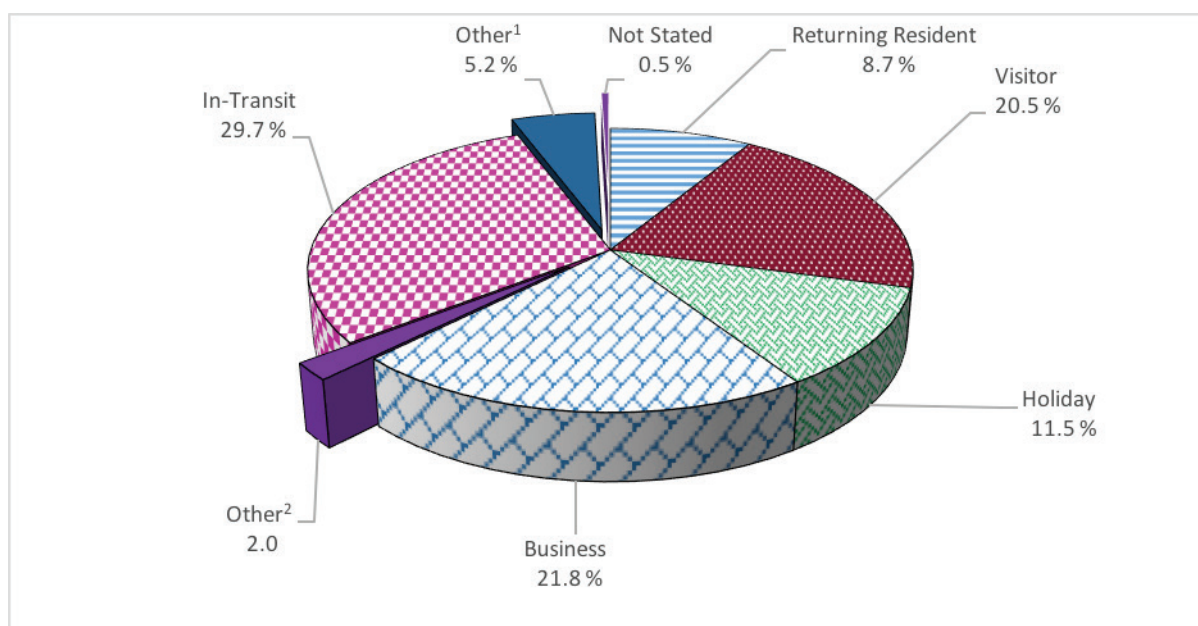

¹ The 2011 figures are not available

3.1 Purpose of Entry

Appendix 6 shows the number of Arrivals by Country of Residence and Purpose of Entry. **Figure 8** gives the graphical presentation of percentage distributions of arrivals by purpose of entry. Most of the Arrivals were those In-Transit. They make up 29.7 percent (712, 872) of total Arrivals. These are followed by those who came for Business and Visiting Friends & Relatives at 21.8 percent (524, 097) and 20.5 percent (492, 377) respectively. A few arrivals did not state their reason of visit, and these represented 0.5 percent (11,562) of total arrivals. This shows an improvement in the completeness of the data as compared to 2015 where 11.3 percent of Arrivals did not state the purpose for their visit.

"Other1", mainly consisting of Arrivals for purposes of shopping, religious activities, conferencing, sports and medical reasons are not specifically labelled in the form but are understood to fall under category "Other - specify". "Other2" in **Figure 8** comprises those arriving for all other purposes not specified as in **Appendix 5** and **6**.

Figure 8: Percentage Distribution of Arrivals by Purpose of Entry - 2016.

Note:

Other1 = Arrivals for Shopping, Religious activities, conferencing, sports & Medical reasons.

Other2 = Arrivals for all other purposes not specified as in **Appendix 5** and **6**.

3.2 Month of Arrival and Departure

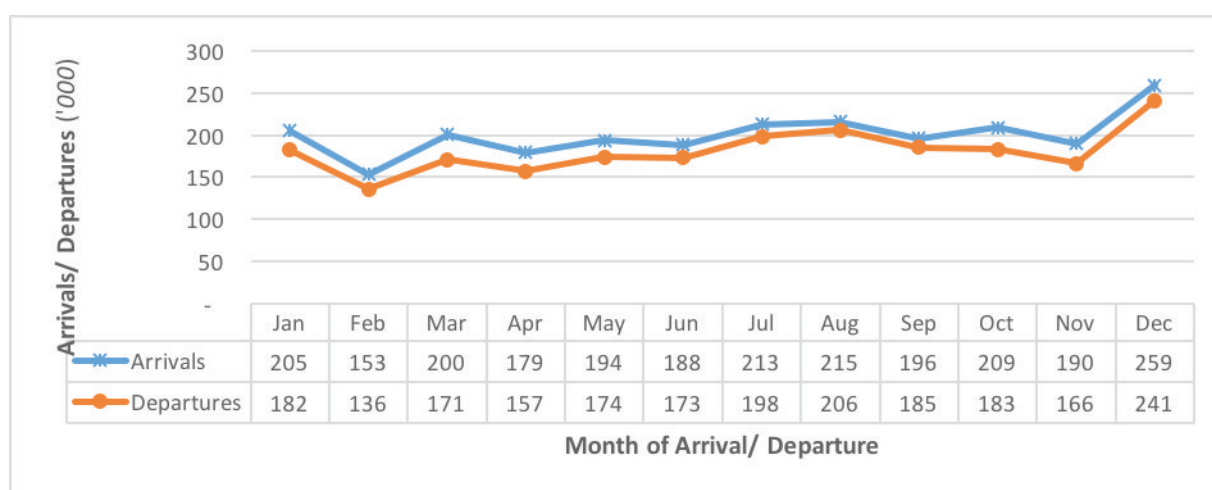

Appendix 13 shows the number of arrivals while the number of departures by month are presented in **Appendix 20**.

Arrivals and departures follow a similar pattern in that the highest records were in December and the lowest in February.

The highest number of Arrivals was recorded in December at 259, 433, representing 10.8 percent of total arrivals. This was followed by August and July with 215, 483 and 212, 986 respectively, representing 9.0 percent and 8.9 percent of total arrivals in that order. The month that recorded the least number of Arrivals is February at 153,167, accounting for 6.4 percent of total arrivals.

The highest number of Departures was recorded in December at 241,304, accounting for 11.1 percent of total departures during the year. February registered the least number of departures at 136,484 (6.3 percent). For each of the twelve months, the number of Arrivals was higher than the number of Departures.

Figure 9: Arrivals and Departures by Month 2016

3.3 Mode of Travel

Table 6 shows Arrivals and Departures by Mode of Transport to the entry or exit point.

Air Travel made 6.8 percent (162, 474) of all arrivals and 7.5 percent (161,981) of total departures. Sir Seretse Khama Airport was the busiest airport, accounting for almost two thirds of air travellers, at 63.2 percent (102, 681) of arrivals and 64.3 percent (104,527) of departures. It was followed by Maun Airport with 23.6 percent (38, 308) of arrivals and 23.9 percent (38,797) of departures. Airstrips recorded 0.9 percent (1, 525) of arrivals and 0.3 percent (495) of departures. Airstrips include Limpopo Valley, Sowa Pan, Karowe and Orapa. Airstrips account for a small percentage of air travellers as these are mostly charter flights that service the mining and tourism industries as and when required.

In 2016, Ramokgwebana Rail recorded 59 arrivals and no departures.

Road travel accounted for 93.2 percent (2,239,253) of all arrivals and 92.5 percent (2,010,940) of all departures. Ramokgwebana is the busiest border post used by road travellers with 21.3 percent (476, 707) of arrivals and 18.8 percent (420,746) of departures by road. This is followed by Tlokwen at 12.8 percent (287, 467) for arrivals and 12.5 percent (279,504) for departures.

Table 7: Distribution of Arrivals and Departures by Mode of Travel - 2016

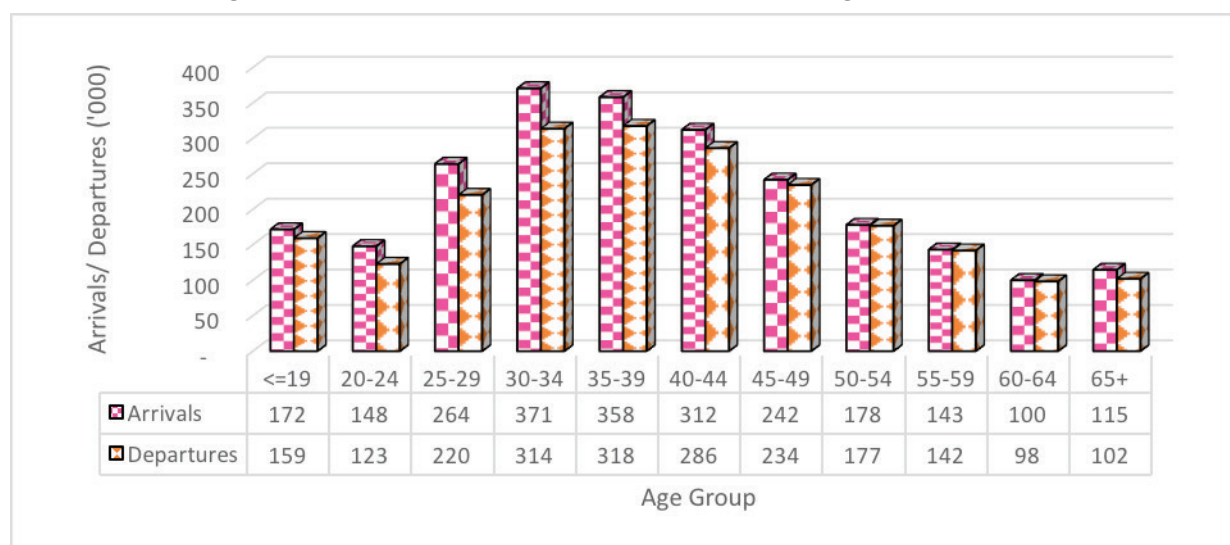

Mode of Transport	Arrivals		Departures	
	Number	Percent	Number	Percent
Air	162,474	6.8	161,981	7.5
SSKA	102,681	63.2	104,527	64.3

Total	2,401,786	100	2,172,921	100

3.4 Age Group

Figure 10 is based on Appendix 8 and Appendix 19. This figure shows that the age group that accounts for the highest number of arrivals is 30-34 years, accounting for 15.4 percent (370, 574) of all Arrivals. Those aged 35-39 follows at 14.9 percent (358, 129) of all arrivals during the year.

The highest proportion of departures during 2016 was in the age-group 35-39 followed by those aged 30-34, at 14.6 percent (317,508) and 14.4 percent (313,650) respectively.

Figure 10: Distribution of Arrivals/ Departures by Age Group - 2016

3.5 Nationality

Appendix 3 and **Appendix 16** show that most of the arrivals and departures are nationals of the SADC Region, making 87.7 percent (2, 106,862) of all arrivals and 88.5 percent (1,924,037) of all departures. Zimbabweans accounted for the highest number of arrivals and departures at 874,179 (36.4 percent) and 835,564 (38.5 percent) respectively. Though the highest, these numbers show a decline of 9.6 percent (93, 153) for arrivals and 15.6 percent (154,434) for departures compared to nationals of Zimbabwe accounting for 967,322 arrivals and 989,998 departures during the previous year.

These are followed by South Africa nationals who made 31.6 percent (759, 564) of all arrivals and 31.0 percent (674,121) of all departures. These figures also show a decline of 6.0 percent (48, 554) for arrivals and 17.2 percent (140,489) for departures of South African nationals compared to 808,118 arrivals and 814,610 departures during the previous year.

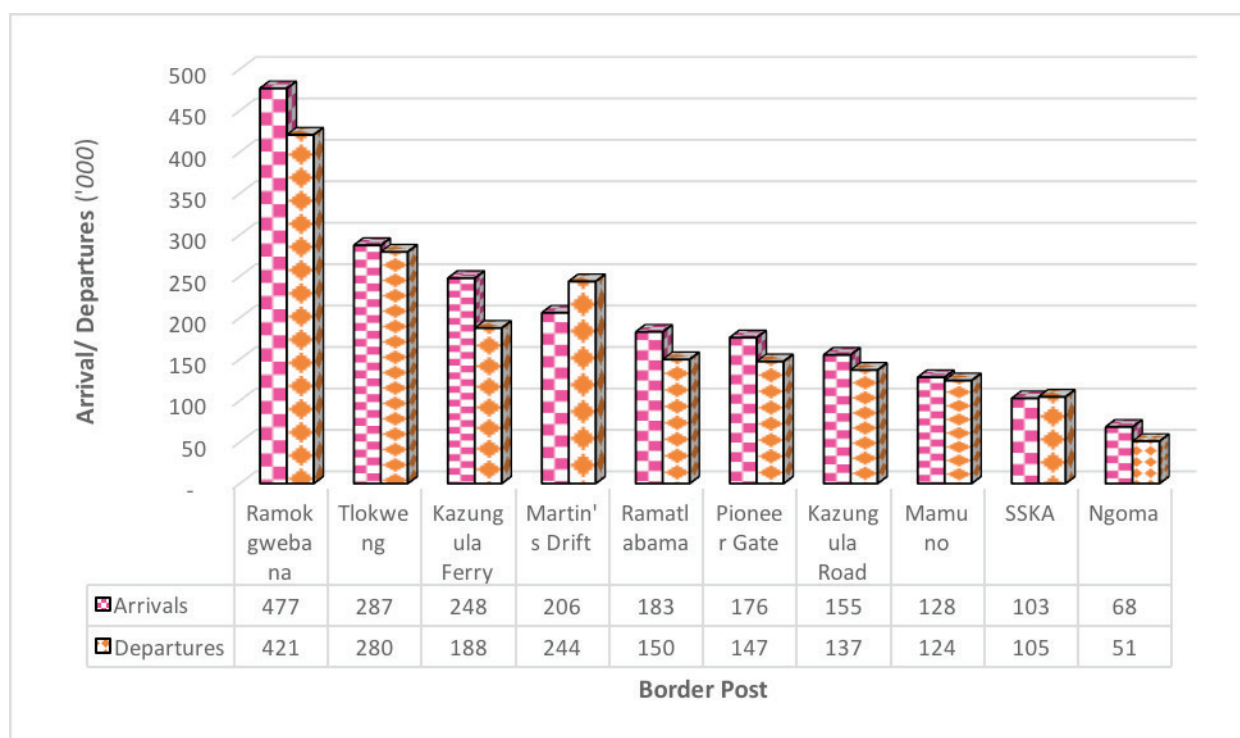

Looking at nationalities from overseas, the United States of America nationals accounted for 2.0 percent (48, 953) of all arrivals while national of the United Kingdom and Germany represented 1.8 percent (42, 534) and 1.5 percent (35, 288) respectively.

3.6 Border Posts

Figure 11 shows the top ten busiest Border Posts and is based on **Appendices 13** and **20**.

Ramokgwebana Border Post was the busiest border having received 19.8 percent (476, 707) of all arrivals and 19.4 percent (420,746) of all departures. This does not come as a surprise because most of the travellers recorded came into the country from Zimbabwe, see **Appendix 4**. This is followed by Tlokweng Border Post, which is used mainly, by those who reside in South Africa with 12.0 percent (287, 467) of Arrivals and 12.9 percent (279,504) departures. The third busiest border for Arrivals is the Kazungula Ferry with 10.3 percent (247, 752), mainly used by those who reside in Zambia. For Departures, Martin's Drift comes third with 11.2 percent (243,798) of all departures.

Figure 11: Ten Busiest Border Posts - 2016

CHAPTER 4: TECHNICAL NOTES

This chapter presents data sources, methodology and definitions of terms used in production of tourism statistics. This is meant to enable the users to interpret the statistics carried in the report with understanding of how the raw data is sourced, how processing and compilation of the report is done and what the various terms used in the report mean.

4.1 Data Source and Methodology

The data used in the production of this report is sourced from administrative records of the Department of Immigration and Citizenship. Over 90 percent of the data is electronically captured and provided to Statistics Botswana (SB) by this department. The busiest points of entry/exit, which handle high volumes of travellers, have been automated. The data is captured into the Passport and Border Control System (PBCS). The remaining percentage of the data is from the non-automated border entry points and it is manually captured by Data Processing staff at Statistics Botswana. These two datasets are then merged for processing.

International Tourist data is collected using Arrival and Departure forms that are filled in by non-citizens at all the gazetted points of entry and exit (Land Borders and Airports). Each form asks questions on personal characteristics of the traveller which include among others, sex, age, country of nationality, country of residence and purpose of entry. By default data is also collected on month of travel, mode of transport and point of entry.

Percentages are independently rounded, therefore in some cases they may not add to the total. The results and analysis presented in the report follow the guidelines, definitions and classifications recommended by United Nations World Tourism Organization (UNWTO) and the United Nations Statistical Commission (UNSC). This publication is produced in line with internationally accepted statistical standards and guidelines.

4.1 Definition of Terms

Traveller- An individual who moves between different geographic locations (in this case country) for any purpose and any duration.

Foreigner – An international traveller who is not a Botswana Citizen nor holder of a temporary resident status.

Overseas – All countries and territories outside the continent of Africa.

Visitor - Refers to any person travelling to a place other than that of his/her usual environment for less than twelve months and whose main purpose of the trip is other than the exercise of an activity remunerated from the place visited.

Tourist (Overnight) – An international visitor who stays at least one night in a collective or private accommodation in the country visited. Same-day visitor – An international visitor who does not spend the night in either a collective or private accommodation in the country visited.

Excursionist – A same-day visitor whose trip does not include an overnight stay (usually for leisure).

Resident – Refers to a non-citizen residing in Botswana on a permanent or temporary basis.

Country of Nationality – A country where citizenship is held.

Non-resident – Refers to a foreigner (excluding resident) entering or departing the country.

Country of residence – A country where one usually resides but may not necessarily be the same as the country of origin (nationality) or country of passport.

Point of entry – Official border post (land border and airport).

VFR – Refers to travelling for purpose of visiting friends and relatives.
