STATISTICS BOTSWANA

PREFACE

This report provides an in-depth analysis of Botswana's monthly inflation rate, as measured by the Consumer Price Index (CPI). The CPI serves as a fundamental economic indicator, essential for tracking fluctuations in the cost of living, and offers a comprehensive overview of price movements across the national economy. The report systematically examines both month-on-month and year-on-year changes in the CPI, thereby offering critical insights into the inflationary trends within the country. This analysis is undertaken by Statistics Botswana; whose objective is to furnish a thorough understanding of the inflationary forces at play.

Precise and timely price data is indispensable for the formulation of socio-economic and monetary policies. By equipping policymakers with a clear understanding of prevailing inflationary pressures, such data plays a pivotal role in guiding the development of appropriate policy interventions. Statistics Botswana recognises the importance of this information and, as such, compiles and publishes the Consumer Price Index monthly to address the informational needs of a wide array of stakeholders.

In August 2026, Botswana recorded an annual inflation rate of 9.3 percent, a decline of 0.1 of a percentage point from 9.4 percent recorded in July 2026.

Statistics Botswana extends sincere appreciation to all stakeholders who contributed invaluable insights and data for the compilation of this publication.

For more information and further enquiries, contact the Directorate of Stakeholder Relations at **+267 367 1300**. This publication and all other Statistics Botswana outputs/publications are available on the website at <http://www.statsbots.org.bw> and at the Statistics Botswana Information Resource Centre (Head-Office, Gaborone).

CONSUMER PRICE INDEX

SECTION 1: HEADLINE INFLATION

In August 2026, Botswana's annual inflation rate stood at 9.3 percent, a decrease of 0.1 of a percentage point on the July rate of 9.4 percent. The major contributors to the annual inflation rate in August 2026 were the Transport group with a share of 5.1 percentage points, followed by Miscellaneous Goods & Services at 1.2 percentage points, and Food & Non-Alcoholic Beverages contributing 0.9 of a percentage point. [Refer to Table 1 and Chart 5.](#)

Between July and August 2026, changes in inflation rates were observed across different regions. The inflation rate in Urban Villages went down by 0.2 of a percentage point, from 9.4 percent in July to 9.2 percent in August 2026. The Rural Villages inflation rate was 10.2 percent in August, an increase of 0.1 of a percentage point from the 10.1 percent recorded in July. The Cities & Towns inflation rate was unchanged between July and August 2026 at 9.0 percent. [Refer to Table 2](#)

The national Consumer Price Index went up by 0.4 percent, from 148.8 in July to 149.5 in August 2026. The Urban Villages index stood at 149.7 in August, an increase of 0.5 percent from 149.0 recorded in July. The Cities & Towns index went up by 0.4 percent from 147.7 in July to 148.3 in August 2026. Similarly, the Rural Villages index increased by 0.4 percent, from 150.5 in July to 151.1 in August. [Refer to Table 2.](#)

The group indices were moving at a stable pace between July and August 2026, recording changes of less than 1.0 percent, except for the Housing, Water, Electricity Gas & Other Fuels group which went up by 1.4 percent. [Refer to Table 2.](#)

The Housing, Water, Electricity Gas & Other Fuels index was 126.3 in August 2026, an increase of 1.4 percent, from 124.6 recorded in July. This was due to the increase of 6.8 percent in the constituent section index of Electricity, Gas & Other Fuels. The rise in Electricity, Gas & Other Fuels section index was attributed to the revised domestic Electricity tariffs, which were effected on 1st August 2026. [Refer to Table 3.](#)

The Food & Non-Alcoholic Beverages group index increased by 0.5 percent from 162.4 in July to 163.2 in August 2026. This growth was attributed to a rise in the constituent section indices, particularly; Milk, Cheese & Milk Products (4.7 percent), Fruits (3.6 percent), Food Not Elsewhere Classified (2.0 percent) and Coffee, Tea & Cocoa (1.0 percent). [Refer to Table 3.](#)

The Furnishing, HouseHold Equipment & Routine Maintenance index rose by 0.5 percent, from 134.2 in July to 134.9 in August 2026. The rise was due to a general increase in the constituent sections indices, notably; Household Textiles (0.8 percent), Goods & Services for Household Maintenance (0.6 percent) and Furniture & Furnishing (0.6 percent). [See Table 3.](#)

The All-Tradeables index was 160.9 in August, an increase of 0.4 percent, from 160.4 recorded in July. The Non-Tradeables Index rose by 0.6 percent, from 133.1 in July to 133.9 in August 2026. The Imported Tradeables Index went up by 0.5 percent, from 161.5 in July to 162.2 in August. The Domestic Tradeables Index was 157.2 in August, an increase of 0.1 percent from 157.1 in July. [Refer to Table 4.](#)

The All-Tradeables inflation rate decreased by 0.5 of a percentage point, from 11.9 percent in July to 11.4 percent in August 2026. The Domestic Tradeables inflation went down by 0.9 of a percentage point, from 8.1 percent in July to 7.2 percent in August. The Non-Tradeables inflation rate was 6.2 percent in August, an increase of 0.6 of a percentage point from the July rate of 5.6 percent. The Imported Tradeables inflation rate was 13.0 percent in August, a decline of 0.3 of a percentage point from the July rate of 13.3 percent. [Refer to Table 4](#)

SECTION 2: CORE INFLATION

The Trimmed Mean Core inflation rate went down by 0.1 of a percentage point, from 8.4 percent in July to 8.3 percent in August 2026. The Core Inflation rate (excluding administered prices) was 5.9 percent in August 2026, a decrease of 0.4 of a percentage point from the July rate of 6.3 percent. **Refer to Table 5.**

GLOSSARY

Consumer Price Index (CPI) is an index which measures price changes in goods and services with reference to a base period.

Inflation is a measurement of prices movement of goods and services in a particular country.

Contributions: These are percentage points that add up to the overall inflation rate. The contribution of a **group** to overall annual inflation depends on its weight in the consumption basket and its own annual inflation rate.

Domestic Tradeables refers to the goods and services which a country (Botswana) can export to other countries.

Imported Tradeables represents the goods and services which a country (Botswana) imports from other countries (trading partners).

Non-Tradeables refers to the goods and services which a country cannot either export to or import from other countries.

All –Tradeables refers to the total of **Domestic** and **Imported Tradeables**.

Trimmed Mean Core Inflation- attempts to remove 8 percent (by weight) of the commodity sub-groups price changes at each of the ends of an ordered series of price changes in any given month.

Core inflation by Exclusion is a measure used to remove the volatility inherent in prices that are only adjusted periodically and not always in response to currently prevailing market forces.
