STATISTICS BOTSWANA

PREFACE

This report analyses the monthly inflation rate of Botswana as measured by the Consumer Price Index (CPI). The CPI is a critical indicator for monitoring shifts in the cost of living and provides a comprehensive overview of price movements within the economy. The report presents an analysis of both month-on-month and year-on-year variations in the CPI, offering valuable insights into the country's inflationary trends. This assessment is conducted by Statistics Botswana, which aims to provide a detailed understanding of the underlying inflationary dynamics.

Accurate and timely price statistics are vital in determining socio-economic and monetary policies. By providing policymakers with a clear understanding of inflationary pressures, price statistics support in the formulation of effective policy interventions. Statistics Botswana acknowledges the significance of this data and, accordingly, produces the Consumer Price Index on a monthly basis to meet the diverse informational needs for stakeholders.

In December 2024, Botswana recorded an annual inflation rate of 1.7 percent, the same rate as in November 2024.

Statistics Botswana extends sincere appreciation to all stakeholders who contributed invaluable insights and data for the compilation of this publication.

For more information and further enquiries, contact the Directorate of Stakeholder Relations at **+267 367 1300**. This publication and all other Statistics Botswana outputs/publications are available on the website at <http://www.statsbots.org.bw> and at the Statistics Botswana Information Resource Centre (Head-Office, Gaborone).

CONSUMER PRICE INDEX

SECTION 1: HEADLINE INFLATION

In December 2024, Botswana's annual inflation rate was 1.7 percent, the same rate as in November 2024. The primary drivers of the annual inflation rate in December were the Food & Non-Alcoholic Beverages and Miscellaneous Goods & Services categories, each contributing 0.7 of a percentage point. In contrast, the Transport group exerted a downward influence, contributing negative 0.7 of a percentage point to the overall inflation rate. [Refer to Table 1 and Chart 5.](#)

Between November and December 2024, inflation rates displayed variation across regions. In Urban Villages and Rural Villages, the inflation rate went down by 0.1 of a percentage point, from 1.8 percent in November to 1.7 percent in December and from 2.1 percent in November to 2.0 percent in December, respectively. Meanwhile, Cities and Towns inflation rate was 1.5 percent in December, the same rate as in November. [Refer to Table 2](#)

The national Consumer Price Index (CPI) rose by 0.1 percent, from 134.3 in November to 134.4 in December 2024. The Cities & Towns index was 134.1 in December, an increase of 0.1 percent on the November index of 134.0. The Rural Villages index went up, from 134.7 in November to 134.8 in December 2024, while the Urban Villages index was unchanged at 134.4 in December 2024. [Refer to Table 2.](#)

The group indices were generally moving at a stable pace between November and December 2024, recording changes of less than 1.0 percent. [Refer to Table 2.](#)

The Alcoholic Beverages & Tobacco index rose by 0.8 percent, from 140.0 in November to 141.1 in December 2024. The growth was attributable to the increase in section index of Alcoholic Beverages which went up by 0.9 percent. [Refer to Table 3.](#)

The Restaurants & Hotels index went up by 0.4 percent, from 126.9 in November to 127.5 in December 2024. The growth was caused by the increase in section index of Restaurants, Cafes & the Like which rose by 0.6 percent. [Refer to Table 3.](#)

The Transport group index was 149.3 in December 2024, a drop of 0.4 percent from the November index of 149.9. The decrease was due to a decline in the constituent section index of Operation of Personal Transport which went down by 1.1 percent. The overall decrease in the Operation of Personal Transport section index was a result of the fall in retail pump prices for diesel (50ppm) and Petrol (95) by P0.10 and P0.27 per litre respectively, which effected on 13th December 2024. [Refer to Table 3.](#)

In December 2024, the All-Tradeables index went down by 0.1 percent, from 140.6 in November to 140.5 in December. The Domestic Tradeables Index realised an increase of 0.2 percent, from 141.2 to 141.5, while the Imported Tradeables Index dropped by 0.2 percent, from 140.3 in November to 140.1 in December. The Non-Tradeables Index grew by 0.2 percent, from 125.7 in November to 126.0 in December 2024. [Refer to Table 4.](#)

The All-Tradeables inflation rate was 1.2 percent in December 2024, down by 0.2 of a percentage point from the November rate of 1.4 percent. The Imported Tradeables inflation rate dropped to 0.1 percent in December 2024, a decrease of 0.3 of a percentage point from the November rate of 0.4 percent. The Non-Tradeables inflation rate rose by 0.1 of a percentage point, from 2.3 percent in November to 2.4 percent in December. The Domestic Tradeables inflation rate was 4.3 percent in December, the same rate as in November. [Refer to Table 4.](#)

SECTION 2: CORE INFLATION

The Trimmed Mean Core inflation rate remained at 1.7 percent in December 2024. The Core Inflation rate, excluding administered prices, was 3.3 percent in December 2024, an increase of 0.2 of a percentage point from the November rate of 3.1 percent. [Refer to Table 5.](#)

CPI Area Coverage

Compiled and Prepared by Statistics Botswana, 2016

GLOSSARY

Consumer Price Index (CPI) is an index which measures price changes in goods and services with reference to a base period.

Inflation is a measurement of prices movement of goods and services in a particular country.

Contributions: These are percentage points that add up to the overall inflation rate. The contribution of a **group** to overall annual inflation depends on its weight in the consumption basket and its own annual inflation rate.

Domestic Tradeables refers to the goods and services which a country (Botswana) can export to other countries.

Imported Tradeables represents the goods and services which a country (Botswana) imports from other countries (trading partners).

Non-Tradeables refers to the goods and services which a country cannot either export to or import from other countries.

All –Tradeables refers to the total of **Domestic** and **Imported Tradeables**.

Trimmed Mean Core Inflation- attempts to remove 8 percent (by weight) of the commodity sub-groups price changes at each of the ends of an ordered series of price changes in any given month.

Core inflation by Exclusion is a measure used to remove the volatility inherent in prices that are only adjusted periodically and not always in response to currently prevailing market forces.
