STATISTICS BOTSWANA

PREFACE

This report provides an in-depth analysis of Botswana's monthly inflation rate, as measured by the Consumer Price Index (CPI). The CPI serves as a fundamental economic indicator, essential for tracking fluctuations in the cost of living, and offers a comprehensive overview of price movements across the national economy. The report systematically examines both month-on-month and year-on-year changes in the CPI, thereby offering critical insights into the inflationary trends within the country. This analysis is undertaken by Statistics Botswana, whose objective is to furnish a thorough understanding of the inflationary forces at play.

Precise and timely price data is indispensable for the formulation of socio-economic and monetary policies. By equipping policymakers, among other key stakeholders, with a clear understanding of prevailing inflationary pressures, such data plays a pivotal role in shaping informed decisions and guiding appropriate interventions. In recognition of its broad utility, Statistics Botswana compiles and publishes the Consumer Price Index on a monthly basis to serve the informational needs of diverse users.

In November 2025, Botswana recorded an annual inflation rate of 3.8 percent, reflecting a decrease of 0.1 of a percentage point on the October rate of 3.9 percent.

Statistics Botswana wishes to express sincere gratitude to all stakeholders whose invaluable contributions and data have significantly enhanced the compilation of this publication.

For more information and further enquiries, contact the Directorate of Stakeholder Relations at **+267 367 1300**. This publication and all other Statistics Botswana outputs/publications are available on the website at <http://www.statsbots.org.bw> and at the Statistics Botswana Information Resource Centre (Head-Office, Gaborone).

CONSUMER PRICE INDEX

SECTION 1: HEADLINE INFLATION

In November 2025, Botswana's annual inflation rate stood at 3.8 percent, a decline of 0.1 of a percentage point from the 3.9 percent recorded in October. The main contributors to annual inflation were the Transport group, at 1.5 percentage points, followed by Miscellaneous Goods & Services and Food & Non-Alcoholic Beverages, which accounted for 0.9 and 0.8 of a percentage point, respectively. In contrast, the Housing, Water, Electricity, Gas & Other Fuels and Communication groups applied downward pressure on inflation, contributing -0.5 and -0.1 of a percentage point, respectively. **Refer to Table 1** and **Chart 5**

Between October and November 2025, inflation dropped across all regions. In Rural Villages, the inflation rate declined by 0.2 of a percentage point, from 4.2 percent in October to 4.0 percent in November. The Urban Villages recorded a decrease of 0.1 of a percentage point, from 4.0 percent in October to 3.9 percent in November. Similarly, inflation in Cities and Towns fell by 0.1 of a percentage point, from 3.6 percent in October to 3.5 percent in November. **Refer to Table 2**

The national Consumer Price Index was unchanged between October and November at 139.3. The Rural Villages index was 140.2 in November 2025, a growth of 0.1 percent from the October index of 140.0. The Cities & Towns and Urban Villages indices were unchanged between October and November 2025, at 138.6 and 139.6 respectively. **Refer to Table 2**

The group indices were generally moving steadily between October and November 2025, recording changes of less than 1.0 percent, except for the Communication group which went down by 1.2 percent. **Refer to Table 2**

The Communication group index was 104.3 in November 2025, a decrease of 1.2 percent from the October index of 105.6. The decrease was due to a 1.6 percent decline in the section index of Telephone & Telefax Services. **Refer to Table 3**

The Alcoholic Beverages & Tobacco group index was 154.1 in November 2025 up by 0.7 percent, from 152.9 in October 2025. The growth was attributable to the increase of the section index of Alcoholic Beverages, which went up by 0.9 percent. **See Table 3.**

The Transport group index was 158.3 in November 2025, a decrease of 0.5 percent from the October index of 159.1. The decline was mainly due to the decrease in the constituent section index of Operation of Personal Transport, which went down by 1.1 percent. The overall decrease in the Operation of Personal Transport section index was due to the implementation of the unitary pricing for petroleum products which resulted in an average decline in retail pump prices of Petrol (95) by P0.32 per litre. These changes were effected on the 8th of November 2025. **Refer to Table 3.**

The Recreation & Culture group index went up by 0.5 percent, from 114.4 in October to 114.9 in November 2025. The rise was due to the general increase in the constituent section indices, notably; Audio Visual, Photographic & Information Processing Equipment (0.6 percent), Newspapers, Books & Stationary (0.4 percent) and Other Recreational Items & Equipments (0.4 percent). **Refer to Table 3.**

The All-Tradeables index was 148.8 in November 2025, an increase of 0.1 percent from the October index of 148.7. The Domestic Tradeables realised a rise of 0.5 percent, from 149.4 in October to 150.2 in November 2025. The Imported Tradeables Index was 148.2 in November 2025, a decline of 0.1 percent, from 148.4 recorded in October. The Non-Tradeables Index also went down by 0.1 percent, from 126.6 in October to 126.4 in November 2025. **Refer to Table 4.**

The All-Tradeables inflation rate was 5.9 percent in November 2025, a decrease of 0.1 of a percentage point from the October rate of 6.0 percent. The Domestic Tradeables inflation rate increased by 0.4 of a percentage point, from 6.0 percent in October to 6.4 percent in November. The Imported Tradeables inflation rate dropped by 0.4 of a percentage point, from 6.0 percent in October to 5.6 percent in November. The Non-Tradeables inflation rate was 0.6 percent in November, a decline of 0.1 of a percentage point from the October rate of 0.7 percent. **Refer to Table 4.**

SECTION 2: CORE INFLATION

The Trimmed Mean Core inflation rate went down by 0.2 of a percentage point, from 4.5 percent in October to 4.3 percent in November 2025. The Core Inflation rate (excluding administered prices) was 4.9 percent in November, registering an increase of 0.1 of a percentage point from 4.8 percent recorded in October. **Refer to Table 5.**

GLOSSARY

Consumer Price Index (CPI) is an index which measures price changes in goods and services with reference to a base period.

Inflation is a measurement of prices movement of goods and services in a particular country.

Contributions: These are percentage points that add up to the overall inflation rate. The contribution of a **group** to overall annual inflation depends on its weight in the consumption basket and its own annual inflation rate.

Domestic Tradeables refers to the goods and services which a country (Botswana) can export to other countries.

Imported Tradeables represents the goods and services which a country (Botswana) imports from other countries (trading partners).

Non-Tradeables refers to the goods and services which a country cannot either export to or import from other countries.

All –Tradeables refers to the total of **Domestic** and **Imported Tradeables**.

Trimmed Mean Core Inflation- attempts to remove 8 percent (by weight) of the commodity sub-groups price changes at each of the ends of an ordered series of price changes in any given month.

Core inflation by Exclusion is a measure used to remove the volatility inherent in prices that are only adjusted periodically and not always in response to currently prevailing market forces.
