# Preface

This statistical release contains the second quarter of 2026 Gross Domestic Product (GDP) estimates by economic activity and components of final demand, at current and constant prices.

Gross Domestic Product is the total monetary value of all final goods and services produced within a country's borders during a specific period. GDP is widely used to assess economic growth and the overall performance of an economy

Botswana's National Accounts are compiled according to the 2008 System of National Accounts (2008 SNA) framework. The accounts presented in this publication adhere to the enhanced General Data Dissemination System (e-GDDS) of the International Monetary Fund (IMF), which sets out standards for coverage, periodicity and timeliness of data.

**The estimates are provisional and subject to change. First estimates are normally based on limited data and hence cannot be precise and absolute. The figures are revised after receiving finalized or audited data from companies, in which some differences and inconsistencies in the previously published data may be observed.**

These estimates are not seasonally adjusted; hence the variations may differ depending on the quarters.

Statistics Botswana acknowledges and appreciates the contribution of all stakeholders in the production of this report.

# Executive Summary

Botswana's economy recorded 8.7 percent growth in real Gross Domestic Product (GDP) in the second quarter of 2026, compared with a 5.2 percent contraction in the corresponding quarter of 2025.

The nominal Gross Domestic Product (GDP) for the second quarter of 2026 was P70, 039.7 million, compared to revised P73, 281.9 million recorded in the previous quarter. This represents a quarterly decrease of 4.4 percent in nominal terms. During the quarter under review, Public Administration and Defense became the major contributor to GDP by 18.2 percent, followed by Wholesale & Retail at 13.1 percent and Construction at 12.2 percent. Mining and Quarrying stood at 9.5 percent.

Real GDP for the second quarter of 2026 increased by 8.7 percent. Performance of the primary activities was mixed during the second quarter of 2026. The Mining & Quarrying industry was an important contributor to the overall economic growth by 81.7 percent, supported by improvements in diamond production and other mining activities although this was partly offset by a 23.0 percent contraction in Agriculture, Forestry & Fishing

Among Secondary activities, the Water & Electricity industry experienced growth of 2.0 percent, while Manufacturing and Construction contracted by 9.2 percent and 1.6 percent, respectively

Services activities generally recorded positive growth during the second quarter of 2026. Wholesale & Retail Trade recorded a growth of 3.1 percent, reflecting continued activity in the distribution and sale of fast-moving consumer goods.

Accommodation & Food Services grew by 3.4 percent, supported by continued activity in accommodation and food service establishments. Transport & Storage registered marginal growth of 0.6 percent, while Finance, Insurance & Pension Funding grew by 2.2 percent. Other services industries also recorded positive growth. Public Administration & Defence increased by 1.4 percent. Education grew by 3.3 percent, while Human Health & Social Work Activities increased by 3.1 percent.

Non-mining GDP decreased by 0.2 percent in the second quarter of 2026, compared with a 2.8 percent increase in the corresponding quarter of 2025.

Total final consumption expenditure contracted by 3.0 percent, driven mainly by a 7.3 percent decline in Household Final Consumption Expenditure, while Government Final Consumption Expenditure increased by 2.4 percent. Gross Fixed Capital Formation increased by 7.8 percent, indicating stronger investment activity. Meanwhile, real exports of goods and services increased by 5.2 percent, reversing the 4.1

1. Quarterly Gross Domestic Product (QGDP)

Quarterly Gross Domestic Product estimates assist in the analysis of short-term movements in the economy, as opposed to the annual GDP, which provides an in-depth and comprehensive view of the changes in the economy. Quarterly National Accounts adopt the same concepts, definitions and structure as Annual National Accounts.

1.1 Revisions in this release

Revisions in the National Accounts are always necessary because they allow for the incorporation of additional and improved data that were not available at the previous release date.

The revisions arising from the updated source data were insignificant and did not affect the GDP estimates published in the previous quarterly release of June 2026. Consequently, the changes were not sufficient to alter the previously published GDP estimates. The change although affected Finance, Insurance & Pension Funding and taxes on products less subsidies

2.0 Second Quarter Gross Domestic Product

2.1 Key Findings

The GDP at constant 2016 prices for the second quarter of 2026 was P51, 942.7 million compared to the revised P51, 262.0 million recorded in the first quarter of 2026 (See table 3).

The real Gross Domestic Product increased by 8.7 percent during the period under review, as opposed to a contraction of 5.2 percent in the same quarter of 2025. The increase was mainly attributed to real value added growth of the Mining & Quarrying industry by 81.7 percent. The positive economic performance was further supported by industries that experienced positive growth, namely, Professional, Scientific & Technical Activities (3.8 percent), Accommodation & food Services activities (3.4 percent), Education (3.3 percent) and Wholesale & Retail Trade (3.1 percent, All industries recorded positive growths of more than 0.6 percent, except Agriculture, Forestry & Fishing and , Diamond Traders which declined by 23.0 percent and 27.9 percent respectively, followed by Manufacturing at 9.2 percent, Construction 1.6 percent and Administrative and Support Services at 0.2 percent, (refer to table 4).

FIGURE 1: Real GDP Growth Rates

The strong real GDP growth of 8.7 percent was primarily driven by increased production in export-oriented industries, particularly diamond mining. Although domestic final demand declined by 3.0 percent, the increase in production for external markets supported overall economic activity. Gross Fixed Capital Formation increased by 7.8 percent, compared to a decline of 4.4 percent registered in the corresponding quarter of 2025, reflecting a higher investment.Food Services industries. The contributions of these industries to real GDP growth are discussed further below.

2.2 Real Non-Mining GDP

The Non-mining GDP decreased by 0.2 percent from P41 740.07 to P41 655.02 in the second quarter of 2026 compared to the 2.8 percent increase registered in the same quarter of the previous year.

2.3 Contributions to GDP by Economic Activities

During the quarter under review, Public Administration & Defence became the major contributor to GDP at 18.2 percent, followed by Wholesale & Retail at 13.1 percent, Construction at 12.2 percent and Mining & Quarrying at 9.5 percent.

FIGURE 2.3: Contributions to GDP by Economic Activities (2026 Q2)

3.0 Percentage Changes in Value Added at Constant 2016 Prices

3.1 Agriculture, Forestry and Fishing

The Agriculture, Forestry and Fishing industry recorded a 23.0 percent decline in real value added during the second quarter of 2026, compared with a 1.6 percent increase in the corresponding quarter of 2025 (refer to Table 4 and Figure 3.1).

The downturn was primarily driven by contractions in the Livestock Farming, Support Services to agriculture and Forestry & Fishing sub-industries, which declined by 47.8 percent, 24.3 percent and 1.0 percent, respectively. The drop in Livestock Farming was largely due to livestock movement restrictions due to Foot & Mouth Disease (FMD), which continues to negatively affect the livestock production and agricultural activity. Notably, cattle sales to the Botswana Meat Commission (BMC) fell by 46.3 percent, attributed to the outbreak of FMD during the quarter.

FIGURE 3.1: Agriculture Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

FIGURE 3.2: Mining and Quarrying Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.3 Manufacturing

The Manufacturing industry experienced a decline of 9.2 percent in the second quarter of 2026 compared to a contraction of 0.5 percent registered in the corresponding quarter of 2025 (see Table 4 and Figure 3.3).

The decline in the industry is attributed mainly to the highest fall of 61.0 percent in the sub-industries of Meat and Meat Processing due to the Foot and Mouth Disease scourge. Diamond cutting & polishing followed with a reduction of 21.4 percent, and another significant decline was in Manufacture of Dairy Products at 8.4 percent.

FIGURE 3.3: Manufacturing Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.6 Wholesale and Retail

The Wholesale and Retail Trade real value added increased by 3.1 percent in the second quarter of 2026 compared to a rise of 4.1 percent registered in the same quarter of the previous year. The industry deals with the sales of fast-moving consumer goods. The positive performance during the quarter indicates continued activity in the distribution and sale of goods across the economy (refer to Table 4 and Figure 3.6).

FIGURE 3.6: Wholesale and Retail Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.7 Diamond Traders

Diamond Traders recorded a negative growth of 27.9 percent compared to a decline of 46.2 percent registered in the same quarter of the previous year (refer to Table 4 and Figure 3.7).

FIGURE 3.7: Diamond Traders Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.10 Information and Communications Technology (ICT)

The ICT industry comprises a) Publishing including motion pictures, etc. and printed matter, b) Radio & Television Broadcasting, c) Telecommunications services and d) Computer Programming & Information Services Activities.

The Information and Communications Technology industry value added rose by 1.1 percent in the second quarter of 2026, compared to a 1.2 percent increase in the same quarter of the previous year (refer to Table 4 and Figure 3.10).

FIGURE 3.10: ICT Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.11 Finance, Insurance and Pension Funding

The industry comprises of Central Banking activities, Monetary Intermediation & Financial Services, Insurance & Pension Funding and Financial & Insurance auxiliary services.

During the second quarter of 2026 the Finance, Insurance and Pension Funding industry registered a growth of 2.2 percent compared to 5.4 percent registered during the same quarter in 2025. This was due to the growth in Monetary Intermediation & Financial Services, Financial and Insurance Auxiliary Services and Insurance and pension funding, by 3.4 percent, 1.4 and 0.2 percent respectively, during the quarter under review (refer to Table 4 and Figure 3.11).

FIGURE 3.11: Finance, Insurance and Pension Funding Real Value Added Growth Rates

3.13 Professional, Scientific and Technical Activities

This industry includes Legal Services; Accounting, Bookkeeping and Auditing; Management Consultancy; Architectural and Engineering Services; Research and Experimental Development; Advertising and Marketing; Specialized Design and Photographic Services; and Veterinary Activities.

The real value added of Professional, Scientific and Technical Activities grew by 3.8 percent in the second quarter of 2026, compared to a 3.6 percent increase recorded in the same quarter of the previous year (refer to Table 4 and Figure 3.13).

FIGURE 3.13: Professional, Scientific Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.14 Administrative Support and Services Activities

It comprises of Renting activities (renting and leasing of vehicles, renting of machinery and equipment, renting of personal and household goods etc.), Employment and Human Resource Activities, Private security and investigation activities, Cleaning and landscaping services, Business support activities. The industry also includes Travel agency activities, Tour operator's activities and Other Reservation Services and Related Activities.

Administrative & Support Services Activities real value added decreased by 0.2 percent in the second quarter of 2026 compared to a growth of 3.4 percent registered in the same quarter of the previous year. The decline was attributed to Other Administrative & Support Services, which decreased by 2.5 percent. In contrast, Travel agents, Tour operators and related activities increased by 2.4 percent. The growth in the tour operators industry was driven by the increase of international and domestic passenger movements by 5.5 percent, witnessed during the quarter under review (refer to table 4 and figure 3.14)

FIGURE 3.14: Administrative Support and Services Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.16 Education

This Includes both public and private education activities e.g., pre-primary & primary education, General secondary education, Technical & vocational secondary education, Higher education etc. Public Education is mainly the Department of Teaching Service Management (TSM).

The Education industry recorded a growth rate of 3.3 percent, compared to 4.4 percent in the corresponding quarter of 2025 (refer to Table 4 and Figure 3.16).

FIGURE 3.16: Education Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.17 Human Health Activities and Social Work Activities

It includes both public & private health and social work activities e.g., Hospital activities, medical & dental practice activities, and human health activities. Public Health is mainly the Department of Health Services Management (HSM).

The Human Health Activities and Social Work Activities industry real value added grew by 3.1 percent in the second quarter of 2026 compared to an increase of 3.4 percent registered during the corresponding quarter of 2025 (refer to Table 4 and Figure 3.17).

FIGURE 3.17: Human Health Real Value Added Growth Rates (2020 Q1 – 2026 Q2)

3.18 Other Services

This industry includes Arts, Entertainment & Recreation, Activities of membership organizations and Other Services activities like Dry cleaners, Hairdressing and Other Beauty Treatment, Funeral and Related Activities and Households as Employers of Domestic Personnel.

4.0 Components of Real GDP by Type of Expenditure

The total final consumption expenditure declined by 3.0 percent in the second quarter of 2026 compared to the 2.4 percent increase recorded in the corresponding quarter of 2025. Household Final Consumption decreased by 7.3 percent while Government Final Consumption increased by 2.4 percent. Gross Fixed Capital Formation increased by 7.8 percent. (See Table A2 and Figure 4.1).

Real exports of goods and services increased by 5.2 percent in the second quarter of 2026 as opposed to a 4.1 percent decline realised in the same quarter of 2025.

Real Imports of goods and services increased by 10.7 percent in the second quarter of 2026, compared to the 18.3 percent decrease registered in the same quarter of the previous year.
