STATISTICS BOTSWANA

**PRODUCER PRICE INDEX
(MINING AND UTILITIES)
– QUARTER 2 of 2023**

Preface

This report presents Botswana's quarterly Producer Price Index (Mining and Utilities), which is used to derive the producers' inflation rate. The inflation rate measures the change in the Producer Price Index (PPI) for the quarter under review compared to the previous quarter (quarter-on-quarter changes) as well as to the corresponding quarter in the previous year (year-on-year changes).

Price Statistics information is suitable for the formulation of socio-economic and monetary policies. Statistics Botswana produces the quarterly Producer Price Index (Mining and Utilities) to meet the needs of stakeholders.

The Mining Producers' annual inflation rate was -1.1 percent, a decrease of 13.3 percentage points from 12.2 percent recorded on the first quarter of 2023.

Statistics Botswana recognises and extends appreciation to all stakeholders who provided information for the production of this publication.
