PREFACE

This is an annual publication of Statistics Botswana. The information contained in this publication is compiled from the completed Immigration Arrival/Departure forms.

Travelers leaving and entering Botswana are required to complete arrival and departure forms at all gazetted points of entry/departure. In case of those immigration posts handling heavy passenger traffic, recording more than 400 arrivals/departures a month, a ten percent sample of forms is selected for analysis and the resulting figures are finally grossed up accordingly. Forms from boarders with low passenger traffic are not sampled but a 100 percent analysis is done. Botswana citizens are exempted from completing immigration forms. The figures on arrivals and departures contained in this publication therefore cover only non-citizens, both visitors and temporary residents of Botswana.

It is important for the Immigration Department to ensure that the arrival/departure forms are completed properly and by all, as this will help to improve the quality of data.

Users who require more information can contact the Demography Unit of Statistics Botswana at the address on the copyright page.

EXECUTIVE SUMMARY

1.0 Introduction

Tourism Statistics Report is an annual publication containing statistics of non-citizens entering and leaving the country. Country of residence, nationality, purpose of entry, mode of travel, point of entry/departure or border post, age and sex classify the statistics compiled in this report. This information is collected through the border posts from the departure/entry forms, completed by persons crossing the border. It is worth noting that only non-citizens fill this form, as citizens are exempted from filling it.

2.0 Arrangement of Tables

Tables in this publication deal with two categories of arrivals and departures; Tables 1 to 13 show information on arrivals, while Tables 14 to 19 provides information on departures.

3.0 Total Arrivals

The number of arrivals in 2009 was 2, 336,288, reflecting a decrease of 10.4 percent from 2,608,886 in the year 2008 (Table 1). Chart 1 shows arrival trends from 1999 up to 2009. The arrivals lingered around 2,000,000 from 1999 to 2007 after which there was a gradual increase in 2007 into 2008 followed by a drop in 2009.

Chart 1: Total Arrivals 1999 – 2009

3.1 Arrivals by Nationality

Most arrivals, constituting 89.0 percent of all arrivals, were from the continent of Africa. Europe accounted for 6 percent, followed by America and Asia by 2 percent each and the lowest percentage arrivals (0.64 percent) were from the Oceania.

Zimbabwean nationals constituted the highest percentage (46 percent) of all persons entering Botswana in 2009, followed by South Africa (31.1 percent), Zambia (7.5 percent) and Namibia (5.1 percent). The remaining African countries accounted for less than 1 percent each of the total arrivals. (Table1).

3.2 Arrivals by Purpose of Entry

Chart 2 indicates that of all the arrivals in the country, 31.0 percent declared their reason for entry as visiting, followed by those who were in transit (17.3 percent). Those on holiday constituted 13.7 percent of all arrivals. Only 6 percent came for business while 0.4 percent came as job seekers. More males than females entered the country for different reasons.

Of the total arrivals, 46 percent were Zimbabwean nationals. Of these 47.2 percent came as visitor, 10.3 percent were returning residents, about 6 percent were on holiday and less than 1 percent were job seekers. South African nationals entering the country constituted 31.2 percent of all arrivals of which a quarter came as visitors, 15.4 percent were on holiday while 10 percent were on business.

Chart 2: Percentage of Arrivals by Purpose of Entry - 2009

3.3 Distribution of Arrivals by Sex and Age group

Generally there were more male arrivals (1,432,291) compared to their female counterpart (903,997). About 60 percent of all arrivals in 2009 were males (Table 1). Africa and Asia had a high sex differential in arrivals as 62 percent of all arrivals from Africa and 66 percent from Asia were males. Europe followed with 55 percent of its arrivals being males. Males from America and Oceania constituted 48.3 and 51.5 percent of arrivals respectively.

Chart 3 shows that most arrivals in 2009 were in the age groups 25-29 (16.3 percent), 30-34 (16.7 percent), 35-39 (15.5 percent) and 40-44 (12.0 percent). All other age groups recorded less than 10 percent of the total arrivals.

Chart 3: Percentage of Total Arrivals by Age Group - 2009

3.4 Arrivals by Border Post

Ramokgwebana border was the busiest of all the borders receiving 814,840 arrivals in 2009, followed by Tlokweng gate by 264,770 (11.3 percent), Kazungula Ferry with 176,330 (7.6 percent), Martins Drift and Pioneer both with 6.3 percent and Ramatlabama border with 5.8 percent. The remaining borders received less than 5 percent of all the arrivals in 2009 (Table 10).

3.5 Month of Arrival

Generally arrivals were well distributed amongst the months of the year. Chart 4 shows that December was the busiest month of arrival with 225,390 (9.7 percent) persons entering the country. It was followed closely by January and August, both receiving 9.2 percent of the total arrivals. The remaining months received arrivals ranging from 7.5 percent to 9.0 percent of the total arrivals (Table 8).

Chart 4: Total Arrivals by Month of Arrivals - 2009

3.6 Mode of Travel

The most common mode of travel is road which was used by 94.0 percent of all persons entering the country (Table 12). This is attributable to the fact that most of the entry points are accessed by road since Botswana is a landlocked country. About 5.0 percent of arrivals were by air and less than a percent of the arrivals used rail.

4.0 Total Departures

A total of 2,340,341 departures were recorded in 2009 (Table 14), a decrease of 6.9 percent from the 2008 departure figure of about 2,512,692. The 2008 figure shows that there were more arrivals than departures. Out of all departures, males constituted the highest proportion of 61.5 percent compared to their female counterparts.

4.1 Departures by Nationality

Departures from Botswana were mostly Southern Africa nationals, with Zimbabwe constituting the highest percentage (43.2 percent) followed by South Africa (31.1 percent), Zambia (7.5 percent) and Namibia (4.9 percent) (Table 14). Departures of European countries nationality accounted for 5.9 percent of all departures, followed by those of American (2 percent), Asian (1.9 percent) and Oceania (0.7 percent) nationalities.

4.2 Departures by Age

A similar pattern to arrivals with regard to age is observed in the departures. The age-groups 25-29, 30-34, 35-39 and 40-44 were more represented accounting for 16.0, 16.8, 15.5 and 12.2 percent of all the departures respectively. This is so because almost the same people who entered the country are bound to depart at one point in time.

Chart 5: Percentage of Total Departure by Age Group - 2009

4.3 Departures by Month, Mode of Travel and Border

The month of December recorded the highest departures (257,746) accounting for 11.0 of all departures, followed by July and August each recording 9 percent of the departures. The lowest number of departures was recorded in February accounting for 6.5 percent of all the departures.

The road is the most commonly used mode of travel used to enter and leave the country. About 93 percent of the departures were by road followed by air (5 percent) and rail was used by less than 2 percent of travellers departing the country.

Ramokgwebana was the busiest of the borders recording 35.6 percent of the total departures. It was followed by Tlokweng gate with 11.5 percent and the rest of the borders recorded less than 10 percent of the departures each.
