Transport and Infrastructure Stats Brief Quarter 2, 2024

Preface

This Stats Brief presents a summary of Transport and Infrastructure Statistics for Quarter 2, 2024. It covers Motor Vehicle Registrations, Rail and Air Transport statistics.

A total of 11,459 Motor Vehicles were registered for the first time in Q2 2024. Out of this total, 80.6 percent were used vehicles. Brand new and rebuilt vehicles made up 19.3 and 0.1 percent of the total respectively. Motor Vehicle Licenses renewed this quarter were 143,534, an increase of 13.9 percent from the previous quarter.

During Q2 2024, a total of 274,681 net tonnes of goods were transported using rail and the revenue generated thereof amounted to P65.4 million. The volume of goods transported increased by 2.4 percent while revenue increased by 0.7 percent.

Aircraft movements increased by 65.6 percent from the 12,509 movements recorded in the previous quarter to 20,712 movements in Q2 2024. A total of 224,485 passenger movements were recorded, of which 54.9 percent were international and 45.1 percent were domestic.

For more information and further enquiries, contact the Directorate of Stakeholder Relations at +267 367 1300. This publication, and all other Statistics Botswana outputs/ publications are available on the website at (http://www.statsbots.org.bw) and at the Statistics Botswana Information Resource Centre (Head-Office, Gaborone).

Statistics Botswana acknowledges and extends gratitude to the various Government departments and/or organizations that provided information for this publication.

Phetogo P. Zambezi **Acting Statistician General** October 2024

1. Motor Vehicle Registration

1.1 Motor Vehicles Registered for the First Time

A total of 11,459 motor vehicles were registered for the first time in Q2 2024, this was an increase of 8.8 percent when compared to the previous quarter. Passenger cars made up 75.8 percent of motor vehicles registered for the first time, followed by vans and trailers at 9.0 and 5.5 percent respectively. Motor cycles registered the least number with 0.4 percent of the total. See **Table 1** in **Appendix 1**.

Motor vehicles originating from Japan accounted for most of the motor vehicles on first registration, at 68.3 percent of the total. The Republic of South Africa followed with 21.8 percent of the total.

Used vehicles accounted for 80.6 percent of the total vehicles registered for the first time while brand new ones made up 19.3 percent. Rebuilt vehicles accounted for 0.1 percent of the total, with 57.1 percent of them being passenger cars. Majority of the brand new vehicles were from the Republic of South Africa, at 80.9 percent while 84.3 percent of the used vehicles were from Japan. See **Figure 1** below, **Tables 2** and **3** in **Appendix 1**.

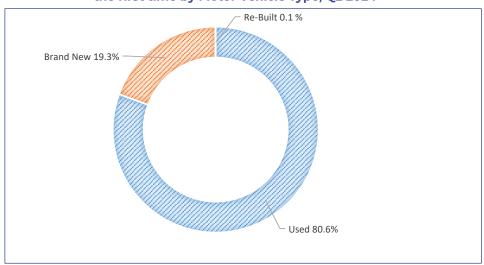

Figure 1: Percentage contribution of Motor Vehicles Registered for the first time by Motor Vehicle Type, Q2 2024

Mazda vehicles dominated in motor vehicles registered for the first time in Q2 2024, constituting 20.4 percent of the total. Toyota and Honda vehicles followed with 19.5 and 19.0 percent of the total respectively. The bulk of first registrations were done in May with 37.4 percent of the total. June and April registered 32.1 and 30.4 percent of the first registrations respectively. This is shown **Table 4** and **5** in **Appendix 1**

Gaborone recorded the highest number of motor vehicles on first registration at 66.0 percent of the total. Francistown and Lobatse stations followed with 8.5 and 5.3 percent of the total respectively. See **Table 6** in **Appendix 1**

1.2 Motor Vehicle License Renewals

Motor vehicle license renewals in Q2 2024 totaled 143,534, an increase of 13.9 percent from the previous quarter. The majority of motor vehicle license renewals were recorded in May which accounted for 35.8 percent of the total. June and April constituted 32.2 and 32.0 percent of the total motor vehicle license renewals respectively. See Figure 2 below, Tables 7 and 8 in Appendix 1.

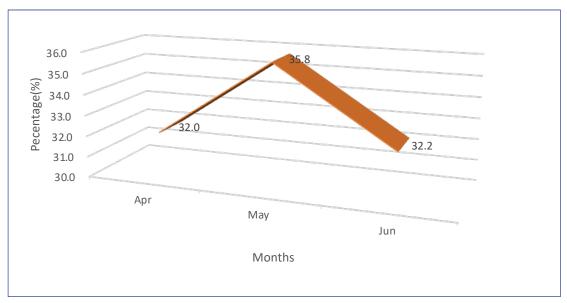

Figure 2: Motor Vehicles License Renewals by Month, April - June 2024

Most of the motor vehicles whose licenses were renewed were Toyota and they accounted for 42.8 percent of total. License renewals for Mazda and Honda made up 9.4 and 8.8 percent of total motor vehicle license renewals respectively. See Table 9 in Appendix 1.

Rail Transport

A total of 274,681 net tonnes of freight was transported through rail in Q2 2024.

Rail Transport 2.

2.1 **Goods Transported Through Rail**

A total of 274,681 net tonnes of freight was transported through rail in Q2 2024, an increase of 2.4 percent when compared to the 268,247 tonnes recorded in the previous quarter. Total imports went up by 64.1 percent while total exports increased by 38.3 percent. Botswana total (an addition of total imports and goods that originated from Botswana) made up 90.6 percent of total goods transported. Goods that originated from Botswana accounted for 58.3 percent of the total. See Table 10 in Appendix 2 and Figure 3.

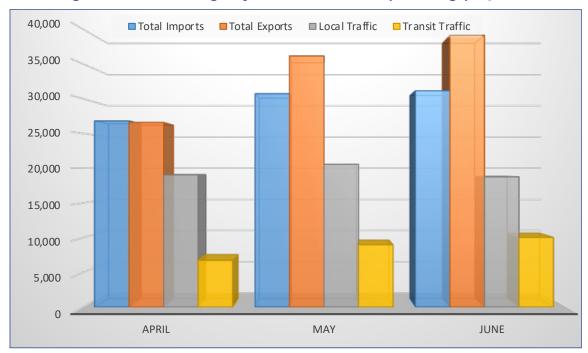

Figure 3: Volume of Freight by Direction and Month (Percentage) - Q2 2024

2.2 **Revenue Generated from Goods Transported Through Rail**

An increase of 0.7 percent in revenue generated from transportation of rail freight was recorded during the quarter under review, from P65.0 million recorded in the previous quarter to P65.4 million. Most of the revenue was generated from Total Exports at 39.9 percent, followed by Total Imports at 24.8 percent. Local traffic and transit traffic accounted for 23.1 and 12.1 percent of the total respectively. During the month of June, total revenue of P23.4 million was generated, which was 35.7 percent of the total. The months of May and April contributed 34.7 and 29.6 percent respectively. See Table 11 in Appendix 2 and Figure 4.

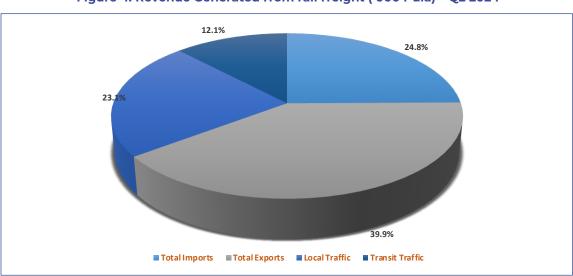

Figure 4: Revenue Generated from rail freight ('000 Pula) - Q2 2024

Air Passenger Movement

Out of these, 81.2
percent were
domestic while
international
movements
constituted 18.8
percent

Air Transport

3.1 **Aircraft Movements**

Aircraft movements recorded this quarter stood at 20,712, a 65.6 percent increase when compared to the 12,509 movements recorded in Q1 2024. Out of these, 81.2 percent were domestic while international movements constituted 18.8 percent. When compared to the previous quarter both types of movements increased; domestic movements increased by 77.9 percent while international movements increased by 27.4 percent. This is as shown in Table 12 in Appendix 3.

Figure 5: International and Domestic Aircraft Movements Quarter - to - Quarter Percentage Changes

Figure 5 above shows quarterly changes for both domestic and international aircraft movements...

During this quarter, 76.3 percent of the aircraft movements were non-scheduled and the majority of these (91.1 percent) were domestic. Scheduled movements made up 15.8 percent of the total aircraft movements with 72.5 percent of them being international. Scenic aircraft movements made up 5.8 percent and constituted 7.1 percent of total domestic aircraft movements. As shown in Table 13a in Appendix 3

Non-scheduled arrivals made up 38.3 percent of the total aircraft movements while non-scheduled departures constituted 38.1 percent. Both domestic non-scheduled arrivals and departures accounted for 91.1 percent each of total movements. International non-scheduled arrivals and departures constituted 8.9 percent each. Though that's the case, non-scheduled arrivals made up 43.0 percent of the total domestic aircraft movements while non-schedule departures made up 42.7 percent of the domestic movements. See Table 13b in Appendix 3

Aircraft movements recorded at Maun airport constituted 67.5 percent of the total aircraft movements recorded this quarter. Maun airport recorded an increase of 75.1 percent in aircraft movements from 7,983 movements registered in Q1 2024. All airports except Ghanzi recorded increases in aircraft movements; aircraft movements for Ghanzi declined by 15.4 percent. See Table 14 in Appendix 3.

3.2 Air Passenger Movement

During the quarter under review, 224,485 passenger movements were recorded, of which 54.9 percent were international movements and 45.1 percent were domestic. Passenger movements went up by 38.8 percent from 161,472 in the previous quarter. Domestic passenger movements increased by 47.1 percent while international movements went up by 32.6 percent. See **Table 15** in **Appendix 3.**

Scheduled movements made up the majority of the air passenger movements at 72.3 percent. These were followed by non-scheduled movements at 25.0 percent while scenic and private movements stood at 1.8 percent and 0.9 percent respectively. Compared to the previous quarter, passenger movements increased for all the flight types; scenic movements went up by over 100 percent, non-scheduled movements went up by 83.6 percent while private and scheduled movements increased by 41.4 percent and 26.7 percent respectively. This is shown in **Table 16** in **Appendix 3.**

Sir Seretse Khama International Airport (SSKIA) recorded the highest number of air passenger movements with 45.3 percent. Of these movements, 97.0 percent were scheduled, making SSKIA the airport with the highest number of scheduled passenger movements with 60.8 percent. Maun airport recorded the second highest number of air passenger movements with 37.4 percent and had the highest number of non-scheduled passenger movements with 67.6 percent. Scenic passenger movements for Maun stood at 95.0 percent while the remaining 5.0 percent were recorded at Kasane airport. **Table 17** in **Appendix 3.**

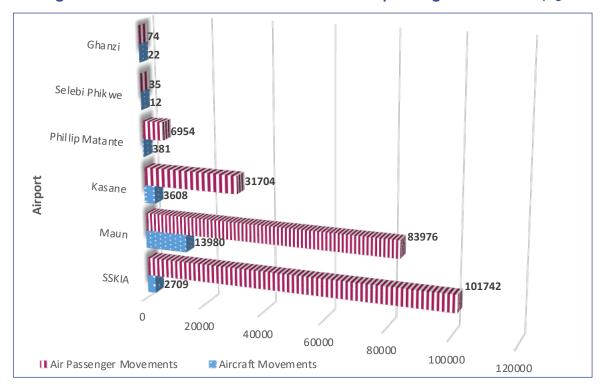

Figure 6: Number of Aircraft Movements and Air passenger movements, Q2

Figure 6 above shows aircraft and passenger movements in airports in Botswana. SSKIA has fewer aircraft movements than Maun but has the highest number of passenger movements. This is because most of the aircraft movements for SSKIA are international therefore carry a larger quantity of passengers compared to Maun airport with the majority of the aircraft movements being domestic and carrying less number of passengers.

Explanatory Notes

1. **Motor Vehicle Registrations**

Motor vehicle registration deals with licensing of motor vehicles with respect to those registered for the first time and license renewal of pre-existing ones. First registrations are done at the Department of Road Transport and Safety (DRTS) only, while license renewals are done at DRTS offices, Post Offices country wide and some stores like Sefalana Cash and Carry. First Registration could be new, used or rebuilt.

2. **Rail Transport**

Rail Transport covers passengers and goods transported by rail and the revenue generated from the conveyance of these goods and passengers. Botswana Origin is comprised of Total Exports and Local Traffic goods while Botswana Total is an addition of Total Imports and Botswana Origin goods. Total Traffic is made up of Total Exports, Total Imports, Local Traffic and Transit Traffic. Local traffic is goods transported within Botswana and Transit Traffic is goods transported through Botswana to other countries.

3. **Air Transport**

Air transport section covers the movement of aircrafts and air passengers both locally and internationally.

International movements refer to movements made by aircrafts and passengers to destinations outside Botswana whilst domestic movements account for travels made within Botswana. The movements are further categorized into scheduled, non-scheduled and private.

Scheduled aircraft movements refer to commercial airlines operating on a time table while nonscheduled aircraft movements refer to commercial aircrafts which operate as and when needed. Private aircraft movements refer to non-commercial individual aircrafts. Scenic aircraft movements refer to airlines that focus on wildlife and surrounding natures.
